

Palo Alto Networks Realistic Test NetSec-Pro Testking Quiz

BTW, DOWNLOAD part of VCE4Dumps NetSec-Pro dumps from Cloud Storage: https://drive.google.com/open?id=13aHsRmxCdSIBNsCz_dsFjizBhdzXy3t

The VCE4Dumps is committed to providing the best possible study material to succeed in the Palo Alto Networks Network Security Professional (NetSec-Pro) exam. With actual PDF questions, customizable practice exams, and 24/7 support, customers can be confident that they are getting the best possible prep material. The VCE4Dumps NetSec-Pro is an excellent choice for anyone looking to advance their career with the certification. Buy Now.

As the authoritative provider of NetSec-Pro guide training, we can guarantee a high pass rate compared with peers, which is also proved by practice. Our good reputation is your motivation to choose our learning materials. We guarantee that if you under the guidance of our NetSec-Pro study tool step by step you will pass the exam without a doubt and get a certificate. Our learning materials are carefully compiled over many years of practical effort and are adaptable to the needs of the exam. We firmly believe that you cannot be an exception. Choosing our NetSec-Pro Exam Questions actually means that you will have more opportunities to be promoted in the near future. If you eventually fail the exam, we will refund the fee by the contract. We are confident that in the future, our NetSec-Pro study tool will be more attractive and the pass rate will be further enhanced.

Three Formats of VCE4Dumps Palo Alto Networks NetSec-Pro Practice Test Questions

If you are bored for current jobs and want to jump out of bottleneck, an IT certification will be a good way out for you. VCE4Dumps offers the highest passing rate of NetSec-Pro latest practice exam online to help you restart now. 3-5 years' experience in IT field and a professional certification will help you be qualified for some senior position or management positions. NetSec-Pro latest practice exam online can be your first step for Palo Alto Networks certification and help you pass exam 100%.

Palo Alto Networks Network Security Professional Sample Questions (Q25-Q30):

NEW QUESTION # 25

What are two recommendations to ensure secure and efficient connectivity across multiple locations in a distributed enterprise network? (Choose two.)

- A. Use Prisma Access to provide secure remote access for branch users.
- B. Implement a flat network design for simplified network management and reduced overhead.
- C. Create broad VPN policies for contractors working at branch locations.
- D. Employ centralized management and consistent policy enforcement across all locations.

Answer: A,D

Explanation:

Prisma Access for secure remote access

"Prisma Access extends consistent security and optimized connectivity to branch locations, enabling secure access for mobile and branch users." (Source: Prisma Access Overview) Centralized management for consistent policy enforcement

"Centralized management using Strata Cloud Manager or Panorama ensures security policies and updates are uniformly applied across distributed locations, preventing policy drift and security gaps." (Source: Strata Cloud Manager Best Practices) These two practices are foundational for modern, distributed enterprise networks to maintain security posture and performance.

NEW QUESTION # 26

Which component of NGFW is supported in active/passive design but not in active/active design?

- A. Single floating IP address
- B. Using a DHCP client
- C. Route-based redundancy
- D. Configuring ARP load-sharing on Layer 3

Answer: A

Explanation:

Single floating IP address(also known as a floating IP or shared IP) is supported only in an active/passive HA pair. In active/active HA, both firewalls are forwarding traffic simultaneously and thus do not share a single floating IP.

"In active/passive HA, a single floating IP address is used for seamless failover. Active/active HA requires separate IP addresses and does not support a single floating IP." (Source: Active/Passive vs. Active/Active HA) This simplifies failover in active/passive deployments by using a single shared IP that moves to the active peer upon failover.

NEW QUESTION # 27

Which action allows an engineer to collectively update VM-Series firewalls with Strata Cloud Manager (SCM)?

- A. Creating a device grouping rule
- B. Setting a target OS version
- C. Scheduling software update
- D. Creating an update grouping rule

Answer: A

Explanation:

Device grouping rules in SCM allow administrators to organize firewalls into logical groups and collectively manage updates or configuration pushes across those groups.

"SCM allows you to create device group rules, enabling streamlined management and collective updates of multiple NGFW instances." (Source: SCM Device Grouping) This approach ensures consistency in software versions and configuration baselines across large deployments.

NEW QUESTION # 28

Which two tools can be used to configure Cloud NGFWs for AWS? (Choose two.)

- A. Panorama
- B. Cloud service provider's management console
- C. Prisma Cloud management console
- D. Cortex XSIAM

Answer: A,B

Explanation:

Cloud NGFW for AWS can be configured using Panorama for centralized management, as well as the AWS management console for native integration and configuration.

"You can configure Cloud NGFW for AWS using Panorama for centralized security management, or directly through the AWS management console to deploy and manage security services for your AWS resources." (Source: Cloud NGFW for AWS Guide)

NEW QUESTION # 29

A network security engineer needs to implement segmentation but is under strict compliance requirements to place security enforcement as close as possible to the private applications hosted in Azure. Which deployment style is valid and meets the requirements in this scenario?

- A. On a VM-Series NGFW, configure several Layer 2 zones with Layer 2 interfaces assigned to logically segment the network.
- B. **On a VM-Series NGFW, configure several Layer 3 zones with Layer 3 interfaces assigned to logically segment the network.**
- C. On a PA-Series NGFW, configure several Layer 2 zones with Layer 2 interfaces assigned to logically segment the network.
- D. On a PA-Series NGFW, configure several Layer 3 zones with Layer 3 interfaces assigned to logically segment the network.

Answer: B

Explanation:

In cloud environments like Azure, the VM-Series NGFWs are deployed to create Layer 3 segmentation zones closest to the application workloads.

"In Azure, deploy VM-Series firewalls in Layer 3 mode to enforce security policies closest to private applications, meeting strict compliance and segmentation requirements." (Source: VM-Series in Public Clouds) Layer 3 segmentation ensures security policies are enforced at the right boundary to isolate traffic within Azure's virtual networks.

NEW QUESTION # 30

.....

The customizable mock tests make an image of a real-based Palo Alto Networks Network Security Professional (NetSec-Pro) exam which is helpful for you to overcome the pressure of taking the final examination. Customers of VCE4Dumps can take multiple Palo Alto Networks Network Security Professional (NetSec-Pro) practice tests and improve their preparation to achieve the NetSec-Pro Certification. You can even access your previously given tests from the history, which allows you to be careful while giving the mock test next time and prepare for Palo Alto Networks Network Security Professional (NetSec-Pro) certification in a better way.

PDF NetSec-Pro Download: <https://www.vce4dumps.com/NetSec-Pro-valid-torrent.html>

We are looking forward to your choice of our PDF NetSec-Pro Download - Palo Alto Networks Network Security Professional test engine, New NetSec-Pro dumps pdf files and youtube demo update free shared, Do not skip anything as all the things mentioned in the dumps are important for the NetSec-Pro exam, 100% accurate And Updated Questions - We offer the best answers to some of the most important question that will surely increase your Palo Alto Networks NetSec-Pro exam concept, NetSec-Pro Dumps.

The Top N" Query, The first example you want would look for both words, We are looking forward to your choice of our Palo Alto Networks Network Security Professional test engine, New NetSec-Pro Dumps Pdf files and youtube demo update free shared.

Pass Guaranteed Quiz Palo Alto Networks - Useful Test NetSec-Pro Testking

Do not skip anything as all the things mentioned in the dumps are important for the NetSec-Pro exam, 100% accurate And Updated Questions - We offer the best answers to some of the most important question that will surely increase your Palo Alto Networks NetSec-Pro exam concept.
