

AI-901 Actual Questions, AI-901 Latest Test Questions

Our company is a professional exam dumps material providers, with occupying in this field for years, and we are quite familiar with compiling the AI-901 exam materials. If you choose us, we will give you free update for one year after purchasing. Besides, the quality of AI-901 Exam Dumps is high, they contain both questions and answers, and you can practice first before seeing the answers. Choosing us means you choose to pass the exam successfully.

Microsoft AI-901 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Implement AI solutions by using Microsoft Foundry: This domain is hands-on and focuses on building and deploying AI solutions using the Microsoft Foundry platform and its associated tools. It spans generative AI apps, text and speech processing, computer vision, and document intelligence all implemented through the Foundry portal and SDK.
Topic 2	<ul style="list-style-type: none">Identify AI concepts and capabilities: This domain covers the foundational knowledge of AI from ethical principles and responsible design to understanding how AI models work and what kinds of tasks they can perform. It also explores the full range of AI workloads including generative AI, computer vision, speech, and information extraction.

Microsoft AI-901 Latest Test Questions, New AI-901 Mock Exam

If you buy our Software version of the AI-901 study questions, you can enjoy the similar real exam environment for that this version has the advantage of simulating the real exam. In addition, the software version of our AI-901 learning guide is not limited to the number of the computer. As long as you use it on the Windows system, then you can enjoy the convenience of this version brings. So do not hesitate and buy our Software version of AI-901 Preparation exam, you will benefit a lot from it.

Microsoft Azure AI Fundamentals Sample Questions (Q51-Q56):

NEW QUESTION # 51

Select the answer that correctly completes the sentence.

Answer:

Explanation:

NEW QUESTION # 52

You have a Microsoft Foundry project that contains an agent named Agent1.

You need to ensure that Agent1 always calls an Azure function when the agent responds to user input.

To what should you set tool_choice for Agent1?

- A. auto
- **B. required**
- C. none

Answer: B

Explanation:

Microsoft's Foundry Agent Service documentation states that tool_choice provides deterministic control over tool calling:

auto means the model decides whether to call tools.

required means the model must call one or more tools.

none means the model does not call tools.

Therefore:

A . auto = Incorrect, because the model may or may not call the Azure function.

B . none = Incorrect, because this prevents tool/function calls.

C . required = Correct, because it forces the agent to call a tool.

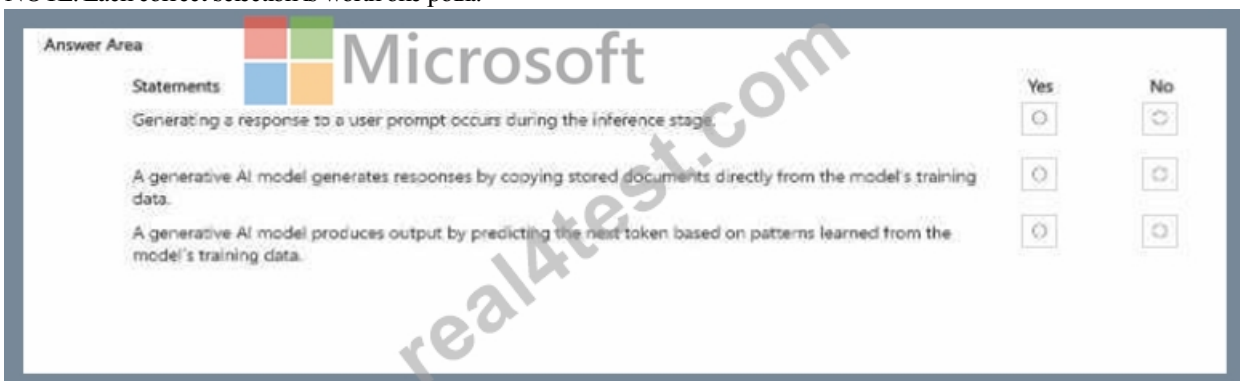

The Azure OpenAI function-calling documentation also confirms that tool_choice="auto" lets the model decide whether to call a function, while tool_choice="none" forces a user-facing response without a tool call.

NEW QUESTION # 53

Hotspot Question

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 54

You need to compare the costs of large language models (LLMs) for a generative AI solution. What should you use in the Microsoft Foundry portal?

- A. Tools
- B. Evaluator catalog
- **C. Model leaderboard**
- D. Compliance

Answer: C

Explanation:

To compare the costs of large language models in Microsoft Foundry portal, use the Model leaderboard. Microsoft documentation states that the model leaderboard helps compare models across quality, safety, estimated cost, and throughput. It also supports trade-off charts and side-by-side model comparison for features, performance, and estimated cost.

NEW QUESTION # 55

Based on the image provided, here is the transcribed text:
You need to build an AI solution that produces new product images based on written descriptions provided by users. Which AI workload should you use?

- A. image analysis
- **B. image generation**
- C. object detection
- D. optical character recognition (OCR)

Answer: B

Explanation:

The requirement is to produce new product images based on written descriptions. This is an image generation workload, because the AI system is creating entirely new images from natural language prompts.

NEW QUESTION # 56

.....

Our AI-901 test torrent is of high quality, mainly reflected in the pass rate. As for our AI-901 study tool, we guarantee our learning materials have a higher passing rate than that of other agency. Our AI-901 test torrent is carefully compiled by industry experts based on the examination questions and industry trends in the past few years. More importantly, we will promptly update our AI-901 exam materials based on the changes of the times and then send it to you timely. 99% of people who use our learning materials have passed the exam and successfully passed their certificates, which undoubtedly show that the passing rate of our AI-901 Test Torrent is 99%. If you fail the exam, we promise to give you a full refund in the shortest possible time. So our product is a good choice for you. Choosing our AI-901 study tool can help you learn better. You will gain a lot and lay a solid foundation for success.
