Test UiPath-TAEPv1 Valid & Exam UiPath-TAEPv1 Tutorial

In line with the concept that providing the best service to the clients, our company has forged a dedicated service team and a mature and considerate service system. We not only provide the free trials before the clients purchase our UiPath-TAEPv1 training materials but also the consultation service after the sale. We provide multiple functions to help the clients get a systematical and targeted learning of our UiPath-TAEPv1 Certification guide. So the clients can trust our UiPath-TAEPv1 exam materials without doubt.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	• Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.
Topic 2	• UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.

Topic 3	• UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.
Topic 4	• UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 5	• UiPath Test Manager: This section of the exam measures the skills of Test Automation Engineers and focuses on using UiPath Test Manager for managing test lifecycles. It includes actions like defining custom fields, managing access, importing • exporting projects, and documenting manual steps using UiPath Task Capture. It also explains how to analyze test results, handle execution re-runs, manage KPIs, and create defects for failed test cases, along with troubleshooting common errors.:
Topic 6	• UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 7	• Environments, Applications, and • or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.
Topic 8	• UiPath Robot: This section of the exam measures the skills of RPA Developers and explains the role of testing robots and their connectivity with UiPath Orchestrator. It discusses the execution of test cases using both on-premises and cloud-based robots and highlights how different robot types support automation testing in a scalable environment.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q68-Q73):

NEW QUESTION # 68
What is the scope of custom fields in UiPath Test Suite?

- A. Define project-specific custom attributes for the requirements, test cases, test sets, and reports.
- B. Define custom attributes unique to the project and the set of APIs, test cases, and test sets.
- C. Define project-specific custom attributes for the requirements, test cases, and test sets.
- D. Define project-specific custom attributes for the requirements workflows, test sets, and test executions.

Answer: C

Explanation:
The scope of custom fields in UiPath Test Suite is to define project-specific custom attributes for requirements, test cases, and test sets. These custom fields allow for better categorization and management of test data and help tailor the test management process to the project's specific needs.

NEW QUESTION # 69

What is a limitation when re-executing test case executions for data-driven test cases?

- A. Only one test case execution can be re-executed at a time.
- B. Data-driven test case executions cannot be re-executed.
- C. There is no limitation when re-executing data-driven test case executions.
- D. Multiple data-driven test case executions can be re-executed at once.

Answer: A

Explanation:
A limitation when re-executing data-driven test case executions is that only one test case execution can be re-executed at a time. This is due to the unique data sets tied to each execution, which require individual handling.

NEW QUESTION # 70
When is it necessary to utilize the Mobile Device Manager?

- A. Both at design-time and at run-time.
- B. At design-time.
- C. Never
- D. At run-time.

Answer: A

Explanation:
The Mobile Device Manager is required both at design-time and run-time when working with mobile automation in UiPath. At design-time, it connects Studio to mobile devices for building workflows. At run-time, it enables execution of mobile automation on those devices.

NEW QUESTION # 71
Which component of the UiPath Test Suite communicates directly with CI/CD pipelines?

- A. UiPath Test Manager
- B. UiPath Studio
- C. UiPath Action Center
- D. UiPath Orchestrator

Answer: D

Explanation:
UiPath Orchestrator is the component that communicates directly with CI/CD pipelines. It manages the execution of test cases and workflows triggered from CI/CD tools, enabling automated and continuous testing as part of the deployment process.

NEW QUESTION # 72
Which type of local templates can be used when creating a new test case?

- A. Test template, Project template, Workflow template.
- B. Execution template, Project template, Custom template.
- C. Execution template, Workflow template, Script template.
- D. Execution template, Workflow template, Test case template.

Answer: D

Explanation:
When creating a new test case in UiPath, you can use local templates such as:
Execution template - defines how the test case is executed
Workflow template - provides reusable workflow logic
Test case template - serves as the base structure for new test cases
These templates help standardize and streamline test creation.

NEW QUESTION # 73

......

You can absolutely assure about the high quality of our products, because the contents of UiPath-TAEPv1 training materials have not only been recognized by hundreds of industry experts, but also provides you with high-quality after-sales service. Before purchasing UiPath-TAEPv1 exam torrent, you can log in to our website for free download. During your installation, UiPath-TAEPv1 exam questions hired dedicated experts to provide you with free remote online guidance. During your studies, UiPath-TAEPv1 Exam Torrent also provides you with free online services for 24 hours, regardless of where and when you are, as long as an email, we will solve all the problems for you. At the same time, if you fail to pass the exam after you have purchased UiPath-TAEPv1 training materials, you just need to submit your transcript to our customer service staff and you will receive a full refund.
