In which of the following places can you access a recording of a failed queue transaction in UiPath Orchestrator?

- A. In the job details window of the process that contains the failed transaction.
- B. In the Logs page of the queue transaction.
- C. In the contextual menu of the failed transaction, by clicking Open recording.
- D. In the queue transaction list view, by hovering over the transaction status.

**Answer: C**

Explanation:

In UiPath Orchestrator, when a queue item fails and a recording is available (if enabled and the job was executed with recording turned on), you can access the recording directly from the contextual menu of the failed transaction.
