Get Free 1 year Update on WGU Information-Technology-Management Dumps

We don't just want to make profitable deals, but also to help our users pass the exams with the least amount of time to get Information-Technology-Management certificate. Choosing our Information-Technology-Management exam practice, you only need to spend 20-30 hours to prepare for the exam. Maybe you will ask whether such a short time can finish all the content, we want to tell you that you can rest assured, because our Information-Technology-Management Learning Materials are closely related to the exam outline and the questions of our Information-Technology-Management guide questions are related to the latest and basic knowledge. You will pass the Information-Technology-Management exam only with our Information-Technology-Management exam questions.

WGU Information Technology Management QGC1 Sample Questions (Q193-Q198):

NEW QUESTION # 193

Which system serves as an organization's backbone in providing fundamental decision-making support?

- A. Supply chain management (SCM)
- B. Unified communications (UC)
- C. Customer relationship management (CRM)

- D. Enterprise resource planning (ERP)

Answer: D

NEW QUESTION # 194

Which prototyping method demonstrates how a solution operates using various data and business rules as inputs?

- A. Workflow modeling
- B. Simulation
- C. Static modeling
- D. Storyboards

Answer: B

Explanation:

Simulation is a prototyping method that replicates how a system or solution would function in real-world scenarios. It allows businesses to test various data inputs, business rules, and operational conditions before full implementation. This method helps identify potential issues and optimize decision-making.

NEW QUESTION # 195

Which staffing issue can occur with offshore outsourcing?

- A. Limited visibility into daily work
- B. High turnover with less consistency
- C. Increased time spent on coordination
- D. Longer onboarding timelines

Answer: B

Explanation:

A significant staffing issue in offshore outsourcing is high employee turnover, which leads to inconsistent performance, knowledge loss, and increased training costs. Retention challenges in offshore teams can disrupt long-term projects and service consistency.

Option B: Coordination time is a project management challenge, not specifically staffing.

Option C: Limited visibility is a management oversight issue, not staffing.

Option D: Onboarding timelines may vary but are not a primary staffing concern.

Thus, the staffing issue is high turnover with less consistency.

NEW QUESTION # 196

Which IT approach to development and infrastructure focuses on automating and pushing quality code faster?

- A. Bimodal IT
- B. Business architecture
- C. theory of reciprocity
- D. DevOps

Answer: D

Explanation:

* Understanding DevOps:

* DevOps is an approach to software development and IT infrastructure that emphasizes collaboration between development and operations teams.

* The key goal is to automate processes, streamline workflows, and deploy high-quality code faster.

- * Key Features of DevOps:
 - * Continuous integration and continuous delivery (CI/CD) to automate code testing and deployment.
 - * Emphasis on collaboration and automation to minimize manual interventions and reduce errors.
 - * Why Other Options Are Incorrect:
 - * Option A (Theory of reciprocity): Not relevant to IT development or infrastructure.
 - * Option C (Business architecture): Focuses on organizational structure and strategy, not code automation.
 - * Option D (Bimodal IT): Balances traditional IT with agile IT but does not focus explicitly on automation or quality code delivery.

 - * "Automating Development with DevOps" - AWS Documentation

NEW QUESTION # 197

Which information system facilitates the sharing of data between the human resources and purchasing department in the same corporation?

- A. Customer relationship management (CRM)
- B. Geographic information system (GIS)
- C. Executive support (ES)
- D. Enterprise resource planning (ERP)

Answer: D

NEW QUESTION # 198

.....
