New Cisco 350-401 Exam Practice & Latest 350-401 Exam Cram

All operating systems also support this web-based 350-401 practice test. The third format is desktop 350-401 practice exam software that can be accessed easily after installing it on your Windows PC or Laptop. These formats are there so that the students can use them as per their unique needs and prepare successfully for 350-401 the on first try.

Career opportunities

With the Cisco CCNP Enterprise certification, the professionals can land some lucrative job roles that will enhance their career growth. Their specific position and salary potential will depend on their years of experience, hands-on skills, and organization, among others. The individuals with this certificate can take up the following titles: a Network Engineer, a Security Specialist, a Wireless Specialist, and a Networking Specialist. The average salary for these certified experts is about \$90,000 and \$105,000 per annum.

Cisco 350-401, also known as Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR), is a certification exam designed to test the knowledge and skills of IT professionals in planning, configuring, and verifying the implementation of complex enterprise network solutions. Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) certification is intended for network engineers, administrators, and architects who work in medium to large organizations and are responsible for designing, deploying, and managing enterprise network infrastructure.

Cisco Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) Sample Questions (Q189-Q194):

NEW QUESTION # 189

Based on the router's API output In JSON format below, which Python code will display the value of the 'role' key?

□

- A. Option A
- **B. Option C**
- C. Option B
- D. Option D

Answer: B

NEW QUESTION # 190

A client device roams between access points located on different floors in an atrium. The access points joined to the same controller and configuration in local mode. The access points are in different IP addresses, but the client VLAN in the group same. What type of roam occurs?

- A. inter-controller
- B. intra-VLAN
- C. intra-controller
- **D. inter-subnet**

Answer: D

Explanation:

Mobility, or roaming, is a wireless LAN client's ability to maintain its association seamlessly from one access point to another securely and with as little latency as possible. Three popular types of client roaming are:

Intra-Controller Roaming: Each controller supports same-controller client roaming across access points managed by the same controller. This roaming is transparent to the client as the session is sustained, and the client continues using the same DHCP-assigned or client-assigned IP address.

Inter-Controller Roaming: Multiple-controller deployments support client roaming across access points managed by controllers in the same mobility group and on the same subnet. This roaming is also transparent to the client because the session is sustained and a tunnel between controllers allows the client to continue using the same DHCP- or client-assigned IP address as long as the session remains active.

Inter-Subnet Roaming: Multiple-controller deployments support client roaming across access points managed by controllers in the same mobility group on different subnets. This roaming is transparent to the client because the session is sustained and a tunnel between the controllers allows the client to continue using the same DHCP-assigned or client-assigned IP address as long as the session remains active.

Reference:

[4/configuration/guides/consolidated/b_cg74_CONSOLIDATED/b_cg74_CONSOLIDATED_chapter_01100.html](#) In three types of client roaming above, only with Inter-Subnet Roaming the controllers are in different subnets.

NEW QUESTION # 191

Refer to the exhibit.

SwitchC connects HR and Sales to the Core switch. However, business needs require that no traffic from the Finance VLAN traverse this switch. Which command meets this requirement?

- A)
- B)
- C)
- D)

- A. Option A
- **B. Option D**
- C. Option C
- D. Option B

Answer: B

NEW QUESTION # 192

Refer to Exhibit.

MTU has been configured on the underlying physical topology, and no MTU command has been configured on the tunnel interfaces. What happens when a 1500-byte IPv4 packet traverses the GRE tunnel from host X to host Y, assuming the DF bit is cleared?

- A. The packet arrives on router C without fragmentation.
- B. The packet is discarded on router B.
- **C. The packet arrives on router C fragmented.**
- D. The packet is discarded on router A.

Answer: C

Explanation:

Explanation

NEW QUESTION # 193

Refer to the exhibit.

Which command must be applied to Router 1 to bring the GRE tunnel to an up/up state?

- A. Router1(config-if)#tunnel source GigabitEthernet0/1
- **B. Router1(config-if)#tunnel source Loopback0**
- C. Router1 (config)#interface tunnel0
- D. Routed (config if funnel mode gre multipoint

Answer: B

NEW QUESTION # 194

.....

There are some education platforms in the market for college students or just for the use of office workers, which limits the user groups of our 350-401 study guide to a certain extent. And we have the difference compared with the other 350-401 Quiz materials for our study materials have different learning segments for different audiences. We have three different versions of our 350-401 exam questions on the formats: the PDF, the Software and the APP online.
