In response to this, we have scientifically set the content of the CBCI exam questions. On one hand, we have collected the most important keypoints which will definitely show up in the real exam to the content of the CBCI learning guide. On the other hand, we have simplified the content and make it better to be understood by all of the customers.

## **BCI Certificate of the Business Continuity Institute (CBCI) Sample Questions (Q85-Q90):**

### **NEW QUESTION # 85**

Which of the following is a way to ensure that personnel remain committed to Business Continuity and to protecting the organization from the effects of disruption?

- A. Holding annual assessments of Business Continuity knowledge and understanding and setting minimum pass standards which personnel must meet
- B. Making it a disciplinary offence for personnel to miss relevant Business Continuity meetings and training events
- C. Including Business Continuity as part of the introduction to meetings and events in order to strengthen and maintain the relationship between personnel and the organization
- D. Providing updates on Business Continuity activities via the intranet which personnel can find and read if they are interested

### **Answer: C**

Explanation:

To foster commitment, Business Continuity must be embedded in the daily organizational culture, not merely treated as an administrative requirement or compliance exercise. The CBCI 7.0 course highlights that including Business Continuity topics in the introductions to meetings and events encourages ongoing dialogue and reinforces its importance. This practice nurtures a sense of shared responsibility and engagement, which is more effective than punitive measures or passive communication. Embedding Business Continuity in routine interactions helps personnel internalize its significance, promotes continual awareness, and strengthens their relationship with the organization's resilience goals. This proactive, inclusive approach ensures commitment is sustained over time, improving response effectiveness during disruptions.

Reference: CBCI 7.0 Study Guide, Module 4: Developing a Business Continuity Culture, pages 65-68.

### **NEW QUESTION # 86**

Analysing information about how an organization has responded to incidents, including engagement with those impacted and its approach to responsibility, can provide insight into the organization's:

- A. Culture
- B. Business plan
- C. Structure
- D. Business targets

### **Answer: A**

Explanation:

Understanding an organization's response to incidents—particularly how it engages with affected parties and manages accountability—offers a window into its organizational culture. Culture reflects shared values, beliefs, and behaviors within an organization, influencing how risks are perceived and managed. The CBCI 7.0 course emphasizes that a strong Business Continuity culture ensures personnel are proactive in managing disruptions and

7.0 course emphasizes that a strong Business Continuity culture ensures personnel are proactive in managing disruptions and

responsible for their roles in response plans. Analysing incident responses reveals this underlying culture by showing commitment levels, openness to learning, and responsibility allocation, which collectively shape resilience. This insight is crucial because culture directly affects the effectiveness of the Business Continuity Management System (BCMS), as a positive culture fosters cooperation and adherence to continuity plans, while a weak culture may reveal gaps in preparedness and commitment.

Reference: CBCI 7.0 Study Guide, Module 2: Understanding Organizational Context and Culture, pages 35-38.

#### NEW QUESTION # 87

The purpose of an external audit of the Business Continuity Management System (BCMS) is to:

- A. Confirm that the organization is fully prepared to respond to incidents
- **B. Provide independent assurance on a set of Business Continuity processes and controls**
- C. Make recommendations on alternative ways of meeting recovery time objectives (RTOs)
- D. Assess the performance of the members of top management team in relation to Business Continuity

**Answer: B**

Explanation:

External audits provide independent verification that the BCMS complies with relevant standards, policies, and regulatory requirements. The CBCI 7.0 course clarifies that audits assess the design, implementation, and effectiveness of Business Continuity processes and controls to assure stakeholders that the system functions as intended. The audit does not specifically test operational readiness or management performance but focuses on conformance and control integrity, enabling informed decision-making about system improvements.

Reference: CBCI 7.0 Study Guide, Module 6: Audit and Review, pages 135-138.

#### NEW QUESTION # 88

Consulting stakeholders, conducting a cost-benefit analysis, consulting with internal resources such as risk management and internal audit teams, and horizon scanning are some of the methods that might be used when:

- A. Developing an exercise programme
- B. Identifying and assigning Business Continuity Management System (BCMS) roles and responsibilities
- **C. Defining the initial BCMS scope**
- D. Measuring Business Continuity culture

**Answer: C**

Explanation:

Defining the initial scope of a BCMS requires a comprehensive understanding of organizational context, risks, and priorities. The CBCI 7.0 course recommends consulting with stakeholders, leveraging internal expertise (e.g., risk management, audit), performing cost-benefit analyses, and horizon scanning to capture potential future threats and opportunities. These methods ensure that the scope is appropriately focused and realistic, considering business objectives, resource availability, and external environment. This thorough approach lays the foundation for a relevant and effective BCMS.

Reference: CBCI 7.0 Study Guide, Module 1: Scope and Context, pages 27-30.

#### NEW QUESTION # 89

Which of the following is a technique for collecting Business Impact Analysis (BIA) information?

- **A. Questionnaires and surveys**
- B. Workplace health and safety reviews
- C. Workplace observation
- D. Monthly budget reviews

**Answer: A**

Explanation:

Questionnaires and surveys are widely used and effective techniques for gathering BIA information. They enable the Business Continuity professional to collect standardized data on activity priorities, dependencies, and recovery requirements from a broad range of stakeholders. The CBCI 7.0 course highlights that well-designed questionnaires provide structured insights while being

scalable and efficient, especially in larger organizations. While workplace observation and reviews provide useful context, and budget reviews may give financial perspectives, they are not primary tools for capturing the detailed operational data needed for BIAs.
