

Sample 1z0-1093-25 Questions | Valid Exam 1z0-1093-25 Preparation

P.S. Free 2026 Oracle 1z0-1093-25 dumps are available on Google Drive shared by ExamsTorrent:
https://drive.google.com/open?id=1W0WZrUA-QXrw2s6H0NWnZzKkGmlKit_x

First of all, we have the best and most first-class operating system, in addition, we also solemnly assure users that users can receive the information from the 1z0-1093-25 learning material within 5-10 minutes after their payment. Second, once we have written the latest version of the 1z0-1093-25 learning material, our products will send them the latest version of the 1z0-1093-25 Training Material free of charge for one year after the user buys the product. Last but not least, our perfect customer service staff will provide users with the highest quality and satisfaction in the hours.

The experts in our company are always keeping a close eye on even the slightest change on the 1z0-1093-25 exam questions in the field. Therefore, we can assure that you will miss nothing needed for the 1z0-1093-25 exam. What's more, the latest version of our 1z0-1093-25 Study Materials will be a good way for you to broaden your horizons as well as improve your skills. You will certainly obtain a great chance to get a promotion in your company.

>> Sample 1z0-1093-25 Questions <<

Valid Exam 1z0-1093-25 Preparation & 1z0-1093-25 Online Tests

Our 1z0-1093-25 study guide provides free trial services, so that you can gain some information about our study contents, topics and how to make full use of the software before purchasing. It's a good way for you to choose what kind of 1z0-1093-25 test prep is suitable and make the right choice to avoid unnecessary waste. Besides, if you have any trouble in the purchasing 1z0-1093-25 practice torrent or trial process, you can contact us immediately and we will provide professional experts to help you online on the 1z0-1093-25 learning materials.

Oracle Cloud Database Services 2025 Professional Sample Questions (Q12-

Q17):

NEW QUESTION # 12

When provisioning a new BaseDB VM, which statement BEST describes the relationship between the available Database Versions and the selected Operating System image?

- A. The Database Version determines the Operating System image that will be used, irrespective of the initially selected image.
- **B. Only Database Versions compatible with the underlying Operating System image are presented as options during provisioning.**
- C. The chosen Operating System image is automatically upgraded to the latest version compatible with the selected Database Version after provisioning.
- D. All Database Versions are compatible with all Operating System images available in the OCI Marketplace.

Answer: B

Explanation:

B: Only compatible Database Versions are presented:

- * The provisioning process filters out incompatible combinations, presenting only database versions that match the chosen OS image.
- * This ensures that the database software can run properly on the selected OS.
- * This compatibility check prevents deployment failures and ensures system stability.

Why the other options are incorrect:

- * A. All Database Versions are compatible: Incorrect; some versions are OS-specific.
- * C. Automatic OS upgrade: OCI does not automatically upgrade the OS for compatibility.
- * D. Database version determines OS image: The OS image is selected independently, with the system ensuring compatibility.

NEW QUESTION # 13

How does HeatWave address the challenges of Online Analytical Processing (OLAP) compared to traditional row-based database systems?

- A. HeatWave uses a specialized indexing technique to speed up data retrieval.
- B. HeatWave leverages AI-powered indexing to optimize the data retrieval.
- **C. HeatWave employs a columnar data format in memory, enabling faster scans and aggregations for complex queries.**
- D. HeatWave automatically shards the database to distribute the workload across multiple nodes.
- E. HeatWave leverages a distributed caching mechanism to store frequently accessed data.

Answer: C

Explanation:

HeatWave's Columnar Processing:

HeatWave improves OLAP performance by storing data in a columnar format in memory. This format is particularly efficient for analytical queries because:

- * It minimizes the amount of data read by only scanning the necessary columns.
- * Columnar storage supports vectorized processing, which significantly speeds up aggregation operations.
- * Being in-memory, it eliminates disk I/O bottlenecks, crucial for high-speed analytics.

Why the other options are incorrect:

- * A: Indexing is useful, but columnar storage is the primary driver of speed.
- * C: Caching improves access times but does not address the fundamental OLAP challenge of processing large datasets.
- * D: HeatWave distributes workload using parallel processing, not simple sharding.
- * E: AI-powered indexing is not a core feature of HeatWave.

NEW QUESTION # 14

Which statement is FALSE regarding the relationship between provisioned throughput and workload characteristics in NoSQL Database Cloud Service?

- A. A write-heavy workload typically necessitates more write capacity units than a read-heavy workload.
- **B. Increased frequency of table scans reduces the throughput needed.**
- C. Higher query complexity generally requires higher read throughput.
- D. Larger average record sizes usually demand higher read and write capacity units.

Answer: B

Explanation:

Understanding Throughput in NoSQL:

Throughput in NoSQL databases is influenced by factors like query complexity, workload type (read/write), and record size.

- * Higher query complexity (A): Complex queries involving aggregation or joins consume more read capacity.
- * Write-heavy workload (B): Writes inherently require more capacity units due to data modification and consistency checks.
- * Larger record sizes (D): More data per operation increases the read/write capacity needed.

Why C is incorrect:

* C: Table scans involve reading large volumes of data, which increases throughput requirements rather than reducing them. Frequent table scans can overwhelm the system, especially with large datasets.

NEW QUESTION # 15

Which two of the following statements are true regarding security considerations for managing Exadata Cloud Infrastructure and VM Clusters?

- A. Customers are responsible for configuring host-based firewalls on the Exadata Infrastructure to protect against unauthorized access.
- B. Customers have full access to the Exadata Infrastructure's hypervisor and can implement custom security policies.
- C. Oracle manages all security aspects of the Exadata Infrastructure, relieving customers of any security responsibilities.
- **D. Customers are responsible for configuring and maintaining the security of the operating system and database software within the VM Clusters.**
- **E. Network Security Groups (NSGs) can be used to control network traffic to and from VM Clusters, enhancing security.**

Answer: D,E

Explanation:

B: Network Security Groups (NSGs) for traffic control:

- * NSGs allow customers to define ingress and egress rules to control network traffic.
- * Enhances security by restricting access to only authorized IP ranges and protocols.
- * Applied at the VM Cluster level to manage connectivity efficiently.

E: Responsibility for OS and database security:

- * While Oracle manages the infrastructure layer, customers are responsible for securing the operating system and database within the VM Clusters.
- * This includes applying security patches, configuring firewalls, and implementing user access controls.

Why the other options are incorrect:

- * A. Host-based firewalls on Exadata Infrastructure: Oracle, not the customer, configures the infrastructure-level security.
- * C. Oracle managing all security: Incorrect, as customers manage VM-level security.
- * D. Access to hypervisor: Customers do not have hypervisor-level access for security configuration.

NEW QUESTION # 16

Which component aids in assessing the readiness of a MySQL instance for migration to MySQL HeatWave, specifically identifying potential compatibility issues?

- A. MySQL Enterprise Monitor
- B. Oracle SQL Developer
- **C. MySQL Shell Upgrade Checker Utility**
- D. Oracle Cloud Advisor
- E. MySQL Workbench

Answer: C

Explanation:

C: MySQL Shell Upgrade Checker Utility:

- * The utility analyzes MySQL instances for compatibility with newer versions, such as MySQL 8.0 used by HeatWave.
- * It checks for:
 - * Syntax differences
 - * Data type mismatches
 - * Deprecated features

- * The tool outputs a report highlighting issues that may impact migration to HeatWave.
- Why the other options are incorrect:
- * A. MySQL Enterprise Monitor: Focuses on monitoring performance, not compatibility.
- * B. Oracle SQL Developer: Primarily used for database development, not upgrade checks.
- * D. Oracle Cloud Advisor: Provides cloud optimization recommendations, not MySQL compatibility checks.
- * E. MySQL Workbench: A visual tool for database design and administration, not specifically for upgrade assessment.

NEW QUESTION # 17

.....

Our company pays high attentions to the innovation of our 1z0-1093-25 study materials. We constantly increase the investment on the innovation and build an incentive system for the members of the research expert team. Our experts group specializes in the research and innovation of our 1z0-1093-25 Study Materials and supplements the latest innovation and research results into the 1z0-1093-25 study materials timely.

Valid Exam 1z0-1093-25 Preparation: <https://www.examstorrent.com/1z0-1093-25-exam-dumps-torrent.html>

One of the most important functions of our 1z0-1093-25 preparation questions are that can support almost all electronic equipment, including the computer, mobile phone and so on, With the most scientific content and professional materials 1z0-1093-25 preparation materials are indispensable helps for your success, Oracle Sample 1z0-1093-25 Questions Many persons know some other companies, but Let's give you the difference between us: Some other companies : cheap, more questions but you have to study them hard and they can't promise you how many test points, you have no confidence whether it can help you to pass the exam or not.

Those resources are divided into three practices, I Lost My Panel, One of the most important functions of our 1z0-1093-25 Preparation questions are that can support 1z0-1093-25 Online Tests almost all electronic equipment, including the computer, mobile phone and so on.

Prepare Your Oracle 1z0-1093-25 Exam with Valid Sample 1z0-1093-25 Questions Certainly

With the most scientific content and professional materials 1z0-1093-25 preparation materials are indispensable helps for your success, Many persons know some other companies, but Let's give you the difference between us: Some other companies : cheap, more questions but you have 1z0-1093-25 Reliable Study Plan to study them hard and they can't promise you how many test points, you have no confidence whether it can help you to pass the exam or not.

Does your study material work 1z0-1093-25 in the actual test, Experts proficient in this area.
