FCP_FMG_AD-7.6 Cheap Dumps - FCP_FMG_AD-7.6 New Braindumps Ebook

The Itcertking Fortinet FCP_FMG_AD-7.6 practice test software is offered in two different types which are FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) desktop practice test software and web-based practice test software. Both are the Prepare for your FCP_FMG_AD-7.6 practice exams that will give you a real-time FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exam environment for quick FCP_FMG_AD-7.6 exam preparation. With the FCP_FMG_AD-7.6 desktop practice test software and web-based practice test software you can get an idea about the types, structure, and format of real FCP_FMG_AD-7.6 exam questions.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q42-Q47):

NEW QUESTION # 42

Refer to the exhibit. What are two results from the configuration shown in the exhibit? (Choose two.)

```
FortiManager # config system global
(global)# set workspace-mode normal
(global)# end
FortiManager #
```

- A. The same administrator can lock more than one ADOM at the same time.
- B. The administrator must have access to the ADOM to approve changes.
- C. Ungraceful closed sessions will keep the ADOM in a locked state until the administrator session times out.
- D. The administrator can lock policy blocks and FortiManager global ADOM.

Answer: C,D

Explanation:

In normal workspace mode, ungraceful session closures will keep the ADOM locked until the session times out, preventing other administrators from editing. Normal workspace mode allows administrators to lock policy blocks and the global ADOM, providing granular locking control.

NEW QUESTION # 43

An administrator is copying a system template profile between ADOMs by running the following command:

execute fmpolicy export-profile ADOM 3547 /tmp/Backup_File

output dump to file: [/tmp/Backup_File]

Where does this command export the system template profile from?

- A. FortiManager configuration backup file
- B. ADOM device database
- C. FortiManager ADOM policy database
- D. FortiManager /tmp/Backup_File folder

Answer: C

Explanation:

The command exports the system template profile from the FortiManager ADOM policy database, which stores the configuration templates for devices within that ADOM.

NEW QUESTION # 44

Push updates are failing on a FortiGate device located behind a network address translation (NAT) device?

Which two settings should the administrator check to correct this problem? (Choose two.)

- A. Make sure FortiGuard updates and web service are enabled on the FortiGuard service interface.
- B. Make sure the NAT device IP address and the correct ports are configured on FortiManager.
- C. Make sure the virtual IP address and the correct ports are configured on the NAT device.
- D. Make sure the Bind to IP address option on the FortiGuard service interface is set to the virtual IP address from the NAT device.

Answer: B,C

Explanation:

FortiManager must have the NAT device's IP address and correct ports configured to communicate properly with the FortiGate behind NAT.

The NAT device must have the correct virtual IP address and ports configured to allow push updates to reach the FortiGate device.

NEW QUESTION # 45

An administrator has enabled Service Access on FortiManager. What is the purpose of Service Access on the FortiManager interface?

- A. It allows third-party applications to gain read/write access to FortiManager.
- **B. It allows FortiManager to respond to requests for FortiGuard services from FortiGate devices.**
- C. It allows FortiManager to determine the connection status of managed devices.
- D. It allows administrative access to FortiManager.

Answer: B

Explanation:

Select the Fortinet services that are allowed access on this interface. These include FortiGate Updates and Web Filtering. Service access is not enabled on any port by default.

NEW QUESTION # 46

An administrator must create a policy and install it on a FortiGate device within an ADOM in backup mode.

How can the administrator perform this task?

- A. Make sure the ADOM and FortiGate firmware versions match and use the ADOM policy package.
- B. Enable workflow mode to allow policy creation and approval.
- C. Use the Install Wizard located on the device manager.
- **D. Use a FortiManager script to apply the configuration changes.**

Answer: D

Explanation:

In backup mode, FortiManager does not directly manage policy installation via the usual ADOM policy packages; instead, administrators use FortiManager scripts to push configuration changes, including policies, to FortiGate devices.

NEW QUESTION # 47

.....

Nowadays everyone is interested in the field of Fortinet because it is growing rapidly day by day. The FCP_FMG_AD-7.6 credential is designed to validate the expertise of candidates. But most of the students are confused about the right preparation material for Fortinet FCP_FMG_AD-7.6 Exam Dumps and they couldn't find real FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exam questions so that they can pass FCP_FMG_AD-7.6 certification exam in a short time with good grades.

FCP_FMG_AD-7.6 Cheap Dumps: https://www.itcertking.com/FCP_FMG_AD-7.6_exam.html
