

# Latest SAP Download C\_TS422\_2023 Pdf offer you accurate Downloadable PDF | SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing

P.S. Free 2026 SAP C\_TS422\_2023 dumps are available on Google Drive shared by ActualCollection:  
<https://drive.google.com/open?id=1JqQOZrtfXQMm87fpQYCNlEmOaeXiLoYn>

Why is ActualCollection SAP C\_TS422\_2023 certification training so popular, especially among the same trade? Firstly, we really know what the candidates need. Secondly, Our ActualCollection SAP C\_TS422\_2023 dumps are concerned on one thing only – how to help the candidates to pass SAP C\_TS422\_2023 test. Thirdly, Our ActualCollection SAP C\_TS422\_2023 study guide is very technical and original. We provide you with the latest test questions and test answers. And the price is very cost-effective.

## SAP C\_TS422\_2023 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Material Requirements Planning in SAP S</li><li>• 4HANA: This part of the exam covers an examination of planning strategies, tools, and long-term planning concepts. Overview of MRP fundamentals and lot size procedures.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Lean Manufacturing in SAP S</li><li>• 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Capacity Planning in SAP S</li><li>• 4HANA: This section covers a discussion of SAP S</li><li>• 4HANA best practices, SAP HANA database concept, SAP Fiori user experience, and embedded analytics capabilities.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• Production Orders in SAP S</li> <li>• 4HANA: This section covers BOM item categorization, order status management, availability checks, routing selection, order type setup, and material handling processes.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Demand Management in SAP S</li> <li>• 4HANA: This section covers a comparison of production methods in various manufacturing environments.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Introduction to SAP S</li> <li>• 4HANA Production Planning: This section covers an overview of production planning components, functions, and planning approaches. Exploration of emerging trends.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• Managing Clean Core: This section covers the application of clean core principles to enhance business process agility, reduce adaptation efforts, and drive innovation in ERP systems.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• Advanced Planning in SAP S</li> <li>• 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• Process Orders in SAP S</li> <li>• 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• Master Data in SAP S</li> <li>• 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version.</li> </ul>

## **C\_TS422\_2023 Download SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Pdf & Free PDF SAP Realistic SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing**

Successful people are those who are willing to make efforts. If you have never experienced the wind and rain, you will never see the rainbow. Giving is proportional to the reward. Now, our C\_TS422\_2023 study materials just need you spend less time, then your life will take place great changes. Our company has mastered the core technology of the C\_TS422\_2023 Study Materials. What's more, your main purpose is to get the certificate quickly and easily. Our goal is to aid your preparation of the C\_TS422\_2023 exam. Our study materials are an indispensable helper for you anyway. Please pay close attention to our C\_TS422\_2023 study materials.

### **SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q59-Q64):**

#### **NEW QUESTION # 59**

Which information is required when you create a product master in SAP S/4HANA?

Note: There are 2 correct answers to this question.

- A. Selection screen for plants
- B. Selection screen for views
- C. Product type
- D. Base unit of measure

**Answer: C,D**

Explanation:

When you create a product master in SAP S/4HANA, you need to enter values for mandatory fields such as product number, product type, base unit of measure, and description. The product type determines the category of the product, such as material, service, or article. The base unit of measure defines the unit in which you manage the product in all business transactions. The

selection screen for views and plants are optional fields that allow you to choose which views and plants you want to maintain for the product master. Reference: Creating Products, Understanding the Concept of Master Data

#### NEW QUESTION # 60

For production orders cost object controlling (COC) can be carried out on an order related or product related basis. Which of the following do you have to consider?

Note: There are 2 correct answers to this question.

- A. In orderrelated COC individual production orders do NOT have cost segments.
- B. In productrelated COC all costs are debited credited to a product cost collector.
- C. Orderrelated COC is beneficial in a flexible production environment.
- D. Productrelated COC is used in manufacturing for coproducts.

**Answer: B,C**

#### NEW QUESTION # 61

Which master data fields can have an impact on whether MRP creates planned orders or purchase requisitions for a material?

Note: There are 2 Correct answers to this question?

- A. MRP Groups
- B. Procurement Type
- C. MRP type
- D. Material Type

**Answer: B,C**

Explanation:

The master data fields that can have an impact on whether MRP creates planned orders or purchase requisitions for a material are:  
MRP type: The MRP type is a parameter that defines how a material is planned by MRP. Depending on the MRP type, MRP can create different types of procurement proposals for a material. For example, if the MRP type is PD (MRP), MRP can create either planned orders or purchase requisitions, depending on the procurement type of the material. If the MRP type is VB (Reorder Point Planning), MRP can only create purchase requisitions, regardless of the procurement type of the material.

Procurement type: The procurement type is a parameter that defines how a material is procured, either internally or externally.

Depending on the procurement type, MRP can create different types of procurement proposals for a material. For example, if the procurement type is E (External Procurement), MRP can only create purchase requisitions for a material. If the procurement type is X (Both Procurement Types Possible), MRP can create either planned orders or purchase requisitions, depending on the source of supply determination.

The master data fields that do not have an impact on whether MRP creates planned orders or purchase requisitions for a material are:

MRP groups: The MRP groups are parameters that allow you to group materials with similar planning characteristics and assign them common MRP settings, such as planning horizon, lot-sizing procedure, or planning calendar. The MRP groups do not directly affect the type of procurement proposals created by MRP, but they can influence the quantity and timing of the requirements and receipts.

Material type: The material type is a parameter that defines the attributes and properties of a material, such as valuation class, price control, or account determination. The material type does not affect the type of procurement proposals created by MRP, but it can influence the valuation and accounting of the material movements.

#### NEW QUESTION # 62

How can you set up the supply source for the Kanban process in SAP S/4HANA?

Note: There are 3 correct answers to this question.

- A. Use purchase orders for external procurement.
- B. Use purchasing costs for automated source prioritization.
- C. Use stock transfer reservations for stock transfer.
- D. Use run schedule quantities for in-house production.
- E. Use quotations for internal and external procurement

**Answer: A,C,D**

Explanation:

You can set up the supply source for the Kanban process in SAP S/4HANA by using different replenishment strategies, depending on whether the material is procured internally or externally. For internal procurement, you can use run schedule quantities, which are calculated based on the Kanban quantity and the number of Kanbans. For external procurement, you can use purchase orders, which are created automatically when a Kanban status changes to EMPTY. For stock transfer, you can use stock transfer reservations, which are also created automatically when a Kanban status changes to EMPTY and trigger a goods movement from the supplying plant to the receiving plant. Reference: Replenishment Strategies, Stock Transfer with Kanban, External Procurement with Kanban

#### NEW QUESTION # 63

If the stock level drops below the reorder stock in reorder point planning, what logic would the system use to trigger procurement?

- A. Fill up to the maximum stock level.
- B. Fill up to the safety stock level.
- C. Fill up to the reorder stock level.
- **D. Fill up based on the lot size procedure.**

**Answer: D**

Explanation:

In reorder point planning, the system compares the available stock with the reorder point to determine the net requirements. If the available stock falls below the reorder point, the system triggers a procurement proposal for the material. The quantity of the procurement proposal depends on the lot size procedure that is defined in the material master. The lot size procedure determines how the system calculates the order quantity based on factors such as demand, costs, and storage space. There are different types of lot size procedures, such as static, periodic, or optimum lot size. Reference: [Production Planning with SAP S/4HANA], page 156; [SAP Help Portal: Lot Size Calculation].

#### NEW QUESTION # 64

.....

If you are looking for a good learning site that can help you to pass the SAP C\_TS422\_2023 exam, ActualCollection is the best choice. ActualCollection will bring you state-of-the-art skills in the IT industry as well as easily pass the SAP C\_TS422\_2023 exam. We all know that this exam is tough, but it is not impossible if you want to pass it. You can choose learning tools to pass the exam. I suggest you choose ActualCollection SAP C\_TS422\_2023 Exam Questions And Answers. I suggest you choose ActualCollection SAP C\_TS422\_2023 exam questions and answers. The training not only complete but real wide coverage. The test questions have high degree of simulation. This is the result of many exam practice. If you want to participate in the SAP C\_TS422\_2023 exam, then select the ActualCollection, this is absolutely right choice.
