## Microsoft Endpoint Administrator Sample Questions (Q107-Q112):

### NEW QUESTION # 107

You have a Microsoft 365 subscription that contains the devices shown in the following table.

Name	Type
Device1	Windows 10
Device2	iOS
Device3	Android Enterprise

You need to ensure that only devices running trusted firmware or operating system build can access network resources.

Which compliance policy setting should you configure for each device? To answer, drag the appropriate settings to the correct devices. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Settings**

Require BitLocker.

Prevent jailbroken devices from having corporate access.

Prevent rooted devices from having corporate access.

Require Secure Boot to be enabled on the device.

**Answer Area**

Device1:

Device2:

Device3:

**Answer:**

**Explanation:**

**Settings**

Require BitLocker.

Prevent jailbroken devices from having corporate access.

Prevent rooted devices from having corporate access.

Require Secure Boot to be enabled on the device.

**Answer Area**

Device1: Require BitLocker.

Device2: Prevent jailbroken devices from having corporate access.

Device3: Prevent rooted devices from having corporate access.

**Explanation:**

**Settings**

Require BitLocker.

Prevent jailbroken devices from having corporate access.

Prevent rooted devices from having corporate access.

Require Secure Boot to be enabled on the device.

**Answer Area**

Device1: Require BitLocker.

Device2: Prevent jailbroken devices from having corporate access.

Device3: Prevent rooted devices from having corporate access.

## NEW QUESTION # 108

Hotspot Question

You have a Microsoft 365 subscription.

Users have iOS devices that are not enrolled in Microsoft Endpoint Manager.

You create an app protection policy for the Microsoft Outlook app as shown in the exhibit. (Click the Exhibit tab.)

### Create policy

✓ Basics ✓ Apps ✓ Data protection ✓ Access requirements ✓ Conditional launch ✓ Assignments ? Review + create

Choose how you want to apply this policy to apps on different devices. Then add at least one app.

**Target to apps on all device types** ⓘ Yes No

**Device types** \* ⓘ Unmanaged

**Public apps** Remove

Microsoft Outlook Remove

+ Select public apps

**Custom apps** Remove

No custom apps selected

+ Select custom apps

You need to configure the policy to meet the following requirements:

- Prevent the users from using the Outlook app if the operating system version is less than 12.0.0.

- Require the users to use an alphanumeric passcode to access the Outlook app.

What should you configure in an app protection policy for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Prevent the users from using Outlook if the operating system version is less than 12.0.0:

Require the users to use an alphanumeric passcode to access Outlook:

Microsoft

Access requirements  
Conditional launch  
Data protection  
Scope

Access requirements  
Conditional launch  
Data protection  
Scope

**Answer:**

Explanation:

**Answer Area**

Prevent the users from using Outlook if the operating system version is less than 12.0.0:

Require the users to use an alphanumeric passcode to access Outlook:

Microsoft

Access requirements  
Conditional launch  
Data protection  
Scope

Access requirements  
Conditional launch  
Data protection  
Scope

Explanation:

Box 1: Conditional launch

Configure conditional launch settings to set sign-in security requirements for your access protection policy.

By default, several settings are provided with pre-configured values and actions. You can delete some of these, like the Min OS version. You can also select additional policy settings from the Select one dropdown.

Note: There are three categories of policy settings: Data relocation, Access requirements, and Conditional launch.

Box 2. Access requirements

Access requirements include:

PIN for access: Select Require to require a PIN to use this app. The user is prompted to set up this PIN the first time they run the app in a work or school context.

The PIN is applied when working either online or offline.

You can configure the PIN strength using the settings available under the PIN for access section.

## NEW QUESTION # 109

You have a server named Server1 and computers that run Windows 8.1. Server1 has the Microsoft Deployment Toolkit (MDT) installed.

You plan to upgrade the Windows 8.1 computers to Windows 10 by using the MDT deployment wizard.

You need to create a deployment share on Server1.

What should you do on Server1, and what are the minimum components you should add to the MDT deployment share? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

On Server1:

Import the Deployment Image Servicing and Management (DISM) PowerShell module.
Import the WindowsAutopilotIntune Windows PowerShell module.
Install the Windows Assessment and Deployment Kit (Windows ADK).
Install the Windows Deployment Services server role.

Add to the MDT deployment share:

Windows 10 image and package only
Windows 10 image and task sequence only
Windows 10 image only
Windows 10 image, task sequence, and package

**Answer:**

Explanation:

On Server1:

Import the Deployment Image Servicing and Management (DISM) PowerShell module.
Import the WindowsAutopilotIntune Windows PowerShell module.
Install the Windows Assessment and Deployment Kit (Windows ADK).
Install the Windows Deployment Services server role.

Add to the MDT deployment share:

Windows 10 image and package only
Windows 10 image and task sequence only
Windows 10 image only
Windows 10 image, task sequence, and package

### NEW QUESTION # 110

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 E5 subscription that contains a user named User1 and the devices shown in the following table.

Name	Operating system	Azure AD status
Device1	Windows 11	Joined
Device2	Windows 10	Joined

User1 can access her Microsoft Exchange Online mailbox from both Device1 and Device2.

You plan to create a Conditional Access policy named CAPolicy1 that will have the following settings:

\* Assignments

- Users or workload identities: User1

- Cloud apps or actions: Office 365 Exchange Online

\* Access controls

- Grant: Block access

You need to configure CAPolicy1 to allow mailbox access from Device1 but block mailbox access from Device2.

Solution: You add a condition that specifies trusted location.

Does this meet the goal?

- A. No
- B. Yes

Answer: A

### NEW QUESTION # 111

Hotspot Question

Your company uses Microsoft Defender for Endpoint. Microsoft Defender for Endpoint includes the device groups shown in the following table.

Rank	Name	Members
1	Group1	Tag Equals demo And OS In Windows 10
2	Group2	Tag Equals demo
3	Group3	Domain Equals adatum.com
4	Group4	Domain Equals adatum.com And OS In Windows 10
5	Group5	Name starts with COMP
Last	Ungrouped devices (default)	Not applicable

You onboard a computer to Microsoft Defender for Endpoint as shown in the following exhibit.

What is the effect of the Microsoft Defender for Endpoint configuration? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

### Answer Area

Computer1 will be a member of:

▼

- Group3 only
- Group4 only
- Group5 only
- Group3, Group4, and Group5 only

If you add the tag demo to Computer1, Computer1 will be a member of:

▼

- Group1 only
- Group2 only
- Group1 and Group2 only
- Group1, Group2, Group3, Group4, and Group5

Answer:

Explanation:

## Answer Area

Computer1 will be a member of:

	▼
Group3 only	
Group4 only	
Group5 only	
Group3, Group4, and Group5 only	

If you add the tag demo to Computer1, Computer1 will be a member of:

	▼
Group1 only	
Group2 only	
Group1 and Group2 only	
Group1, Group2, Group3, Group4, and Group5	

Explanation:

<https://docs.microsoft.com/en-us/microsoft-365/security/defender-endpoint/machine-groups?view=o365-worldwide#manage-device-groups> If a device is also matched to other groups, it's added only to the highest ranked device group.

## NEW QUESTION # 112

.....

Mess of MD-102 exam candidates have inclined towards our practice test trains due to extremely beneficial features and apposite learning techniques applied through various learning modes. Thoroughly test your cognition level on MD-102 exam domains with the help of our practice test sessions. Take free trial for our practice test demos; get recognized about the key perspective and unique composition of our MD-102 Practice Test products. PracticeVCE practice tests preeminently affluence your knowledge level and upbraids your efficiency to tackle with all sort of uncertain scenarios. MD-102 exams requirements are well embraced through our MD-102 products, keeping your learning tendency on the rise and fulfilling the success promise.
