NEW QUESTION # 61

What are two advantages of using an Agile Project Management tool? Choose 2 answers

- A. Increased visibility into sprint and project status
- B. Improve governance with gate steps in development
- C. Consolidate project artifacts to a common repository
- D. Better relationships with business stakeholders

Answer: A,C

NEW QUESTION # 62

Universal Containers has asked the salesforce architect to establish a governance framework to manage all of those Salesforce initiatives within the company. What is the first step the Architect should take?

- A. Implement a project management tool to manage all change requests on the project
- **B. Identify relevant Stakeholders from within Universal Containers to obtain governance goals and objectives**
- C. Implement a comprehensive DevOps framework for all initiatives within Universal Containers
- D. Establish a global Center of Excellence to define and manage Salesforce development standards across the organization

Answer: B

NEW QUESTION # 63

Universal Containers (UC) is working on a project to support environmental cleanup projects with specially designed containers. To support this project, UC is developing a portal for regulatory agencies to use for tracking and reporting of the containers, and these regulatory requirements are well-defined. Many non-regulatory requirements have not been defined yet. The project is on a strict budget and timeline. Which two approaches should UC consider to meet regulatory requirements and to satisfy the needs of end users? Choose 2 answers

- A. Initiate an Agile project, beginning with a "sprint 0" to scope and estimate the project and to build the product backlog. Identify the minimum viable product. Initiate building the solution based on the backlog, and co-create the design with the project stakeholders
- **B. Initiate a waterfall project by gathering the remaining requirements and completing the architecture and design. Initiate the build/test processes with frequent reviews by the stakeholders. On build completion, perform acceptance testing and validate compliance with regulatory requirements**
- C. Initiate an Agile project based on the known requirements, begin building immediately, and work through remaining requirements as they come up. Budget and timeline will not be a factor with an Agile methodology
- **D. Initiate a waterfall project and start building the features of the solution based on regulatory requirements. In parallel, gather the remaining non-regulatory requirements for the solution, then go back and reconcile the two sets of requirements and re-work the solution as necessary**

Answer: B,D

NEW QUESTION # 64

Universal Containers (UC) has a large backlog of work. They have noticed that despite their best efforts, valuable enhancements and updates are not being completed because they do not have the bandwidth to get them done. Many of these items are low effort and would not require experienced resources.

What should the architect recommend that will minimize additional costs and allow UC to accomplish more from the

- A. UC should hire a partner to complete the needed backlog items.
- **B. UC should start a citizen development program**
- C. UC should hire additional resources to reduce the backlog.
- D. UC should eliminate low-value items from the backlog.

Answer: B

NEW QUESTION # 65

Universal Containers (UC) is a large enterprise with a complex system landscape. UC is currently rolling out new infrastructure and strategies around Salesforce DevOps. Some of the key feature's UC is looking to support is rollback of metadata after a deployment, and the backup and restore of data to help recover from deployment issues, system bugs, or outages in their downstream systems.

Regulations in the industry mean that UC must be able to provide strategies to recover and rollback from issues. The regulator has discovered UC is not currently providing these, and must do so as soon as possible to remain compliant.

What should an architect advise?

- A. Advise stakeholders that rollback is not possible for Salesforce.
- **B. Evaluate third-party and AppExchange products.**
- C. Salesforce backs up all data and will restore it for customers on request.

- D. Custom build a feature rollback and data restore tool for Salesforce

Answer: B
