## PL-400 시험 대비 덤프 최신 데모 시험 공부는 적응을 높은 덤프로 !

경쟁이 점점 높아지는 IT 업계에 살아남으려면 국제적으로 인증해주는 IT 자격증 몇 개쯤은 취득해야 되지 않을까요? Microsoft PL-400 시험으로부터 자격증 취득을 시작해보세요. Microsoft PL-400 덤프의 모든 문제를 외우기만 하

면 시험패스가 됩니다. Microsoft PL-400덤프는 실제 시험문제의 모든 유형을 포함되어있어 적응율이 최고입니다.

## 최신 Microsoft Certified: Power Platform Developer Associate PL-400 무료 샘플문제 (Q285-Q290):

### 질문 # 285

You need to assign the minimum environment security role to the appropriate users.

Which security roles should you use? To answer, drag the appropriate security roles to the correct users. Each security role may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Security roles	Answer Area
System Administrator	User Security role
System Customizer	UserB Security role
Common Data Service User	UserC Security role
Environment Maker	All employees Security role

정답:

설명:

Security roles	Answer Area
System Administrator	UserA Common Data Service User
System Customizer	UserB Environment Maker
Common Data Service User	UserC System Administrator
Environment Maker	All employees System Customizer

### 질문 # 286

A company uses Microsoft 365. You are developing a model-driven app.

The app must meet the following requirements:

- \* Use SharePoint Online for document storage.
- \* Send emails by using Exchange Online.

You need to configure integrations.

What should you configure? To answer, drag the appropriate configuration options to the correct requirements. Each configuration option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Configuration options**

- Server-side synchronization
- Server-based integration
- Dual-write
- System settings

**Answer Area**

**Requirement**  
 Email  
 Document storage

**Configuration option**

- Configuration option
- Configuration option

정답:

설명:

Explanation:

Box 1: Server-side synchronization

Configure default email processing and synchronization: set server-side synchronization to be the default configuration method for newly created users.

Box 2: Server-side integration.

If your organization is already using document management with Microsoft Dynamics CRM List Component, you must switch to server-based SharePoint integration.

If your organization has not deployed document management, when a System Administrator logs in an alert message will be displayed to enable server-based SharePoint integration.

**질문 # 287**

You need to ensure that Adventure Works Cycles can track information from visitors to bike fairs.

What should you create?

- A. a Power Automate flow that generates a new customer record in SharePoint.
- B. a business process flow in Dynamics 365 Sales for capturing leads.
- C. a Power Automate flow that connects with the bike fair Power Apps app to create a lead in Dynamics 365 Sales
- D. a Power Automate flow to capture customer data from the bike fair Power Apps app in SharePoint and create a lead in Microsoft Teams.

정답: C

설명:

Scenario:

Qualified leads must be collected from local bike fairs.

Adventure Works Cycles uses a Power Apps app for local bike fairs to attract new customers.

By using a Dynamics 365 connector, you can create flows that initiate when an event occurs in Dynamics 365, or some other service, which then performs an action in Dynamics 365, or some other service.

In Power Automate, you can set up automated workflows between your favorite apps and services to synchronize files, get notifications, collect data, and more.

### 질문 # 288

An international organization has a series of client-server applications that manage red light cameras and traffic violations across a wide geographic region. The daily volume of traffic violations is very high and growing.

You plan to use Microsoft Power Platform apps to manage the following types of data:

Existing vehicle licensing data must be imported into Common Data Service and easily queried.

Red light camera images must be stored in a repository for later analysis.

Information about traffic violations must be stored and related to vehicle details.

You need to select data storage mechanisms for the new apps.

Which data storage mechanisms should you use? To answer, drag the appropriate data storage mechanisms to the correct data types. Each storage mechanism may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Data storage mechanisms	Data type	Data storage mechanism
Entity	Vehicle licensing data	
Azure Storage Blob	Red light camera photos	
Azure Cosmos DB	Information about traffic violations	

정답 :

설명:

Data storage mechanisms	Data type	Data storage mechanism
Entity	Vehicle licensing data	Azure Cosmos DB
Azure Storage Blob	Red light camera photos	Azure Storage Blob
Azure Cosmos DB	Information about traffic violations	Entity

### 질문 # 289

You need to assign security roles to groups of users.

Which security roles should you use? To answer, drag the appropriate security types to the correct roles. Each security type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

정답:

설명:

Explanation

Graphical user interface, text, application Description automatically generated

Scenario: The company identifies the following job roles:

Role	Tasks
Sales representative	These users will enter data into Dynamics 365 Customer Service.
Intern	These users will create Power Apps apps, and connectors, and create Power Automate flows.
Manager	These users will add users, assign security roles, and manage data storage.

You must grant users the minimum permissions required to perform their job tasks.

Intern: Environment Maker

Environment Maker: Can create new resources associated with an environment, including apps, connections, custom APIs, gateways, and flows using Microsoft Power Automate. However, this role doesn't have any privileges to access data within an environment.

Manager: System Administrator

System Administrator: Has full permission to customize or administer the environment, including creating, modifying, and assigning security roles. Can view all data in the environment.

Sales representative: Common Data Service User
