These EC-COUNCIL 312-38 practice tests simulate the real EC-Council Certified Network Defender CND (312-38) exam pattern, track your progress, and help you overcome mistakes. Our EC-Council Certified Network Defender CND (312-38) desktop software is compatible with Windows. Whereas, the web-based EC-COUNCIL 312-38 Practice Exam works online on iOS, Linux, Android, Windows, and Mac. Additionally, the web-based EC-Council Certified Network Defender CND (312-38) practice exam is also compatible with MS Edge, Internet Explorer, Opera, Firefox, Safari, and Chrome.

The CND certification program is an excellent opportunity for IT professionals who specialize in network security to enhance their knowledge and skills in network defense. Candidates who complete the program and pass the certification exam will have an edge over their peers in the IT industry, and they will be more confident in their ability to handle network security challenges.

Related Certification Path: CND

The EC-Council Certified Network Defender designation is designed to validate the technical skills of network administrators who are constantly involved in managing network threats. Such individuals should be well versed with a wide range of concepts around this field including network topology, security policy, traffic, performance & utilization, and network components just to mention a few. As a Certified Network Defender, you will be expected to demonstrate your ability to apply network security controls, configure firewall and VPN, and analyze network vulnerabilities. As

continuity and resilience of operations matter in today's IT world, this is the best validation that IT specialists, companies, and hiring managers should turn to. In a nutshell, the CND certification path is designed to validate the following individuals:

- Security Operators;
- Network Security Administrators;
- CND Analysts;
- Network Defense Technicians;

Our 312-38 exam training materials will provide you with free update service as long as one year. You will get the latest updated 312-38 Exam Training materials. We guarantee that after you purchase our 312-38 exam dumps, if you fail the 312-38 exam certification, we will give a full refund.

EC-COUNCIL EC-Council Certified Network Defender CND Sample Questions (Q136-Q141):

NEW QUESTION # 136

Which RAID level does not provide data redundancy?

- A. RAID level 50
- B. RAID level 0
- C. RAID level 1
- D. RAID level 10

Answer: B

Explanation:

RAID level 0, also known as striping, involves splitting data evenly across two or more disks without parity information, redundancy, or fault tolerance. This means that if one drive fails, the entire array fails, resulting in total data loss. RAID 0 is typically used to increase performance, as it allows for faster read and write operations by using multiple disks simultaneously. However, because it does not duplicate data across the disks, it does not provide any form of data redundancy.

NEW QUESTION # 137

Which of the following entities is responsible for cloud security?

- A. Cloud consumer
- B. Both cloud consumer and provider
- C. Cloud provider
- D. Cloud broker

Answer: B

NEW QUESTION # 138

Daniel is monitoring network traffic with the help of a network monitoring tool to detect any abnormalities. What type of network security approach is Daniel adopting?

- A. Retrospective
- B. Reactive
- C. Defense-in-depth
- D. Preventative

Answer: B

Explanation:

Daniel is adopting a Reactive network security approach. This approach involves monitoring network traffic to detect any abnormalities or intrusions as they occur. The goal of reactive security is to identify and respond to threats in real-time. It is a part of the broader defense strategy that includes Protect, Detect, Respond, and Predict, where 'Detect' aligns with the reactive approach. By using network monitoring tools, Daniel is able to observe the network for any signs of compromise or unusual activity and then take appropriate action to mitigate the threat.

NEW QUESTION # 139

In _____ method, windows event logs are arranged in the form of a circular buffer.

- A. Wrapping method
- B. Non-Wrapping method
- C. Overwriting Method
- D. Out-of-Band Method

Answer: A

NEW QUESTION # 140

Which of the following acts as a verifier for the certificate authority?

- A. Certificate Management system
- B. Directory management system
- C. Registration authority
- D. Certificate authority

Answer: C

NEW QUESTION # 141

.....

Maybe there are so many candidates think the 312-38 exam is difficult to pass that they be beaten by it. But now, you don't worry about that anymore, because we will provide you an excellent exam material. Our 312-38 exam materials are very useful for you and can help you score a high mark in the test. It also boosts the function of timing and the function to simulate the 312-38 Exam so you can improve your speed to answer and get full preparation for the test. Trust us that our 312-38 exam torrent can help you pass the exam and find an ideal job.
