

# Nutanix NCP-CI-AWS更新 & NCP-CI-AWS考題套裝

順便提一下，可以從雲存儲中下載TestpdfNCP-CI-AWS考試題庫的完整版：<https://drive.google.com/open?id=1RPfqx6pTGMfnyEm7lmX5MsxBsWYICmpa>

IT認證考生大多是工作的人，由於大多數考生的時間花了很多時間在學習，TestpdfNutanix的NCP-CI-AWS的考試資料對你的時間相對寬裕，我們會針對性的採取一些考古題中的一部分，他們需要時間來參加不同領域的認證培訓，各種不同培訓費用的浪費，更重要的是考生浪費了寶貴的時間。在這裏，我們推薦一個很好的學習資料網站，而且網站上的部分測試資料是免費的，重要的是真實的模擬練習可以幫助你通過Nutanix的NCP-CI-AWS的考試認證，TestpdfNutanix的NCP-CI-AWS的考試資料不僅可以節約你的時間成本，還可以讓你順利通過認證，你沒有理由不選擇。

隨著21世紀資訊時代的洪流到來，人們不斷提高自己的知識來適應這個時代，但遠遠不夠，就IT行業來說，Nutanix的NCP-CI-AWS考試認證是IT行業必不可少的認證，想要通過這項考試培訓是必須的，因為這項考試是有所困難的，通過了它，就可以受到國際的認可及接受，你將有一個美好的前程及拿著受人矚目的高薪，Testpdf網站有全世界最可靠的IT認證培訓資料，有了它你就可以實現你美好的計畫，我們保證你100%通過認證，參加Nutanix的NCP-CI-AWS考試認證的考生們，你們還在猶豫什麼呢，趕緊行動吧！

>> Nutanix NCP-CI-AWS更新 <<

## 最新的NCP-CI-AWS認證考試的參考資料

擁有Nutanix認證可以證明考生能夠勝任這個職位。往往能力強的考生嘆息道：“如果可以擁有本證書，這個職位鐵定是我的。”那為什麼不儘早讓考試順利過關了。越早擁有Nutanix認證，可以比別人多一份選擇理想工作的。但是如何能順利過關完成Nutanix認證成了技術人員最頭疼的問題。如果你需要幫助，Testpdf能幫助每個IT人士，因為它的NCP-CI-AWS測試題庫和NCP-CI-AWS學習指南可以幫助你通過真正的考試。

## 最新的Nutanix Certified Professional NCP-CI-AWS免費考試真題(Q31-Q36):

### 問題 #31

Which two actions are exclusive to the "Bring Your Own" (BYO) deployment of AWS resources for an NC2 cluster? (Choose two.)

- A. Set up the AWS account permissions.

- B. Create the required subnets.
- C. Create an AWS VPC.
- D. Configure an AWS IAM user.

答案: B,C

解題說明:

When deploying Nutanix Cloud Clusters (NC2) on AWS, administrators have two primary workflows: allowing the NC2 portal to automate resource creation or using existing resources. The "Bring Your Own" (BYO) model is characterized by the requirement that the administrator manually prepares the underlying AWS infrastructure before initiating the Nutanix cluster deployment. Specifically, the actions of creating an AWS VPC and creating the required subnets (such as management and User VM subnets) are exclusive to the BYO workflow. In the automated "Nutanix-managed" workflow, the NC2 portal uses CloudFormation to provision these network resources automatically. While setting up IAM users and permissions is necessary for both models to allow the NC2 console to interact with the AWS API, the pre-existence of the VPC and subnet architecture is the defining prerequisite for a BYO deployment.

問題 #32

An administrator needs to create user VM subnets for multiple NC2 clusters in AWS. What would be the best approach to take?

- A. Create guest-VM subnets to be shared by all clusters.
- B. Use the cluster management subnet dedicated to each cluster.
- C. Create guest-VM VNETs for each cluster.
- D. Create guest-VM subnets for each cluster.

答案: D

解題說明:

When creating user VM subnets for multiple NC2 clusters in AWS, the best approach is to create guest-VM subnets for each cluster. This ensures that each cluster has its own dedicated subnets, which simplifies network management and avoids potential IP conflicts.

Advantages of Dedicated Subnets:

Isolation: Each cluster operates in its own subnet, providing better isolation and security.

Management: Easier to manage and troubleshoot network issues when each cluster has its own subnets.

Scalability: More scalable as each subnet can be managed and expanded independently.

Steps to Create Guest-VM Subnets:

Identify the IP range for each subnet.

In the AWS VPC console, create a new subnet for each cluster using the identified IP ranges.

Associate the new subnets with the respective clusters during or after the cluster deployment process.

Why Not Shared Subnets:

Shared subnets could lead to IP conflicts and make network management more complex, especially as the number of clusters grows.

問題 #33

An administrator is deploying Disaster Recovery for two NC2 clusters on AWS. The organization would prefer to use synchronous replication. What are two supported configurations for this type of implementation? (Choose two.)

- A. Two NC2 on AWS clusters in the same region, using native networking on both clusters.
- B. Two NC2 on AWS clusters in different regions, using native networking on both clusters.
- C. Two NC2 on AWS clusters in the same region using native networking on the primary cluster, and Flow Virtual Networking on the other remote cluster.
- D. Two NC2 on AWS clusters in different regions using native networking on the primary cluster, and Flow Virtual Networking on the other remote cluster.

答案: A,C

#### 解題說明:

Synchronous replication in Nutanix Cloud Clusters (NC2) on AWS requires extremely low latency, typically less than 5ms round-trip time (RTT). To achieve this, clusters must be located within the same AWS region, often within different Availability Zones or the same VPC.

Supported networking configurations for this high-speed data exchange include using standard native AWS networking on both clusters to ensure direct, low-latency communication. Additionally, a hybrid setup where one cluster utilizes native networking and the remote cluster uses Flow Virtual Networking (FVN) is supported, provided the underlying network infrastructure satisfies the latency requirements for synchronous operations. This ensures that data is written to both clusters simultaneously before an acknowledgment is sent to the application, providing zero recovery point objective (RPO).

#### 問題 #34

What is an available log module when configuring a syslog server in the Prism Central Admin Center?

- A. Acropolis
- B. API Audit
- C. Zookeeper
- D. Prism

答案: A

#### 解題說明:

\* When configuring a syslog server in the Prism Central Admin Center for Nutanix, one of the available log modules is Acropolis.

\* The Acropolis module logs system events related to the Nutanix Acropolis operating system, which is critical for monitoring and auditing system activities and performance.

\* Configuring syslog with the Acropolis module ensures that important events and issues related to the Acropolis environment are captured and can be forwarded to an external syslog server for centralized logging and analysis.

Refer to the Nutanix documentation on Prism Central and syslog configuration for the full list of available log modules and detailed steps for configuration.

#### 問題 #35

When configuring an alert email in Prism Central deployed within an NC2 environment, what is required in order for the emails to be sent properly?

- A. Name servers configured in Prism Central
- B. Cluster Super Admin permissions
- C. SMTP server configured in Prism Central settings
- D. A whitelisted public cloud console endpoint

答案: C

#### 解題說明:

To ensure that alert emails are sent properly from Prism Central within an NC2 environment, configuring an SMTP server in the Prism Central settings is required. The SMTP server facilitates the sending of email notifications for alerts and other communications.

SMTP Configuration:

Prism Central requires an SMTP server to send email alerts. This involves specifying the SMTP server address, port, and authentication details if needed.

The configuration must include the email address from which the alerts will be sent and the recipient addresses.

Steps to Configure SMTP Server in Prism Central:

Log in to Prism Central.

Navigate to the "Settings" menu.

Select "Email Server" under the "Alerts" section.

Enter the SMTP server details, including the server address, port, and authentication credentials.

Test the configuration to ensure emails are sent correctly.

## 問題 #36

.....

人之所以能，是相信能。Testpdf之所以能幫助每個IT人士，是因為它能證明它的能力。Testpdf Nutanix的NCP-CI-AWS考試培訓資料就是能幫助你成功的培訓資料，任何限制都是從自己的內心開始的，只要你想通過 Nutanix的NCP-CI-AWS考試認證，就會選擇Testpdf，其實有時候成功與不成功的距離很短，只需要後者向前走幾步，你呢，向前走了嗎，Testpdf是你成功的大門，選擇了它你不能不成功。

**NCP-CI-AWS考題套裝:** <https://www.testpdf.net/NCP-CI-AWS.html>

Testpdf是一個給你培訓Nutanix NCP-CI-AWS 認證考試相關技術知識的網站，如果你不知道怎樣準備考試，Testpdf NCP-CI-AWS考題套裝來告訴你，我們還承諾，對於使用我們NCP-CI-AWS考古題失敗的考生，將提供100%無條件退款，因為這個考古題的命中率非常高，只要你認真記住考古題裏面出現的問題和答案，那麼你就可以通過NCP-CI-AWS考試，Nutanix NCP-CI-AWS更新 它可以讓你在準備考試時節省更多的時間，面對職場的競爭和不景氣時期，提升您的專業能力是未來最好的投資，而獲得Nutanix NCP-CI-AWS認證對於考生而言有諸多好處，Nutanix NCP-CI-AWS 更新 要通过考试是有些难，但是不用担心。

可普通修行人還是越傳越玄乎，我連忙喊了壹句，Testpdf是一個給你培訓Nutanix NCP-CI-AWS 認證考試相關技術知識的網站，如果你不知道怎樣準備考試，Testpdf來告訴你，我們還承諾，對於使用我們NCP-CI-AWS考古題失敗的考生，將提供100%無條件退款。

## 使用NCP-CI-AWS更新意味著你已經通過Nutanix Certified Professional - Cloud Integration - AWS的一半

因為這個考古題的命中率非常高，只要你認真記住考古題裏面出現的問題和答案，那麼你就可以通過NCP-CI-AWS考試，它可以讓你在準備考試時節省更多的時間。

- 準備充分的NCP-CI-AWS更新和資格考試的領先材料提供商 & 準確的NCP-CI-AWS考題套裝  在 [www.testpdf.net](http://www.testpdf.net)  網站上免費搜索 ( NCP-CI-AWS ) 題庫NCP-CI-AWS更新
