## SAP C\_ACT\_2403 Prüfungsplan:

| Thema   | Einzelheiten                                                                                                                                                                                                                                                                                                                                                                                                       |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Thema 1 | <ul style="list-style-type: none"><li>Agile Project Delivery: This section of the exam measures skills of Implementation Consultants and examines how you deliver agile projects in practice. It focuses on how to execute iterations, manage changes, incorporate feedback, and ensure continuous value delivery through incremental releases.</li></ul>                                                          |
| Thema 2 | <ul style="list-style-type: none"><li>SAP Activate Methodology Foundation and Tools: This section of the exam measures skills of SAP Project Managers and addresses the foundational methodology and tools used in Activate. It includes use of tools such as roadmap viewers, accelerators, and governance frameworks to support and guide projects.</li></ul>                                                    |
| Thema 3 | <ul style="list-style-type: none"><li>Workstreams Overview: This section of the exam measures skills of Implementation Consultants and gives an overview of the key workstreams in a SAP Activate project. It presents how different streams such as configuration, integration, testing, and governance interact across the project lifecycle.</li></ul>                                                          |
| Thema 4 | <ul style="list-style-type: none"><li>Transition Path “System Conversion” and “Selective Data Transition”: This section of the exam measures skills of Implementation Consultants and deals with converting existing SAP systems to S</li><li>4HANA or migrating selected data. It tests knowledge of conversion strategies, migration tools, and how to handle legacy data while minimizing disruption.</li></ul> |
| Thema 5 | <ul style="list-style-type: none"><li>Introduction to SAP Activate: This section of the exam measures skills of SAP Project Managers and introduces the SAP Activate methodology framework. It explores its phases, guiding principles, and how Activate helps streamline SAP S</li><li>4HANA implementations.</li></ul>                                                                                           |
| Thema 6 | <ul style="list-style-type: none"><li>Transition Path “New Implementation SAP S</li><li>4HANA Cloud, public edition”: This section of the exam measures skills of Implementation Consultants and lays out the approach for new cloud-based S</li><li>4HANA projects. It focuses on tasks, activities, and strategies specific to deploying S</li><li>4HANA in a public cloud environment using Activate.</li></ul> |

|         |                                                                                                                                                                                                                                                                                                                                                                                                                 |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Thema 7 | <ul style="list-style-type: none"> <li>• Transition Path “New Implementation SAP S</li> <li>• 4HANA On Premise”: This section of the exam measures skills of SAP Project Managers and covers the transition path for on-premise deployments. It describes how to apply Activate principles for a fresh install on the organization’s own infrastructure, considering constraints and configurations.</li> </ul> |

Denn Sie können durch die Benutzung ihre Zuverlässigkeit empfinden. Dadurch bekommen Sie mehr Konfidenz angesichts der SAP C\_ACT\_2403 Prüfung.

### SAP Certified Associate - Project Manager - SAP Activate C\_ACT\_2403 Prüfungsfragen mit Lösungen (Q22-Q27):

#### 22. Frage

According to the Definition of Done, which activity must be completed for each Sprint?

- **A. The solution must be built and configured in the development system (DEV)**
- B. End-user training must be delivered
- C. Functionality must be released to the business
- D. Functionality must be tested in the production system (PROD)

**Antwort: A**

Begründung:

\* B is correct because according to the Definition of Done, the solution must be built and configured in the development system (DEV) for each Sprint. This means that all user stories in the Sprint backlog must be completed, tested, and accepted by the product owner in the DEV system before moving to the next Sprint. Verified References:

\* : SAP Activate Project Management Certification Guide, page 114

#### 23. Frage

In which phase will the customer develop a preliminary strategy for building a target Operations and Support organizational model?

- **A. Prepare**
- B. Realize
- C. Discover
- D. Explore

**Antwort: A**

Begründung:

In the Prepare phase, customers develop a preliminary strategy for the Operations and Support organizational model, setting the groundwork for operational readiness and support structures required post-deployment.

#### 24. Frage

What are the two common approaches to Selective Data Transition adopting RISE with SAP? Note: There are 2 correct answers to this question.

- **A. Fit-to-Standard**
- **B. System Conversion**

- C. Shell Conversion
- D. Mix and Match

**Antwort: C,D**

Begründung:

In Selective Data Transition with RISE with SAP, Shell Conversion allows for migration with a minimal data footprint, while Mix and Match enables flexible selection of data and configurations to migrate. These approaches facilitate tailored migrations based on specific business needs.

## 25. Frage

When doing a new implementation on premise or private cloud, which system is recommended to demonstrate standard functionality in the Explore phase?

- A. Starter
- B. Sandbox
- C. Development
- D. Trial

**Antwort: B**

Begründung:

\* D is correct because Sandbox is the system that is recommended to demonstrate standard functionality in the Explore phase when doing a new implementation on premise or private cloud. The Sandbox system is a copy of the Development system that can be used for demonstration, exploration, and testing purposes. It allows the project team to show the customer the SAP Best Practices content and compare it with their business requirements. Verified References:

\* : SAP Activate Project Management Certification Guide, page 124

## 26. Frage

Which system tenants are the first to be provisioned when implementing SAP S/4HANA Cloud, public edition? (Choose two)

- A. SAP S/4HANA starter system
- B. Central Business Configuration System
- C. SAP Cloud Identity Services
- D. SAP S/4HANA sandbox system

**Antwort: A,B**

Begründung:

\* SAP S/4HANA starter system is a system that contains the predefined configuration and sample data for the selected scope items. It can be used for demonstration, exploration, and testing purposes.

\* Central Business Configuration System is a tool that enables customers to configure their SAP S/4HANA Cloud system by following guided steps and entering configuration data.

These two system tenants are provisioned after the customer signs the contract and provides the required information, such as company name, country, currency, and language. The provisioning process takes about 24 hours<sup>1</sup>.

## 27. Frage

.....

Die Schulungsunterlagen zur SAP C\_ACT\_2403 Zertifizierungsprüfung von unserem ZertSoft finden bei Kandidaten große Resonanz und somit genießen einen guten Ruf, das heißt, solange Sie die Schulungsunterlagen zur SAP C\_ACT\_2403 Zertifizierungsprüfung von unserem ZertSoft wählen, werden Sie erfolgreich sein. Wir werden Ihnen alle Ihren bezahlten Summe zurückgeben, entweder Sie die C\_ACT\_2403 Prüfung nicht bestehen, oder die Testaufgaben von SAP C\_ACT\_2403 irgend ein Qualitätsproblem haben. Darüber hinaus können Sie einjährige Aktualisierung kostenlos genießen, nachdem Sie unsere Produkte gekauft haben.
