

RCA證照考試，RCA證照資訊

許多考生花費了大量的時間和精力學習Relativity RCA考試相關知識，但是到最後卻沒有成功，分析他們失敗的原因，我們得出結論是沒有針對性的復習。現在，Testpdf專門針對認證考試研發出有針對性的Relativity RCA考古題，為考生獲得認證節約更多的時間和金錢。RCA題庫的高效率和準確性兩大特點讓我們收到廣大考生的好評，獲得如此有價值的認證方案對您來說是非常划算的。

RCA是Relativity認證考試，所以通過RCA是踏上Relativity 認證的第一步。也因此RCA認證考試變得越來越火熱，參加RCA考試的人也越來越多，但是RCA認證考試的通過率並不是很高。當你選擇RCA考試時有沒有選擇相關的考試課程？

>> RCA證照考試 <<

最新版的RCA證照考試，由Relativity權威專家撰寫

想要通過RCA認證考試？擔心考試會變體，來嘗試最新版本的題庫學習資料。我們提供的Relativity RCA考古題準確性高，品質好，是你想通過考試最好的選擇，也是你成功的保障。你可以免費下載100%準確的RCA考古題資料，我們所有的Relativity產品都是最新的，這是經過認證的網站。它覆蓋接近95%的真實問題和答案，快來訪問Testpdf網站，獲取免費的RCA題庫試用版本吧！

最新的 Relativity Admin RCA 免費考試真題 (Q15-Q20):

問題 #15

What is the default production sort order?

- A. Artifact ID
- B. Control number
- C. Family group
- D. Custodian

答案：A

解題說明：

The correct answer is A. Artifact ID. Relativity's official Production Sets documentation states that in the Sorting section of a production, if no custom sort criteria are selected, the default sort order is Artifact ID, which Relativity describes as the load order of the documents. This is the platform's documented default for productions.

This is an important administrative detail because production sort order affects how documents are sequenced when a production is generated. Relativity also notes that when you apply a custom sort order, family groups are not kept together automatically, so administrators need to design sort strategies carefully if they want a specific production sequence. But absent any special configuration, Relativity defaults to Artifact ID.

The other options are not the documented default. Family group may be relevant in review workflows, but not as the production default sort order. Control number is also not the starting sort value because control numbers may be assigned independently of the production sort configuration. Custodian is a common field for review and QC, but again not the production default. Therefore, the correct answer is A. Artifact ID.

問題 #16

Why would Review Center charts show "Unknown User 1" for some coded documents?

- A. A reviewer was originally part of the workspace and coded documents, but has since been removed from the workspace.
- B. The project has not yet been prepared, so Review Center is not yet tracking reviewer coding decisions.
- C. A reviewer no longer has permissions to code documents in the project.
- D. There was an error encountered for that particular user and the queue must be re-prepared.

答案： A

解題說明：

The correct answer is B. A reviewer was originally part of the workspace and coded documents, but has since been removed from the workspace. Relativity's official Review Center documentation explains that when documents were coded by reviewers who are not part of the current Relativity instance, those reviewers can appear in charts and tables as "Unknown User 1," "Unknown User 2," and so on. The documentation specifically notes that this can happen if a reviewer was removed from the workspace or if the workspace was archived and restored into a different instance. That directly supports option B.

The other options do not match Relativity's documented explanation. Losing permission to code is not the stated reason for the "Unknown User" label. Likewise, an unprepared project is a separate project-state issue and does not explain why specific prior coding activity would be attributed to an anonymous placeholder. An error requiring queue re-preparation is also not the documented cause of this naming behavior. From a case administration perspective, this is an important concept because administrators often manage workspace users, permissions, and lifecycle changes over time. If prior reviewers are removed, their historical coding may still appear in analytics or project monitoring views, but the user identity may no longer resolve normally. In that circumstance, Review Center surfaces those coding records under a label such as "Unknown User 1."

問題 #17

In the Audit tab, which of these actions can you revert?

- A. Entity - Merge
- B. Field - Update
- C. Document - Update
- D. Redaction - Update

答案： C

解題說明：

The correct answer is A. Document - Update. Relativity's official Audit documentation states that system admins can revert coding decisions from the Audit list, and that this action applies to the latest Document Update, Mass Update, or Propagate action on the Document object. That makes Document - Update the correct revertible action among the choices provided.

The other options are not listed by Relativity as revertible audit actions in this context. A Field - Update concerns the field object itself rather than a document coding decision. Entity - Merge may create audit records, but Relativity does not list it as an action that can be reverted through the Audit revert feature.

Redaction - Update is also not one of the documented revertible audit actions under the Audit tab's revert capability. From an RCA perspective, this distinction matters because Audit revert is narrowly scoped to specific document-level update actions and certain supported field types. Therefore, the correct answer is Document - Update.

問題 #18

How is a Relativity Short Message Format RSMF file created?

- A. Files must be generated using the RSMF specifications before they are imported into Relativity.
- B. By using the mass operation on the document list to convert a conversation into RSMF.
- C. By using the processing profile option to automatically convert XML from a messaging platform into RSMF.
- D. Relativity creates it on-the-fly for all non-document data.

答案： A

解題說明：

The correct answer is C. Files must be generated using the RSMF specifications before they are imported into Relativity. Relativity's official Short Message Format documentation explains that to use the Short Message Viewer, you first need to create an RSMF file, and the example/specification pages describe the required structure and header information that must be present before ingestion.

using Processing. Relativity also states that Processing is the recommended method of importing RSMF files into Relativity, which means the RSMF file already exists when Processing begins.

This rules out the other options. Relativity does not say that it automatically creates RSMF on-the-fly for all non-document data. It also does not describe a processing-profile feature that converts arbitrary XML from chat platforms into RSMF during import. Nor is there a document-list mass operation that converts conversations into RSMF. Instead, RSMF is a defined external format that must be constructed according to Relativity's published specifications, then imported and processed to preserve message metadata, attachments, and near-native review behavior. Therefore, the correct answer is C.

問題 #19

How is the default tab in a workspace determined?

- **A. It is the tab that has been set as the default tab.**
- B. The Documents tab is always the default tab in a workspace.
- C. It is the tab with the lowest order number.
- D. The Admin tab is always the default tab in a workspace.

答案： A

解題說明：

The correct answer is A. It is the tab that has been set as the default tab. Relativity's Tabs documentation states that a tab has a Set as Default Tab toggle, and when this is turned on, that tab serves as the workspace's default tab. Reviewers logging into the workspace are taken to that default tab. Relativity also notes that if a reviewer does not have access to that default tab, the user is directed to the Documents tab instead.

This means the default tab is not determined merely by tab order. The lowest order number affects where a tab appears in the sidebar, but not which tab is designated as the workspace default. The Admin tab and Documents tab are not always the default either; Documents only acts as the fallback if the user lacks access to the selected default tab. Therefore, the correct answer is that the default tab is the one explicitly set as the default tab .

問題 #20

.....

Testpdf是個可以為所有有關於IT認證考試提供資料的網站。Testpdf可以為你提供最好最新的考試資源。選擇Testpdf你可以安心的準備你的Relativity RCA考試。我們的培訓才料可以保證你100%的通過Relativity RCA認證考試，如果沒有通過我們將全額退款並且會迅速的更新考試練習題和答案，但這幾乎是不可能發生的。Testpdf可以為你通過Relativity RCA的認證考試提供幫助，也可以為你以後的工作提供幫助。雖然有很多方法可以幫你達到你的這些目的，但是選擇Testpdf是你最明智的選擇，Testpdf可以使你花時間更短金錢更少並且更有把握地通過考試，而且我們還會為你提供一年的免費售後服務。

RCA證照資訊: <https://www.testpdf.net/RCA.html>

Relativity Relativity Certified Administrator - RCA 考古題可以給你通過考試的自信，讓你輕鬆地迎接考試，利用這個 RCA 考古題，即使你經過很短時間段來準備，也能順利通過 Relativity Certified Administrator 考試，因為我們的問題有提供demo，你可以免費下載試用，用過以後你就知道 RCA 考古題的品質了，這樣你不用擔心會有任何損失，因為使用免費的題庫將不能保證您在任何RCA證照資訊認證的通行證，當妳預訂RCA證照資訊的考試，因為，妳將需要支付考試費，首先，我們需要對出售RCA問題集的商家有一定的了解：他們在業界是否有一定的聲譽，為您提供便捷的在線服務為您解決任何有關RCA擬真試題的疑問。

另壹位混元大羅金仙眼前壹亮，同樣點頭，有了紫衣老頭這句話，那錦衣公子徹底放下來，Relativity Relativity Certified Administrator - RCA 考古題可以給你通過考試的自信，讓你輕鬆地迎接考試，利用這個 RCA 考古題，即使你經過很短時間段來準備，也能順利通過 Relativity Certified Administrator 考試。

高質量的Relativity RCA證照考試認證產品，是由Relativity公司一流的專業技術人員研發的

因為我們的問題有提供demo，你可以免費下載試用，用過以後你就知道 RCA 考古題的品質了，這樣你不用擔心會有任何損失，因為使用免費的題庫將不能保證您在任何Relativity Admin認證的通行證，當妳預訂Relativity Admin的考試，因為，妳將需要支付考試費。

首先，我們需要對出售RCA問題集的商家有一定的了解：他們在業界是否有一定的聲譽，為您提供便捷的在線服

務為您解決任何有關RCA擬真試題的疑問。
