**Passing Axis ANVE Score Feedback, ANVE Free Pdf Guide**

Our company is a professional certificate exam materials provider. We offer candidates high quality questions and answers for the ANVE exam bootcamp, and they can pass the exam through learning and practicing the materials. You can get the ANVE Exam Bootcamp about ten minutes after your payment, and if you have any questions about the ANVE exam dumps, you can notify us by email or you can chat with our online chat service.

## Axis Network Video Exam Sample Questions (Q41-Q46):

### NEW QUESTION # 41

How does Zipstream's Dynamic GOP conserve bandwidth and storage?

- A. It increases compression if the scene is unchanged
- **B. It skips new I-frames if the scene is unchanged**
- C. It skips new P-frames if the scene is unchanged
- D. It lowers the framerate if the scene is unchanged

**Answer: B**

Explanation:

Zipstream's Dynamic GOP (Group of Pictures) conserves bandwidth and storage by skipping new I-frames if the scene is unchanged. I-frames (intra-coded frames) are larger than P-frames (predictive frames) and B-frames (bi-directional frames) because they contain the full image data. By reducing the frequency of I-frames when there is no motion or change in the scene, Zipstream significantly lowers the data rate without compromising image quality. Axis documentation explains how Zipstream's Dynamic GOP feature optimizes video encoding to conserve resources effectively.

### NEW QUESTION # 42

When dealing with a complicated lighting scenario, such as a camera inside looking out through bright windows, which camera would best adapt to the scene to provide the highest image detail?

- A. AXIS P3304
- **B. AXIS Q1604**
- C. AXIS P5534
- D. AXIS M3204

**Answer: B**

Explanation:

Disconnecting the power and network cables before replacing a camera lens is crucial because there is a risk of short-circuiting the camera electronics. If the camera is powered on while the lens is being replaced, accidental contact with electronic components can cause a short circuit, potentially damaging the camera.

### NEW QUESTION # 43

What is most important for 24 hour License Plate Recognition of fast moving cars?

- **A. IR light**
- B. Processing speed
- C. Interlaced scanning
- D. PoE

**Answer: A**

Explanation:

For 24-hour License Plate Recognition (LPR) of fast-moving cars, adequate illumination is crucial. Infrared (IR) light is essential because it allows for clear image capture in low light or nighttime conditions. IR light ensures that the camera can consistently capture high-quality images of license plates regardless of the time of day, which is vital for accurate LPR. PoE (Power over Ethernet), processing speed, and interlaced scanning are also important, but without IR light, the system cannot reliably operate 24 hours a day. This information is verified from Axis Communications' documentation on LPR systems and best practices for lighting.

**NEW QUESTION # 44**

A site owner wants to ensure that all 220 cameras have the latest firmware update, and the safest and easiest way to do this is using

- A. AXIS Site Designer
- B. AXIS License Manager
- **C. AXIS Device Manager**
- D. AXIS IP Utility

**Answer: C**

Explanation:

"AXIS Device Manager is designed for managing, configuring, and updating firmware on large numbers of Axis devices. It is the safest and most efficient way to ensure all cameras are up-to-date."

- Axis Device Manager Overview

"With AXIS Device Manager, you can centrally manage firmware updates for hundreds of devices at once."

- Axis Communications Academy, Network Video Fundamentals, 2022

Axis Device Manager

Axis Communications Academy, Network Video Fundamentals, 2022 (p. 113)

**NEW QUESTION # 45**

Match each device with the correct description. Drag each gray box from the left column to the matching blue box in the right column.

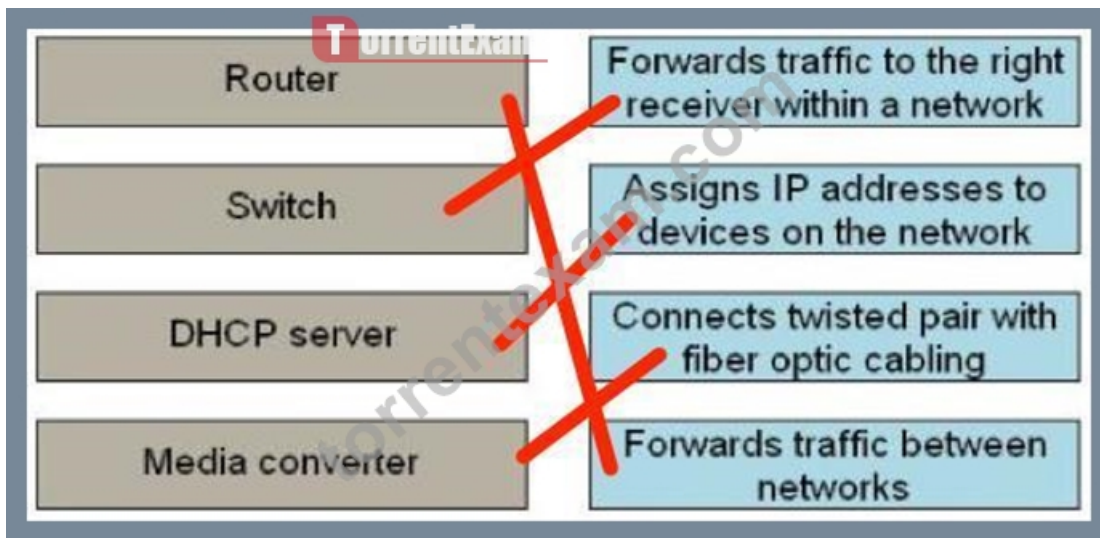

Router	Forwards traffic to the right receiver within a network
Switch	Assigns IP addresses to devices
DHCP server	Connects twisted pair with fiber optic cabling
Media converter	Forwards traffic between networks

**Answer:**

Explanation:

Router	Switch
Switch	DHCP server
DHCP server	Media converter
Media converter	Router

Explanation:

## NEW QUESTION # 46

.....
