220-1202 Updated Questions – Fulfill Your Dream of Becoming CompTIA Certified

When preparing to take the 220-1202 exam dumps, knowing where to start can be a little frustrating, but with CompTIA 220-1202 practice questions, you will feel fully prepared. Using our 220-1202 practice test Dumpexams, you can prepare for the increased difficulty on 220-1202 Exam day. Plus, we have various question types and difficulty levels so that you can tailor your 220-1202 exam dumps preparation to your requirements.

CompTIA A+ Certification Exam: Core 2 Sample Questions (Q111-Q116):

NEW QUESTION # 111
After a user installs a mobile application from an advertisement, the phone's battery dies a few hours later, and it is hot to the touch, even when not in use. Which of the following should a technician do first?

- A. Ensure appropriate MDM policies are applied

- B. Contact the software developer
- C. Check for unauthorized device administrators
- D. Run a mobile malware scan on the phone

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
These symptoms strongly suggest malware activity-likely from the newly installed app. The first action should be to run a malware scan to detect and isolate malicious software.
From Quentin Docter - CompTIA A+ Study Guide:
"Signs of malware infection include rapid battery drain and overheating. The first step should be a malware scan using trusted mobile antivirus apps."

NEW QUESTION # 112
A user created a document using online collaboration tools, and the document is not available on their laptop now. Which of the following should a desktop technician do to remediate the issue?

- A. Synchronize the remote folder with the user's laptop.
- B. Connect the user's laptop to Wi-Fi.
- C. Download the file and send it to the user using instant messaging.
- D. Install word processing tools on the user's laptop.

Answer: A

Explanation:
The document was created using online collaboration tools, meaning it resides in cloud storage.
To make it available on the laptop, the technician must synchronize the remote (cloud) folder with the local device, ensuring the file is downloaded and accessible.

NEW QUESTION # 113
A technician is setting up a surveillance system for a customer. The customer wants access to the system's web interface on the LAN via the system's IP address. Which of the following should the technician use to prevent external log-in attempts from the internet?

- A. Static IP
- B. Port mapping
- C. Subnetting
- D. Content filtering

Answer: B

Explanation:
By using port mapping (NAT) rules on the router, you can choose to forward the surveillance system's HTTP/HTTPS ports only on the LAN interface and leave them closed on the WAN side.
This ensures users on the local subnet can access the camera interface via its IP address, while external login attempts from the internet are blocked.

NEW QUESTION # 114
When a corporate laptop is connected to the company network, the laptop is able to reach external websites. However, when the laptop tries to reach any internal websites the following error message appears:
Hmm... Cannot reach this page.
Which of the following should a technician configure?

- A. Subnet mask
- B. DHCP
- C. Default gateway
- D. DNS settings

Answer: D

Explanation:
Incorrect DNS settings prevent the laptop from resolving internal hostnames. External sites work because they use public DNS, but internal addresses fail without the correct internal DNS server.
Configuring the proper DNS settings resolves the issue.

NEW QUESTION # 115
A user brings their personal laptop into the office. They connect their computer to the docking station. When the user tries to use a search engine, the page displays the following message:
This device is quarantined and is not connected to the domain. Contact
the IT administrator for further assistance.
Which of the following is most likely the issue?

- A. The docking station Ethernet cable is unplugged.
- B. The URL was entered incorrectly.
- C. Malware is present.
- D. Network resources are blocked.

Answer: D

Explanation:
The message indicates the device has been placed into a network quarantine because it is not a domain-joined or authorized system.
In this state, network resources are blocked, and the device is isolated until IT approves or remediates it.

NEW QUESTION # 116
......

Nowadays there is a growing tendency in getting a certificate. 220-1202 study materials offer you an opportunity to get the certificate easily. 220-1202 exam dumps are edited by the experienced experts who are familiar with the dynamics of the exam center, therefore 220-1202 Study Materials of us are the essence for the exam.
