At QuestionsTube, you can read C1000-173 free demo questions in pdf file, so you can check the questions and answers before deciding to download the IBM C1000-173 practice questions. These free demo questions are parts of the C1000-173 exam questions. Download and read them carefully, you will find that the C1000-173 test questions of QuestionsTube will be your great learning materials online. Share some C1000-173 exam online questions below.

1. Which of the following best describes the importance of encryption of data at rest in IBM Cloud Pak

What's more, part of that Pass4Leader C1000-173 dumps now are free: <https://drive.google.com/open?id=1HSQKtffJdYbi4-qmKVKuWn3P5VZzk5v>

In today's society, many enterprises require their employees to have a professional C1000-173 certification. It is true that related skills serve as common tools frequently used all over the world, so we can realize that how important an C1000-173 certification is, also understand the importance of having a good knowledge of it. Passing the C1000-173 exam means you might get the chance of higher salary, greater social state and satisfying promotion chance. Once your professional C1000-173 ability is acknowledged by authority, you master the rapidly developing information technology. With so many advantages, why don't you choose our reliable C1000-173 actual exam guide, for broader future and better life?

IBM C1000-173 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Architect with Data Governance Services: This section evaluates skills of a Data Governance Specialist, covering the architecture of knowledge catalogs to enable data discovery and management. Data Privacy architectures ensure compliance with regulatory requirements around data protection. Knowledge Accelerators involve designing solutions that speed up data governance processes through predefined policies and templates.

Topic 2	<ul style="list-style-type: none"> • Architect with AI Series: This section measures the skills of an AI Solution Architect and includes designing architectures for solutions involving various IBM Watson AI services. Architecting with Watson Assistant involves creating conversational AI interfaces. Watson Discovery solutions focus on building cognitive search and content analytics applications. Watson Pipelines solutions involve orchestrating data science workflows. Watson OpenScale architectures enable AI model monitoring and governance. Architecting with Match 360 supports personalized engagement by integrating multi-channel customer insights.
Topic 3	<ul style="list-style-type: none"> • Security Requirements: This domain targets a Security Architect and focuses on planning security for a Cloud Pak for Data deployment. It includes managing certificates that secure communications, identity management systems, and access and authorization controls to enforce secure and compliant user and service interactions. The auditing features and their integration with enterprise audit systems are crucial to ensure traceability and accountability. Asset interchange security involves safeguarding data movement between services.
Topic 4	<ul style="list-style-type: none"> • Architect with Analytic Services: This domain targets a Data Analytics Architect and focuses on designing solutions using analytic components of Cloud Pak for Data. Architecting with DataStage involves creating data integration and ETL pipelines. Data Refinery architectures prepare and cleanse data for analysis. Db2 Big SQL solutions address querying large distributed data sets with SQL, facilitating analytics across diverse data sources.

Test C1000-173 Simulator Free | Reliable C1000-173 Exam Labs

We are here divide grieves with you to help you pass your C1000-173 exam with ease. You can abandon the time-consuming thought from now on. You won't regret your decision of choosing our C1000-173 study guide. In contrast, they will inspire your potential without obscure content to feel. After getting our C1000-173 Exam Prep, you will not live under great stress during the C1000-173 exam period. You will experience a pleasant and leisure study method with boomed success!

IBM Cloud Pak for Data v4.7 Architect Sample Questions (Q131-Q136):

NEW QUESTION # 131

Which data processing engine is used for Data Privacy Masking flows?

- A. Presto
- B. dbt
- C. DataStage
- D. Spark

Answer: D

Explanation:

Data Privacy Masking flows in IBM Cloud Pak for Data utilize Apache Spark as the underlying data processing engine. Spark enables large-scale, distributed data masking operations for structured data, supporting high-performance transformations and compliance with privacy regulations. While DataStage can perform similar operations, the default and recommended engine for Data Privacy flows in CP4D is Spark.

dbt and Presto are not used for this masking functionality.

NEW QUESTION # 132

Are there any special considerations for the client to migrate existing server jobs to DataStage in Cloud Pak for Data?

- A. Server jobs migrate with no changes.
- B. Server jobs can be converted to parallel jobs prior to migration using MettletCI.
- C. Server jobs are automatically migrated to Watson Pipeline flows.
- D. Server jobs migrate directly to parallel jobs that always require modification.

Answer: B

Explanation:

Legacy DataStage server jobs are not automatically compatible with DataStage on Cloud Pak for Data, which uses a parallel engine architecture. MettletCI is the recommended tool to convert server jobs into parallel jobs before migration. This conversion allows reusability and ensures the migrated jobs can run efficiently in the CP4D environment. Direct migration without modification (option D) is not possible, and they do not migrate to Watson Pipelines (option A).

NEW QUESTION # 133

Which set of DataStage features are primarily intended to improve reusability and flexibility?

- A. Macros, DataStage APIs, and DataStage jobs
- B. Schema drift support, Dynamic Workload Management, and ELT run mode.
- C. DataStage connectors, Qualitystage stages, and DataStage Pipeline components.
- **D. DataStage components, parameters, parameter sets, and environment variables.**

Answer: D

Explanation:

DataStage promotes modularity and reusability through the use of components such as job stages, parameters, parameter sets, and environment variables. Parameters and parameter sets allow dynamic configuration of jobs, enabling reuse across environments and reducing hardcoding. Environment variables allow users to define global job behavior across projects. These elements significantly enhance development efficiency and pipeline portability. Other features like schema drift and ELT modes support execution flexibility, but they are not primarily focused on reusability.

NEW QUESTION # 134

When planning for the data management console in Db2, what functionality is crucial for effective database management?

- A. Avoiding integration with other Db2 services
- B. Limited visibility over data and queries
- C. Restricting user access to essential functionalities only
- **D. Comprehensive monitoring and management features**

Answer: D

NEW QUESTION # 135

When creating a Db2 Big SQL service instance, which two service resource items should be taken into account when sizing the cluster?

- A. Number of physical cores
- **B. Number of workers**
- **C. Amount of memory**
- D. Maximum expected throughput
- E. Number of virtual cores

Answer: B,C

Explanation:

When provisioning a Db2 Big SQL service instance in IBM Cloud Pak for Data, key considerations include the amount of memory available per worker node and the total number of worker nodes. These factors directly affect query execution parallelism and system capacity. The system does not distinguish between physical and virtual cores at the configuration level. Throughput is an outcome of sizing, not a direct sizing parameter.

Therefore, memory and number of workers are the two most critical sizing metrics.

NEW QUESTION # 136

.....

Our C1000-173 guide questions boost many advantages and varied functions. You can have a free download and tryout of our C1000-173 exam questions before the purchase and our purchase procedures are easy and fast. You can receive our C1000-173 exam questions in a few minutes and we provide 3 versions for you to choose. You need little time to learn the C1000-173 Exam Torrent and prepare the exam. Our passing rate and the hit rate is very high. After you pass the C1000-173 exam you will gain a lot of benefits such as enter in the big company and double your wage.
