Associate-Google-Workspace-Administrator완벽한 시험공부자료 최신버전 공부자료

Google인증 Associate-Google-Workspace-Administrator시험은 멋진 IT전문가로 거듭나는 길에서 반드시 넘어야할 높은 산입니다. Google인증 Associate-Google-Workspace-Administrator시험문제패스가 어렵다한들PassTIP덤프만 있으면 패스도 간단한 일로 변경됩니다. PassTIP의Google인증 Associate-Google-Workspace-Administrator덤프는 100%시험패스율을 보장합니다. Google인증 Associate-Google-Workspace-Administrator시험문제가 업데이트되면Google인증 Associate-Google-Workspace-Administrator덤프도 바로 업데이트하여 무료 업데이트서비스를 제공해드리기에 덤프유효기간을 연장해는것으로 됩니다.

최신 Google Cloud Certified Associate-Google-Workspace-Administrator 무

료샘플문제 (Q100-Q105):

질문 # 100
Your organization needs an approval application for purchases where a user can enter information on the purchase required and then submit it for management approval. You need to suggest a solution to create the application that must be available on both the web and mobile devices. Your organization does not have software developers or the budget to hire a third party. What should you do?

- A. Suggest that the organization continue to approve requests manually until budget is available to use a third-party application provider.
- B. Suggest the organization use AppSheet to create the application.
- C. Suggest that the organization use AppScript to create forms linked to a Google Sheet to store the purchase data.
- D. Suggest that the organization develop an application internally with a database, a backend service for data retrieval, and a frontend service for the application's user interface.

정답：B

설명：
AppSheet is a no-code platform that allows users to create custom applications without the need for software development skills. It is capable of building applications that can be used both on the web and mobile devices. AppSheet would allow the organization to create the approval application efficiently, meeting the requirements of the purchase process, and would be a cost-effective solution that does not require hiring developers or using a third-party application provider.

질문 # 101
You need to ensure that data owned by former employees remains available in Google Vault. You want to use the most cost-effective solution.
What should you do?

- A. Change the Google account passwords of the former employees.
- B. Assign an Archived User license to the former employees' Google accounts.
- C. Suspend the former employees' Google accounts. Create an organizational unit (OU). Move the former employees into that OU.
- D. Migrate the former employees' Gmail to their manager(s) by using the data migration service during the deletion process. Transfer the former employees' Google Drive files to a new owner.

정답：C

설명：
Suspending the accounts of former employees while moving them to a dedicated organizational unit (OU) ensures that their data remains in Google Vault and accessible without the need for additional licenses. This is a cost-effective solution because suspending the account keeps the data intact but prevents the employees from accessing their accounts.

질문 # 102
Your organization's users are reporting that a large volume of legitimate emails are being misidentified as spam in Gmail. You want to troubleshoot this problem while following Google-recommended practices. What should you do?

- A. Adjust the organization's mail content compliance settings in the Admin console.
- B. Contact Google Workspace support and report a suspected system-wide spam filter malfunction.
- C. Disable spam filtering for all users.
- D. Advise users to individually allowlist senders.

정답：B

설명：
If legitimate emails are being misidentified as spam across the organization, it suggests that there may be a broader issue with the spam filtering system. Contacting Google Workspace support to investigate and resolve the problem is the recommended approach. Disabling spam filtering or adjusting individual settings may not resolve the root cause and could potentially lead to further issues.

질문 # 103

Your organization has a Shared Drive with 150 users organized as a group. All users of the group need to be able to add and edit files, but the ability to move, delete, and share content must be limited to a single user. You need to configure the shared drive to meet these requirements efficiently.

What should you do?

- A. Create a folder inside the shared drive. Share the files with the group by using the share function.
- B. In the Admin console, assign Contributor access for the shared drive to the group. Assign Content Manager access for the shared drive to the single user.
- C. Create a folder inside the shared drive. Share the folder link with the group.
- D. In the Admin console, assign Contributor access for the shared drive to each user. Assign Content Manager access for the shared drive to the single user.

정답：**B**

설명：

By assigning Contributor access to the group, all 150 users will be able to add and edit files in the shared drive. Assigning Content Manager access to the single user ensures that only that person has the ability to move, delete, and share content within the shared drive. This approach efficiently meets the requirement of limiting certain administrative privileges while allowing the group to collaborate on content.

질문 # 104

Your company's security team should be able to investigate unauthorized external file sharing. You need to ensure that the security team can use the security investigation tool and you must follow the principle of least privilege. What should you do?

- A. Grant the super admin role to a delegate from the security team.
- B. Share the Drive audit log with the security team.
- C. Create a pre-built reporting role. Assign the role to the security team alias.
- D. Create a custom admin role with security center privileges. Assign the role to the individual security team members.

정답：**D**

설명：

By creating a custom admin role with security center privileges, you can ensure that the security team has the necessary access to investigate unauthorized external file sharing while adhering to the principle of least privilege. This approach provides the security team with the specific permissions they need without granting unnecessary broader privileges, such as those associated with the super admin role.

질문 # 105
