Experience-Cloud-Consultant Exam covers topics such as designing and building communities, user experience design, data modeling, security and access control, and integration with other systems.

## Salesforce Certified Experience Cloud Consultant Sample Questions (Q136-Q141):

### NEW QUESTION # 136

Which three items are reportable by a site administrator through Google Analytics for Experience Cloud sites?  
Choose 3 answers

- A. Number of Case Created by user
- B. Contact Support page Activity

- C. User Login History Option
- D. Page View by Salesforce Object
- E. Search Activity

**Answer: B,C,E**

Explanation:

Three items that are reportable by a site administrator through Google Analytics for Experience Cloud sites are B, C, and E. Google Analytics is a tool that allows you to measure and analyze the traffic and behavior of your Experience Cloud site visitors. Google Analytics can report on various items, such as:

Search Activity: This item shows how users search for content on your site, such as the number of searches, the search terms used, the number of results returned, and the click-through rate.

User Login History Option: This item shows how users log in to your site, such as the number of logins, the login methods used, the login duration, and the login frequency.

Contact Support page Activity: This item shows how users interact with your contact support page, such as the number of visits, the bounce rate, the average time on page, and the conversion rate.

#### NEW QUESTION # 137

A consultant for Cloud Kicks (CK) is asked to build a site for CK customers. As part of this site, a custom object will be used to manage customer subscriptions. These subscriptions will need to leverage advanced sharing rules to ensure that only appropriate customers can see these subscriptions.

Which two user license types should be granted to customers to support this sharing requirement?

Choose 2 answers

- A. Customer Community Login User
- B. Customer Community User
- C. Partner Community User
- D. Customer Community Plus Login User

**Answer: C,D**

Explanation:

To support the sharing requirement of using advanced sharing rules for the custom object, CK should grant two user license types to customers: Partner Community User and Customer Community Plus Login User.

These license types allow customers to access custom objects and a subset of standard CRM objects, such as accounts, contacts, cases, and dashboards. These license types also support advanced sharing features, such as role hierarchy, sharing rules, manual sharing, and Apex sharing.

#### NEW QUESTION # 138

Northern trail Outfitters has created a microsite digital experience for its Gold-Level VIP customers. The digital experience is not yet active.

The community manager would like to send welcome emails on a specific day, which include a promotion for participating in the community.

In which order should the community manager perform activation steps?

- A. Publish the community, which will send out the welcome emails.
- B. Set the community to Active, and available profiles and permission sets to the Admin Workspace, and create a process to send the welcome emails.
- C. Add available profiles and permission sets to the Admin Workspace, enable Contacts as community users, set welcome emails to Enabled, and set the community to Active.
- D. Set the Community to Active, and available profiles and permission sets to the Admin Workspace, enable Contacts as community users, and set welcome emails to Enabled.

**Answer: C**

Explanation:

The order in which the community manager should perform activation steps is A. To activate a site in Experience Cloud, you need to complete several steps, such as adding profiles and permission sets, enabling contacts as community users, setting welcome emails, and setting the site to active. The order of these steps is important, because some steps depend on others. For example, you need to

add profiles and permission sets before you can enable contacts as community users, and you need to set welcome emails before you can set the site to active.

### NEW QUESTION # 139

universal Containers UC maintains multiple customer-facing sites, but only one profile for all customer users. No customer has access to more than one site.

which two steps should the UC admin take to grant access to each customer?

Choose 2 answers

- A. Select a permission set for a given site.
- B. Select the profile for a given site.
- C. Edit the applicable user profile.
- D. Create a permission set.

**Answer: A,D**

### NEW QUESTION # 140

Ursa Major Solar (UMS) recently went through a major rebranding effort that resulted in a new company logo along with new brand colors. UMS wants to update brand colors across all of its sites. The sites are built with Lightning templates.

Which tool should the Experience Cloud consultant recommend to make these changes?

- A. Lightning Builder
- B. Site Builder
- C. Experience Cloud Script Master
- D. ExperienceBundle

**Answer: B**

Explanation:

To update brand colors across all of its sites, UMS should use the Site Builder tool. Site Builder is a tool that allows you to edit the look and feel of your Experience Cloud sites using a drag-and-drop interface. You can change the theme, layout, components, and branding of your sites without coding. Site Builder also supports Lightning templates, which are responsive and modern templates for Experience Cloud sites.

### NEW QUESTION # 141

.....
