Valid PECB NIS-2-Directive-Lead-Implementer Vce Dumps | NIS-2-Directive-Lead-Implementer Latest Examprep

Through our investigation and analysis of the real problem over the years, our NIS-2-Directive-Lead-Implementer prepare questions can accurately predict the annual NIS-2-Directive-Lead-Implementer exams. In the actual exam process, users will encounter almost half of the problem is similar in our products. Even if the syllabus is changing every year, the NIS-2-Directive-Lead-Implementer quiz guide's experts still have the ability to master propositional trends. Believe that such a high hit rate can better help users in the review process to build confidence, and finally help users through the qualification examination to obtain a certificate. All in all, we want you to have the courage to challenge yourself, and our NIS-2-Directive-Lead-Implementer Exam Prep will do the best for the user's expectations.

PECB NIS-2-Directive-Lead-Implementer Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Planning of NIS 2 Directive requirements implementation: This domain targets Project Managers and Implementation Specialists focusing on how to initiate and plan the rollout of NIS 2 Directive requirements. It includes using best practices and methodologies to align organizational processes and cybersecurity programs with the directive's mandates.
Topic 2	<ul style="list-style-type: none"> • Testing and monitoring of a cybersecurity program: This domain assesses the abilities of Security Auditors and Compliance Officers in testing and monitoring the effectiveness of cybersecurity programs. Candidates learn to design and conduct audits, continuous monitoring, performance measurement, and apply continual improvement practices to maintain NIS 2 Directive compliance.
Topic 3	<ul style="list-style-type: none"> • Cybersecurity roles and responsibilities and risk management: This section measures the expertise of Security Leaders and Risk Managers in defining and managing cybersecurity roles and responsibilities. It also covers comprehensive risk management processes, including identifying, assessing, and mitigating cybersecurity risks in line with NIS 2 requirements.
Topic 4	<ul style="list-style-type: none"> • Cybersecurity controls, incident management, and crisis management: This domain focuses on Security Operations Managers and Incident Response Coordinators and involves implementing cybersecurity controls, managing incident response activities, and handling crisis situations. It ensures organizations are prepared to prevent, detect, respond to, and recover from cybersecurity incidents effectively.
Topic 5	<ul style="list-style-type: none"> • Fundamental concepts and definitions of NIS 2 Directive: This section of the exam measures the skills of Cybersecurity Professionals and IT Managers and covers the basic concepts and definitions related to the NIS 2 Directive. Candidates gain understanding of the directive's scope, objectives, key terms, and foundational requirements essential to lead implementation efforts effectively within organizations.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q67-Q72):

NEW QUESTION # 67

Which of the following statements regarding critical entities is correct?

- A. Critical entities must provide one or more essential services and must have their critical infrastructure within the territory of the respective Member State
- B. Critical entities are obligated to report only their names and relevant (sub)sectors to competent authorities
- C. Member States can exclusively rely on self-registration mechanisms for the identification and reporting of all critical entities, with no direct oversight from the competent authorities

Answer: A

NEW QUESTION # 68

An organization has decided to provide its cybersecurity training to its employees to improve their digital behavior and awareness of cybersecurity risks. Which proficiency level (PL) does this initiative primarily belong to?

- A. PL2 (Trained)
- B. PL1 (Aware)
- C. PL3 (Experienced)

Answer: A

NEW QUESTION # 69

On which of the following critical areas does an organization focus when it promotes a culture of awareness and conducts comprehensive training sessions?

- A. Detection and response

- B. Cyber strategy and governance
- C. Infrastructure and application security

Answer: B

NEW QUESTION # 70

Which of the following entities are included on the scope of the NIS 2 Directive?

- A. Entities engaged in nuclear power plant electricity production
- B. Public administration entities whose activities are predominantly carried out in national security
- C. Diplomatic and consular missions of Member States in third countries

Answer: A

NEW QUESTION # 71

Scenario 4: StellarTech is a technology company that provides innovative solutions for a connected world. Its portfolio includes groundbreaking Internet of Things (IoT) devices, high-performance software applications, and state-of-the-art communication systems. In response to the ever-evolving cybersecurity landscape and the need to ensure digital resilience, StellarTech has decided to establish a cybersecurity program based on the NIS 2 Directive requirements. The company has appointed Nick, an experienced information security manager, to ensure the successful implementation of these requirements. Nick initiated the implementation process by thoroughly analyzing StellarTech's organizational structure. He observed that the company has embraced a well-defined model that enables the allocation of verticals based on specialties or operational functions and facilitates distinct role delineation and clear responsibilities.

To ensure compliance with the NIS 2 Directive requirements, Nick and his team have implemented an asset management system and established an asset management policy, set objectives, and the processes to achieve those objectives. As part of the asset management process, the company will identify, record, maintain all assets within the system's scope.

To manage risks effectively, the company has adopted a structured approach involving the definition of the scope and parameters governing risk management, risk assessments, risk treatment, risk acceptance, risk communication, awareness and consulting, and risk monitoring and review processes. This approach enables the application of cybersecurity practices based on previous and currently cybersecurity activities, including lessons learned and predictive indicators. StellarTech's organization-wide risk management program aligns with objectives monitored by senior executives, who treat it like financial risk. The budget is structured according to the risk landscape, while business units implement executive vision with a strong awareness of system-level risks. The company shares real-time information, understanding its role within the larger ecosystem and actively contributing to risk understanding. StellarTech's agile response to evolving threats and emphasis on proactive communication showcase its dedication to cybersecurity excellence and resilience.

Last month, the company conducted a comprehensive risk assessment. During this process, it identified a potential threat associated with a sophisticated form of cyber intrusion, specifically targeting IoT devices. This threat, although theoretically possible, was deemed highly unlikely to materialize due to the company's robust security measures, the absence of prior incidents, and its existing strong cybersecurity practices.

In terms of the NIST Framework, under which implementation tier does StellarTech fall based on the level of implementation of its risk management measures within the company? Refer to scenario 4.

- A. Tier 2: Risk informed
- B. Tier 4: Adaptive
- C. Tier 3: Repeatable

Answer: B

NEW QUESTION # 72

.....

NIS-2-Directive-Lead-Implementer exam study material have a 99% pass rate. What does this mean? As long as you purchase NIS-2-Directive-Lead-Implementer exam simulating and you are able to persist in your studies, you can basically pass the exam. This passing rate is not what we say out of thin air. This is the value we obtained from analyzing all the users' exam results. It can be said that choosing NIS-2-Directive-Lead-Implementer study engine is your first step to pass the exam. If your job is very busy and there is not much time to specialize, and you are very eager to get a certificate to prove yourself, it is very important to choose our NIS-2-Directive-Lead-Implementer Exam simulating. I know that the 99% pass rate of NIS-2-Directive-Lead-Implementer exam

must have attracted you. Do not hesitate anymore. You will never regret buying NIS-2-Directive-Lead-Implementer study engine!
