Quiz 2026 Marvelous Salesforce Salesforce-Slack-Administrator: Salesforce

Certified Slack Administrator Preparation Store

Additionally, students can take multiple Salesforce-Slack-Administrator exam questions, helping them to check and improve their performance. Three formats are prepared in such a way that by using them, candidates will feel confident and crack the Salesforce Certified Slack Administrator (Salesforce-Slack-Administrator) actual exam. These three formats suit different preparation styles of Salesforce-Slack-Administrator test takers.

Salesforce Certified Slack Administrator Sample Questions (Q32-Q37):

NEW QUESTION # 32

Your company is on the Slack Enterprise Grid plan.

The marketing team is working on a new branding campaign and would like to add consultants to your org as Multi-Channel Guests. What should the marketing team do to request access for these consultants?

(Select the best answer.)

- **A. Invite consultants through the workspace drop-down menu, and route approvals to a dedicated channel for admin approval.**
- B. Direct message (DM) an Org Owner requesting that their consultants be added as guests.
- C. @mention their Workspace Admin in the appropriate #proj channel to request guest access.
- D. Add the consultants as full members to provide the most flexibility in their ability to access necessary channels.

Answer: A

Explanation:

Slack documentation states:

"To add Multi-Channel Guests, workspace admins or owners should invite them via the workspace menu, and if necessary, route the requests through an approval process." Adding them as full members (B) would grant excessive access. DMing Org Owners (D) is inefficient and informal. @mentioning (C) is not the standard request process.

(Reference: Slack Administration Study Guide - Managing Guest Accounts on Enterprise Grid)

-

NEW QUESTION # 33

You're planning a surprise milestone birthday party for your Team Leader virtually.

Currently, the planning committee consists of two direct team members, with plans to invite cross-functional friends.

What should you do to facilitate the conversation?

(Select the best answer.)

- A. Create a group direct message (group DM) with the two members of your team since they are the only ones involved in the planning process.
- B. Create a thread for planning in your existing team channel and @mention the team members on the planning committee.
- **C. Create a new private channel for planning the birthday party, and add the planning committee as well as the cross-functional friends.**
- D. Create a new public channel for planning the birthday party, and add the planning committee as well as the cross-functional friends.

Answer: C

Explanation:

Slack's best practices for private, sensitive, or surprise planning activities:

"Create a private channel when planning events that should remain confidential to a specific group of people." This protects the surprise. Public channels (A) expose planning. Group DMs (B) are limited (maximum of 8 people) and informal. A thread in a public space (C) is risky for surprises.

(Reference: Slack Administration Study Guide - Managing Sensitive Conversations)

-

NEW QUESTION # 34

You're a Slack admin creating a list of default prefixes. You want to provide employees with standard naming conventions to use when they create new channels.

After reviewing existing channels, you determine that there are three types of channels that are most often created:

- * Slack Connect channels for collaborating with partners.
- * Channels for groups within a line of business,
- * Channels to support collaboration on specific engagements

What are the three best prefixes to add to your default list?

(Select the THREE best answers.)

- A. #help
- B. #proj
- C. #team-
- D. #ext
- E. #slack
- F. announce

Answer: B,C,D

NEW QUESTION # 35

You're a Workspace Admin on the Slack Business+ plan. Your company, Hurricane Inc., recently acquired another company, Tidepool Ltd., that uses the Slack Pro plan. You need to consolidate Tidepool's Slack workspace into Hurricane's workspace. What is the best option for moving Tidepool's channels?

(Select the best answer.)

- A. Export all public channels from Tidepool's Pro workspace, then import them into Hurricane's Business workspace.
- B. Create new channels in Hurricane's workspace to mirror the channels in Tidepool's workspace.
- C. Copy all of Tidepool's channels into Hurricane's workspace using Copy Channels on the Channel Management page.
- D. Use the Move Channels page in the admin dashboard to move channels to Hurricane's workspace.

Answer: A

Explanation:

For consolidating workspaces across Slack plans (Pro to Business+), the official process is:

"Export the public channel history from the source workspace and import it into the target workspace." The "Move Channels" tool (B) only exists in Slack Enterprise Grid, not between standard workspaces. There's no Copy Channels feature (D). Manually recreating channels (A) would lose message history.

(Reference: Slack Administration Study Guide - Workspace Consolidation via Exports and Imports)

-

NEW QUESTION # 36

Which of the following statements describes the effect of configuring mandatory Two Factor Authentication (2FA) in Slack?

- A. Members use single sign-on (SSO) to handle the exchange of usernames and passwords on behalf of Slack.
- B. Members must submit a verification code along with their password each time they sign in.
- C. Members must have a sophisticated and complex password that is updated regularly.
- D. Members must use a biometric reader to authenticate with Slack.

Answer: B

Explanation:

Mandatory Two Factor Authentication (2FA) adds an extra layer of security to member accounts. When enabled, Slack requires that:

"Members must enter a verification code from an authentication app or text message after submitting their password to successfully sign in." This means each time members sign into Slack, they must provide both their password and a second factor, typically a code generated by a mobile authentication app or received via SMS. This prevents unauthorized access even if a password is compromised.

The other options (A, B, C) describe different security measures but do not accurately represent the behavior of 2FA as configured in Slack.

(Reference: Slack Administration Study Guide - Security and Compliance - Two Factor Authentication)

NEW QUESTION # 37

.....

Salesforce-Slack-Administrator exam torrent is famous for instant download. You will receive downloading link and password within ten minutes, and if you don't receive, just contact us, we will check for you.
