Our VMware 2V0-32.24 Practice Exam software is compatible with Windows computers. If you run into any issues while using our VMware Cloud Operations 8.x Professional V2 (2V0-32.24) exam simulation software, our 24/7 product support team is here to help you. One of our 2V0-32.24 desktop practice exam software's other feature is that it can be used even without an active internet connection. The Internet is only required for product license validation. This feature allows users to practice without an active internet connection.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.

Topic 2	<ul style="list-style-type: none"> Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 3	<ul style="list-style-type: none"> Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 4	<ul style="list-style-type: none"> Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.
Topic 5	<ul style="list-style-type: none"> Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q54-Q59):

NEW QUESTION # 54

An administrator has been tasked with updating vRealize Suite Lifecycle Manager (vRSLCM) to a specific version to support the phased upgrade of the vRealize Suite.

Which three steps should the administrator take to ensure vRSLCM is upgraded to the correct version?
(Choose three.)

- A. Connect the ISO to the vRSLCM Appliance as a Virtual CD-ROM
- B. Use the Online repository for the source of the upgrade files
- C. Download the vRealize Suite Lifecycle Manager Upgrade ISO**
- D. Update to the latest Product Support Pack in vRSLCM
- E. Use the CD-ROM repository for the source of the upgrade files**
- F. Download the vRealize Suite Lifecycle Manager Easy installer ISO**

Answer: C,E,F

Explanation:

To ensure a proper upgrade of vRealize Suite Lifecycle Manager (vRSLCM) to a specific version, the following steps are required: Download the vRealize Suite Lifecycle Manager Easy installer ISO: This installer is essential for performing the upgrade and will provide the necessary files to carry out the upgrade.

Download the vRealize Suite Lifecycle Manager Upgrade ISO: The upgrade ISO contains the updated version of vRSLCM that the administrator needs to apply to complete the upgrade.

Use the CD-ROM repository for the source of the upgrade files: The upgrade process will often use the ISO repository (which could be configured as a virtual CD-ROM drive) to access the required files and complete the upgrade.

NEW QUESTION # 55

An administrator is tasked with installing vRealize Log Insight using vRealize Suite Lifecycle Manager (vRSLCM). They have been instructed to use DHCP for the deployment.

Which statement about this scenario is correct?

- A. Static IP addresses are required for any product deployment in vRSLCM
- B. A default gateway does not need to be supplied for the deployment
- C. **DHCP addresses are only supported for vRealize Log Insight worker nodes**
- D. DHCP addresses are only supported for the cluster virtual IP address (VIP)

Answer: C

Explanation:

In vRealize Suite Lifecycle Manager (vRSLCM), DHCP addresses can be used for vRealize Log Insight worker nodes. However, static IP addresses are typically recommended for the management and master nodes to ensure stability and consistency in the deployment. DHCP addresses are not recommended for the primary or management nodes because they might change after a reboot, causing issues with connectivity and accessibility.

NEW QUESTION # 56

In vRealize Operations, which of these statements is correct?

- A. A symptom can include a combination of alerts
- B. An alert can include a combination of notifications
- C. A notification can include a combination of symptoms
- D. **An alert can include a combination of symptoms**

Answer: D

Explanation:

In vRealize Operations, an alert is triggered based on symptoms. A symptom represents a specific condition or threshold violation (such as high CPU usage, memory pressure, etc.), and an alert can be the result of one or more symptoms. Therefore, it is correct that an alert can include a combination of symptoms, as it represents the aggregation of various conditions that indicate an issue.

NEW QUESTION # 57

In vRealize Operations, a user applies a CPU License to a custom group which has existing hosts.

How will the Virtual Machines (VMs) on the existing hosts be affected?

- A. The VMs running on the hosts show a 'License is Invalid' watermark.
- B. **The VMs running on the hosts are not affected.**
- C. The CPU license gets converted to a CPU and VM license.
- D. vRealize Operations prompts the user to apply a VM license key to the VMs running.

Answer: B

Explanation:

When a CPU license is applied to a custom group in vRealize Operations, it impacts the hosts but does not directly affect the Virtual Machines (VMs) running on those hosts. The license is applied at the host level, and the VMs are not impacted by this change. The VMs will continue to run as they were, and no additional VM licenses are required.

NEW QUESTION # 58

An administrator would like to monitor third-party storage array metrics in vRealize Operations.

Which three steps should the administrator take to complete this objective? (Choose three.)

- A. Download the PPK file from VMware Marketplace
- B. **Download the Management Pack from the VMware Marketplace to the local system**
- C. **Download the Content Pack from VMware Marketplace**
- D. Verify that the Management Pack is supported for the specific vRealize Operations version/edition from the VMware Compatibility Guide

- E. Install and configure the Management Pack
- F. All Management Packs are installed & configured by default when installing the vRealize Operations

Answer: B,C,E

Explanation:

Download the Content Pack from VMware Marketplace: To monitor third-party storage arrays, you need to obtain the relevant content pack, which contains predefined dashboards, reports, and other resources.

Download the Management Pack from the VMware Marketplace to the local system: The necessary management pack, which includes the integrations required to monitor third-party storage arrays, must be downloaded from the VMware Marketplace.

Install and configure the Management Pack: After downloading, the management pack needs to be installed and configured in vRealize Operations to enable monitoring of the third-party storage array.

NEW QUESTION # 59

.....

Our 2V0-32.24 exam torrent has three versions which people can choose according to their actual needs: PDF, PC and APP versions. The vision of PDF is easy to download, so people can learn 2V0-32.24 guide torrent anywhere if they have free time. As for PC version, it can simulate real operation of test environment, users can test themselves in mock exam in limited time. This version of our 2V0-32.24 Exam Torrent is applicable to windows system computer. Based on Web browser, the APP version of 2V0-32.24 exam questions can be available as long as there is a browser device can be used.
