And the Value Pack of the C-ARP2P-2508 practice guide contains all of the three versions with a more favourable price.

SAP C-ARP2P-2508 Exam Syllabus Topics:

Topic	Details
Topic 1	Consulting: This section of the exam measures skills of SAP Consultants and covers providing advisory and technical support throughout SAP Ariba implementations. It includes identifying client requirements, configuring solutions, managing system adoption, and aligning procurement operations with business strategies to ensure successful deployment.
Topic 2	Managing Clean Core: This section of the exam measures skills of SAP Implementation Consultants and covers maintaining a clean core approach within SAP Ariba Buying solutions. It emphasizes managing configurations, extensions, and integrations in a way that aligns with SAP best practices, ensuring long-term system stability, scalability, and simplified upgrades.
Topic 3	Contract Compliance: This section of the exam measures skills of Compliance Managers and focuses on ensuring adherence to procurement and contractual obligations in SAP Ariba. It covers monitoring contract terms, validating supplier compliance, managing exceptions, and optimizing spend visibility to maintain alignment with organizational governance standards.

Topic 4	Administration: This section of the exam measures skills of SAP System Administrators and covers managing user access, permissions, configurations, and overall system maintenance in SAP Ariba Buying. It includes implementing security policies, monitoring system health, and maintaining performance for a secure and well-governed procurement environment.
Topic 5	Integration: This section of the exam measures skills of SAP Integration Specialists and covers the connection of SAP Ariba Buying with other SAP systems and external applications. It includes managing master data synchronization, API configurations, and ensuring seamless data flow across procurement and financial systems for efficient operations.
Topic 6	Buying: This section of the exam measures skills of Procurement Specialists and focuses on understanding the complete buying process in SAP Ariba. It includes managing requisitions, purchase orders, approvals, catalogs, and workflows that streamline procurement operations and improve efficiency across the organization.

SAP Certified Associate - Implementation Consultant - SAP Ariba Procurement Sample Questions (Q63-Q68):

NEW QUESTION # 63

Which outcomes are possible during the Fit-to-Standard process in SAP Ariba Buying and Invoicing? Note: There are 3 correct answers to this question.

- A. If the standard process does not apply, the consultant may prototype an alternate out-of-the-box process.
- B. If no standard or alternate process fits, functional requirements are documented and addressed during the Delta Design Workshop.
- C. If a standard SAP Ariba practice supports the customer process, the configuration is documented in the backlog.
- D. If the process does not align, the customer must replace all processes with SAP Best Practices.

Answer: A,B,C

Explanation:

Solution:

From learning.sap.com (specifically the Completing the Design Workshops lesson on SAP Ariba Procurement implementations), the three possible outcomes during the Fit-to-Standard process are:

1. If the standard SAP Ariba practices exist for the customer process in question, then the SAP consultant documents the configuration settings in the backlog.
2. If the standard SAP Ariba practices don't cover a customer process, then the consultant will determine if an alternate out-of-the-box practice applies and may prototype it.
3. If no alternate out-of-the-box practice fits, functional requirements are documented and addressed during the Delta Design Workshop. SAP Learning Matching these to your answer choices:
 - * A. If no standard or alternate process fits, functional requirements are documented and addressed during the Delta Design Workshop. - Correct (matches outcome #3)
 - * B. If a standard SAP Ariba practice supports the customer process, the configuration is documented in the backlog. - Correct (matches outcome #1)
 - * C. If the process does not align, the customer must replace all processes with SAP Best Practices. - Not correct
 - * D. If the standard process does not apply, the consultant may prototype an alternate out-of-the-box process. - Correct (matches outcome #2) However, your question asks for 3 correct answers, but among the options you listed, there are 3 that match the

documented outcomes based on the learning.sap.com content:

* A

* B

* D

So, the correct answers are:

A, B, and D.

NEW QUESTION # 64

Which integration channel do you use if your customer requests real-time transactional data synchronization between SAP ERP and SAP Ariba Buying and Invoicing?

- A. Direct connectivity
- B. File channel
