**To start with, everyone can find self-paced online training on the Microsoft Learn platform. This is a free training course designed for those who have a basic knowledge of Microsoft Power Automate and an understanding of Power Apps. This is a great study tool because it includes short video lectures, exercises, and self-test quizzes. So, with each new module, you will touch on all the topics you will encounter on the exam, namely:**

- Create a model-driven application in Power Apps;
- Create relationships, business rules, calculations, and rollups in Dataverse;
- Manage permissions and administration for Dataverse;
- Create and use analytics reports with Power BI;
- Get started using Dataverse;
- Create a canvas app in Power Apps;
- Create bots with Power Virtual Agents;
- Utilize AI Builder for the AI-enablement of your business;
- Use best practices to secure and govern Power Platform environments;
- Improve business performance with AI Builder.
- Create a business process flow in Power Automate;

For those candidates who have limited time or don't want to take the time to do a long self-study, the official vendor offers a paid training course 'PL-200T00-A: Microsoft Power Platform Functional Consultant'. It's a 5-day instructor-led program that allows an applicant to have hands-on experience on the subject matter. Using this training, one can increase the success possibilities on the final test. The combination of labs and lectures let an applicant gain an in-depth understanding of the concepts and perform well in the exam in such topics as Power Platform components, Microsoft Dataverse, Power Apps making, flows building, Power BI Desktop, among many. Also, it is worth noting that students should already be familiar with the Power Platform and Microsoft Dataverse before starting the course. This is when Microsoft guarantees that you will master the entire PL-200 Exam Syllabus and pass it on the first try.

### NEW QUESTION # 157

A company uses a Power Apps app with Microsoft Dataverse.

The company requires the import of records into Dataverse. Duplicate records in the data must be deleted without user intervention.

You create a duplicate detection rule.

You need to configure the rule for the data import.

Which option should you configure?

- A. Enable the When a record is created or updated option.
- B. Disable the Allow Duplicates option.
- C. **Enable the During data import option.**
- D. Enable the Templates for Data Import option.

#### Answer: C

Explanation:

Explanation

When configuring a duplicate detection rule in Power Apps with Microsoft Dataverse, to automatically delete duplicate records during a data import, you should enable the "During data import" option. This option allows the detection rule to automatically delete duplicates as they are imported into the system, without requiring user intervention.

Graphical user interface, text, application Description automatically generated

Graphical user interface, text, application Description automatically generated

## NEW QUESTION # 159

You are a Dynamics 365 Customer Service system administrator. You create an app for the sales team.

Members of the sales team cannot access the app.

You need to ensure that sales team members can access the app.

Where should you configure app permissions?

- **A. Manage Roles**
- B. Security Roles
- C. Dynamics administration center
- D. Dynamics 365 home

### Answer: A

Explanation:

References:

<https://docs.microsoft.com/en-us/dynamics365/customer-engagement/customize/manage-access-apps-security-ro> Manage access to apps by using security roles.

You can choose what users see and access from the My Apps page or the Customer Engagement home page by giving app access to specific security roles. Users will have access to apps based on the security roles they're assigned to.

1. Go to Settings > My Apps.
2. In the lower-right corner of the app tile you want to manage access for, select More options (...), and then select Manage Roles.
3. Enter the following in the Manage Roles dialog box:
  - a) App URL Suffix
  - b) Roles
  - c) Select Save.
4. Refresh the My Apps page.
5. Go to the Apps Being Edited view, and publish the app again.
