### Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q58-Q63):

#### NEW QUESTION # 58

As a Workspace Administrator, you want to keep an inventory of the computers and mobile devices your company owns in order to track details such as device type and who the device is assigned to. How should you add the devices to the company-owned inventory?

- A. Download the company owned inventory template CSV file from the admin panel, enter the serial number of the devices, and upload it back to the company owned inventory in the admin panel.
- B. Download the company owned inventory template CSV file from the admin panel, enter the asset tag of the devices, and upload it back to the company owned inventory in the admin panel.
- C. Download the company owned inventory template CSV file from the admin panel, enter the Device OS, serial number and upload it back to the company owned inventory in the admin panel.
- D. Download the company owned inventory template CSV file from the admin panel, enter the Device OS, asset tag and upload it back to the company owned inventory in the admin panel.

Answer: C

Explanation:

- \* Download Inventory Template:
- \* Navigate to the Google Admin console.
- \* Go to Devices > Company-owned inventory.
- \* Click "Download CSV template" to get the template file.
- \* Enter Device Information:
- \* Open the CSV template file.
- \* Enter the Device OS and serial number for each company-owned device.
- \* Upload the CSV File:
- \* Return to the Company-owned inventory section in the Admin console.
- \* Click "Upload CSV" and select the completed template file.
- \* Confirm and upload the file to update the inventory.

This process ensures that all company-owned devices are tracked accurately in the Google Workspace admin panel.

#### NEW QUESTION # 59

Your organization is about to conduct its biannual risk assessment. You need to help identify security risks by quickly reviewing all security settings for Gmail, Drive, and Calendar. What should you do?

- A. In the reporting section of the Admin console, review the Gmail, Drive, and Calendar reports.
- B. In the Google Admin console, review the security health page.
- C. In the alert center, review all of the alerts.
- D. In each individual organizational unit (OU), review the security settings.

Answer: B

Explanation:

This security health page in the Google Admin console provides an overview of security settings and highlights potential risks across various services, including Gmail, Drive, and Calendar. This page offers a consolidated view of the security posture of your organization, making it the most efficient option for quickly identifying security risks in preparation for a risk assessment.

#### NEW QUESTION # 60

You have implemented a data loss prevention (DLP) policy for a specific finance organizational unit. You want to apply the same security policy to a shared drive owned by the finance department in the most

efficient manner. What should you do?

- A. Change the scope of the policy to apply to all in the domain.
- B. Create a new DLP policy for shared drive users.
- C. In the Admin console sharing settings, select the finance organizational unit and deselect Allow users outside the domain to access files in shared drives.
- **D. Assign the Shared Drive to the finance organizational unit.**

**Answer: D**

#### NEW QUESTION # 61

Your organization has migrated to Google Workspace and has several different tenants from different businesses they have acquired. The IT team is considering whether to consolidate all of their tenants under a single Google Workspace tenant or allow certain domains to have an additional tenant for separation. What approach should you suggest and why?

- A. Multitenant, because it simplifies user creation and collaboration across domains.
- B. Single tenant, because each business will have a super administrator account to separate responsibilities.
- **C. Single tenant, because it simplifies administration and centralizes policy control.**
- D. Multitenant, because each business prefers to manage itself.

**Answer: C**

#### NEW QUESTION # 62

As a team manager, you need to create a vacation calendar that your team members can use to share their time off. You want to use the calendar to visualize online status for team members, especially if multiple individuals are on vacation. What should you do to create this calendar?

- A. Create a secondary calendar under your account, and give your team "Make changes to events" access.
- **B. Request the creation of a calendar resource, configure the calendar to "Automatically add all invitations to this calendar," and give your team "See only free/busy" access.**
- C. Request the creation of a calendar resource, configure the calendar to "Auto-accept invitations that do not conflict," and give your team "See all event details" access.
- D. Create a secondary calendar under your account, and give your team "See only free/busy" access.

**Answer: B**
