- B. Assessment Task IDs and Visit IDs are passed to the flow in a flow task.
- C. Flow based tasks should never be used for tasks that require a Retail Visit KPI.
- D. Retail Store KPIs are not needed, as long as an Assessment Indicator Definition is available within the flow to create the Retail Visit D KPI.
- E. Retail Visit KPIs always need a corresponding Retail Store KPI.

Answer: A,B

NEW QUESTION # 103

Sales Reps in the field are reporting that no surveys are available when they try to complete a visit survey on their mobile devices. What are two explanations for this?

- A. The rep is missing the Create Surveys permission
- B. A related survey invitation has not been generated
- C. The Salesforce admin has not created and activated a Salesforce survey
- D. The Retail Execution Survey Lightning Flow has not been action
- E. A custom Assessment Task definition has not been created

Answer: B,C

Explanation:

Two explanations for why no surveys are available when field reps try to complete a visit survey on their mobile devices are:

* The Salesforce admin has not created and activated a Salesforce survey. A Salesforce survey is a questionnaire that can be sent to customers or contacts to collect feedback. The admin needs to create and activate a survey before it can be used in an in-store survey task.

* A related survey invitation has not been generated. A survey invitation is an object that represents an invitation to take a survey. A survey invitation needs to be generated and associated with the visit, the retail store, or the store primary contact before it can be displayed in an in-store survey task.
