Salesforce is a cloud-based customer relationship management (CRM) platform that is widely used across different industries. The Salesforce platform offers a range of products and services that help organizations manage their customer data, improve customer engagement, and streamline business operations. Salesforce is also known for its strong commitment to corporate social

responsibility, and its Nonprofit Cloud Consultant certification is designed specifically for nonprofit organizations.

Salesforce Nonprofit-Cloud-Consultant Certification offers a great opportunity for individuals who want to enhance their skills in Nonprofit Cloud and make a positive impact in the non-profit sector. It validates their expertise in designing and implementing Salesforce solutions that help non-profit organizations achieve their missions and improve the lives of the communities they serve.

Salesforce Certified Nonprofit Cloud Consultant Exam Sample Questions (Q62-Q67):

NEW QUESTION # 62

A nonprofit organization is using NPSP Data Importer for Contacts. The consultant has noticed that even though the mappings are correct, some of the Account records are not automatically being created. Which two things should the consultant check?

- **A. If the required fields are included in the import**
- B. If all records have a phone number
- **C. If there are required fields on the Account**
- D. If all the email addresses are properly formatted

Answer: A,C

NEW QUESTION # 63

A family foundation wants to use Salesforce to track its funding of dozens of projects using a Campaign for each project. The foundation has a goal of funds to disperse, and it is important that the foundation can track year over year goals for each project. What should a consultant recommend for the foundation to track progress?

- A. Create a process that populates custom fields for each year and project on Opportunities.
- **B. Create a Campaign hierarchy for project and year.**
- C. Create reports with bucketing and filters.
- D. Create a custom object for year and a custom object for project to track.

Answer: B

NEW QUESTION # 64

A consultant set up and successfully tested an integration between the source system and a sandbox environment of Salesforce. When the integration was switched to the production environment of Salesforce, the consultant encountered API call limit errors. What is the likely explanation for this?

- A. The incorrect sandbox environment was used for testing.
- B. Testing of the integration in the sandbox environment was insufficient.
- C. The triggers associated with NPSP were disabled in the sandbox environment.
- **D. The API call limits were different for sandbox and production environments.**

Answer: D

Explanation:

When the consultant encounters API call limit errors after switching the integration from a sandbox to a production environment, the likely explanation is:

Different API Call Limits for Sandbox and Production Environments:

Salesforce environments have different API call limits based on the type of environment and the organization's Salesforce edition. Sandbox environments often have higher API call limits for testing purposes, while production environments have stricter limits to ensure performance and reliability.

NEW QUESTION # 65

A development associate receives a corporate matching gift and failed to indicate the original donation was supposed to be matched. Which solution should the consultant recommend?

- A. Select Manage Soft Credits and change the Contact Role to Matched Donor.

- B. Select Find Matched Gifts and click on the Find More Gifts button.
- C. Create a Lightning quick action to find the matching gift.
- D. Create a lookup field on the Opportunity object for matched gift donor.

Answer: B

Explanation:

When a corporate matching gift is received and the original donation was not marked to be matched, you should use the "Find Matched Gifts" functionality:

- * Navigate to Find Matched Gifts:
- * Go to the donation record in Salesforce.
- * Select "Find Matched Gifts" from the related options.
- * Find More Gifts:
- * Click on the "Find More Gifts" button to search for the original donation that matches the corporate gift.
- * This tool helps to locate and link the matching gift to the original donation, ensuring both donations are accurately recorded and associated.

Salesforce Help: Managing Matched Gifts

NEW QUESTION # 66

A nonprofit admin needs to import lists of Contacts into Salesforce Campaigns regularly from CSV files using the NPSP Data Import tool.

What should the consultant consider when setting up this process for the nonprofit?

Choose 2 answers

- A. NPSP Data Import will automatically create the Campaign Member with the default Member Status.
- B. Existing Campaigns are matched by exact Name.
- C. Respect Duplicate Matching Rules' should be checked in NPSP Settings.
- D. NPSP Data Import Dry Run will validate Campaign Member Status.

Answer: B,C

NEW QUESTION # 67
