3/3
اختر الاجابة الصحيحة فيما يلي

1. للقطع المكافئ الذي معادلته $(x-4)^2 = 8(y+3)$ تكون رأسه

أ (-4,3) ب (4,-3) ج (-3,4) د (3,-4)

2. للقطع المكافئ الذي معادلته $(x-4)^2 = 8(y+3)$ تكون يوترته

أ (2,-1) ب (6,-1) ج (4,-5) د (4,-1)

3. القطع المكافئ الذي معادلته $(x-4)^2 = 8(y+3)$ معادلة دليله هي

أ $y = -5$ ب $y = -1$ ج $x = -5$ د $x = -1$

4. القطع المكافئ الذي معادلته $(y+4)^2 = -12(x-6)$ يكون مفتوح ناحية

أ الأسفل ب الأعلى ج اليسار د اليمين

5. الشكل المقابل يمثل قطع مكافئ معادلة دليله هي

أ $y = -5$ ب $y = 5$ ج $x = -5$ د $x = 5$

6. المحل الهندسي لمجموعة النقاط المستوية التي يكون بعد كل منها عن نقطة ثابتة يساوي دائما بعدها عن مستقيم معلوم يسمى

أ قطع مكافئ ب قطع ناقص ج قطع زائد د دائرة

7. عند قطع مخروطين دائريين قائمين متقابلين بمستوي كسائليتشكل ينتج قطع مخروطي هو

أ قطع مكافئ ب قطع ناقص ج قطع زائد د دائرة

8. للقطع المكافئ الذي معادلته $(x-1)^2 = 4(y+2)$ طول وتره البؤري يساوي

أ وحدتان ب 4 وحدات ج 6 وحدات د 8 وحدات

9. رأس القطع المكافئ الذي معادلته العامة $x^2 - y = 2x + 1$ تكون

أ (-2,1) ب (2,-1) ج (1,-2) د (-1,2)

10. فتحة القطع المكافئ الذي معادلته العامة $x^2 - 2y = 3x + 5$ ناحية

أ الأسفل ب الأعلى ج اليسار د اليمين

P.S. Free & New C1000-189 dumps are available on Google Drive shared by PassSureExam: https://drive.google.com/open?id=1CdbyEVBOCzE6oxRnwI9W8Ldn3yyv0A_k

We have three versions of our C1000-189 study materials, and they are PDF version, software version and online version. With the PDF version, you can print our materials onto paper and learn our C1000-189 study materials in a more handy way as you can take notes whenever you want to, and you can mark out whatever you need to review later. With the software version, you are allowed to install our C1000-189 study materials in all computers that operate in windows system. Besides, the software version can simulate the real test environment, which is favorable for people to better adapt to the examination atmosphere. With the online version, you can study the C1000-189 Study Materials wherever you like, and you still have access to the materials even if there is no internet available on the premise that you have studied the C1000-189 study materials online once before.

C1000-189 test materials are famous for instant access to download. And you can obtain the download link and password within ten minutes, so that you can start your learning as quickly as possible. C1000-189 exam dumps are verified by professional experts, and they possess the professional knowledge for the exam, therefore you can use them at ease. In order to let you know the latest information for the exam, we offer you free update for one year, and our system will send the latest version for C1000-189 Exam Dumps to your email automatically.

IBM C1000-189 PDF Questions - Guaranteed Success

Generally speaking, you can achieve your basic goal within a week with our IBM Instana Observability v1.0.277 Administrator - Professional C1000-189 study guide. Besides, for new updates happened in this line, our experts continuously bring out new ideas in this IBM C1000-189 Exam for you. The new supplemental updates will be sent to your mailbox if there is and be free.

IBM Instana Observability v1.0.277 Administrator - Professional Sample Questions (Q36-Q41):

NEW QUESTION # 36

What is mandatory to use Instana REST APIs?

- A. Python
- B. CURL
- C. Cookie
- **D. Token**

Answer: D

Explanation:

Access to Instana's REST API is secured using authorization tokens-an industry-standard best practice for API authentication and traceability. IBM documentation says: "A personal or team API token is required to authenticate REST API calls." Tokens serve as credentials embedded in HTTP headers on each request, providing both identity and access control for the API consumer. Tokens are mandatory; without a valid token, any API requests are denied with a 401 Unauthorized error, regardless of whether a tool (such as CURL) is used. Tokens can be scoped for individual users (personal tokens) or teams (team tokens), enabling granular tracking and revocation as part of enterprise security policies. API tokens are generated from the Instana UI under the profile or team section. Cookies and raw client libraries (e.g., Python) are not authentication methods for Instana APIs.

NEW QUESTION # 37

Which statement is true about webhook URL authentication?

- A. Only Authorization HTTP request header is supported.
- **B. Prepend username and password to the hostname URL for authentication.**
- C. Specification of additional Headers is not supported for authentication.
- D. Basic authentication is not supported due to security constraints.

Answer: B

Explanation:

According to IBM Instana's integration documentation, webhook notifications support Basic Authentication by embedding the username and password into the URL as part of the standard format (`https://user:password@hostname/path`). The exact extract from IBM states: "For webhooks requiring basic authentication, username and password must be specified by prepending these values to the webhook hostname in the URL." This approach is supported by most HTTP libraries and ensures ease of integration with third-party endpoints. Instana also allows other advanced authentication mechanisms for webhooks, but this is the documented approach for standard Basic Auth scenarios. Additional header configuration (B) is possible but not required for basic authentication, and option D is incorrect as Basic Auth is explicitly supported (and documented). Limiting to only the Authorization header (C) oversimplifies the supported authentication workflows.

NEW QUESTION # 38

In context of Golden Signals in Instana monitoring, what is the true definition of latency?

- **A. How long it takes to handle or service a particular request**
- B. How long does it take to open a webpage
- C. How many errors are there in one HTTP request
- D. How long does it take to login to mobile application

Answer: A

Explanation:

Latency is one of the four principal Golden Signals monitored in Instana and critical for measuring system performance and user experience. According to IBM Instana Observability documentation: "Latency is the time it takes to handle or service a request,

measured as the duration between request start and response end." This applies regardless of protocol (HTTP, RPC, messaging, etc.) and is used to evaluate whether services are fast or slow under real load. Instana automatically tracks latency for every transaction, as shown in traces and metrics: this enables teams to identify slow services, resource contention, and downstream delays. Golden Signals (latency, error rate, traffic, saturation) provide a universal framework recognized in both SRE and performance engineering disciplines. The actual duration a user spends logging in or opening a webpage may be an instance of latency, but Instana's definition is generalized to any service request (API, DB, etc.), not just interactive browser events. Error count is monitored separately (error signal).

NEW QUESTION # 39

Which statement accurately describes the use of the agent key?

- A. It is not included in the purchase email and must be obtained separately.
- B. It is used only for deploying an instance.
- C. It is used for both downloading Instana artifacts and deploying an instance.
- D. It is required only for downloading the license.

Answer: C

Explanation:

The IBM Instana Observability product architecture uses a security credential called an agent key for authentication and authorization in both installation and deployment operations. The documentation explicitly affirms: "The agent key must be used for downloading Instana installation artifacts from IBM repositories as well as for deploying agents to connect to the backend." This binding ensures entitlement enforcement and integrity of data transfer. The key, distributed through official IBM entitlement channels or purchase confirmation emails, validates the customer's licensed environment. During deployment, the same key is included in configuration files or environment variables so that each agent securely authenticates to its assigned backend instance. This unified mechanism simplifies lifecycle management while maintaining strong license controls. The key is never generated manually nor limited to licensing download alone-its dual purpose makes it critical in both provisioning and operations stages.

NEW QUESTION # 40

Which order of precedence applies if a user is a member of multiple groups and the level of access is not the same?

- A. Access all, Limited access, No access
- B. Access all, No access, Limited access
- C. No access, Limited access, Access all
- D. Limited access, No access, Access all

Answer: C

Explanation:

According to IBM Instana documentation, access rights for users belonging to multiple groups are resolved by applying the most restrictive role. The documentation states: "If a user belongs to more than one group, the permissions are set according to the order: No access > Limited access > Access all. If there's a conflict, 'No access' always takes precedence, followed by 'Limited access,' then 'Access all.'" This ensures that users do not gain unintended permissions due to overlapping group assignments and supports the principle of least privilege. This behavior is critical for security compliance and consistent access control, especially in regulated environments or where different teams have varying visibility requirements. By enforcing the strictest restriction, Instana reduces risk from misconfigurations and accidental escalation of privilege, and helps satisfy audit trail and governance requirements in enterprise use cases.

NEW QUESTION # 41

.....

We have installed the most advanced operation system in our company which can assure you the fastest delivery speed on our C1000-189 learning guide, you can get immediately our C1000-189 training materials only within five to ten minutes after purchase after payment. At the same time, there is really no need for you to worry about your personal information if you choose to buy the C1000-189 Exam Practice from our company.

Latest C1000-189 Test Pass4sure: <https://www.passsureexam.com/C1000-189-pass4sure-exam-dumps.html>

Please remember us, C1000-189 exam collection will help you pass exam with a nice passing score, The IBM C1000-189 test dumps are the best study guide for you to choose, If you are ready to gain a qualification certificate, our valid IBM C1000-189 exam prep materials will be much useful for your learning process, As professional model company in this line, success of the C1000-189 training guide will be a foreseeable outcome.

The most obvious is to have more developers than needed, Open and financial data are two terms that don't mix particularly well, Please remember us, C1000-189 Exam Collection will help you pass exam with a nice passing score.

IBM C1000-189 PDF Questions Exam Preparation and Study Guide

The IBM C1000-189 test dumps are the best study guide for you to choose, If you are ready to gain a qualification certificate, our valid IBM C1000-189 exam prep materials will be much useful for your learning process.

As professional model company in this line, success of the C1000-189 training guide will be a foreseeable outcome, It is very difficult thing for them who left school so many years and can't concentrate on study.
