Apple Device Support Exam Sample Questions (Q83-Q88):

NEW QUESTION # 83

What is the feature that allows you to share your screen in Facetime?

- A. Stage Manager
- **B. Shareplay**
- C. Continuity Camera
- D. Sidecar

Answer: B

NEW QUESTION # 84

Which wireless authentication method allows a Mac to use digital certificates to authenticate to secure wireless networks?

- A. WPA3 Enterprise
- B. WPA3 Personal
- C. WPA Personal
- D. WPA3 Transitional

Answer: A

NEW QUESTION # 85

How many times does Face ID attempt a face match before requiring you to enter a passcode?

- A. Seven
- B. Three
- C. Ten
- D. Five

Answer: D

Explanation:

Face ID is a biometric authentication feature that allows users to unlock their device with a facial scan. Face ID attempts to match the user's face with the stored data every time the device is woken up. However, there are situations where Face ID is not permitted or fails to recognize the user. In those cases, the user must enter their passcode or password to unlock the device. One of those situations is when there are five unsuccessful attempts to match a face. After five failed scans, Face ID is disabled and the user is prompted to enter their passcode or password. This is a security measure to prevent unauthorized access to the device by someone who does not look like the user. NEW QUESTION # 86

You use Apple Watch 6 to track your physical activity and health metrics, but you have some trouble seeing the screen and using the watch controls.

Which iPhone feature can you use to help you see and operate Apple Watch more easily?

- A. Voice Over
- B. Audio Descriptions
- C. Apple Watch Mirroring
- D. Ask Siri

Answer: C

Explanation:

Reference Mode is a display mode for professional content creation workflows, like color grading, editing, and content review, where accurate colors and consistent image quality are critical. Reference Mode enables the 12.9-inch iPad Pro with Liquid Retina XDR display to deliver reference color for popular color standards and video formats, such as BT.709, sRGB, HDR10, Dolby Vision, and more. It also disables all dynamic display adjustments for ambient surround, such as True Tone, Auto-Brightness, and Night Shift. Guillermo can use Reference Mode to match the color requirements of his workflow and ensure that his marketing materials and color grading are accurate and consistent. He can also use Reference Mode with Sidecar to use his iPad Pro as a secondary reference display for his Mac.
