Exam details and skills measured

The Microsoft MB-500 Exam is the second test required for the path, and just like any other certification exam of this vendor, it has a certain structure that you need to be ready for beforehand. Thus, you should know that the test will last for 150 minutes and you have to answer about 60 questions to finish it. The questions can be presented in various types, including active screen, build list, drag and drop, multiple choice, single answer, and so on. The score that you need to earn must be 700 points or higher. You can take the exam in the English language only, and it will cost you $165.

Microsoft Dynamics 365: Finance and Operations Apps Developer Sample Questions (Q23-Q28):

NEW QUESTION # 23
You are a Dynamics 365 Finance developer.
You make changes to an existing class.
You need to compare the code that is in source control with the updated class. In Visual Studio, you display Team Explorer.
What are three possible ways to achieve the goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

- A. In Team Explorer, select Compare with Latest Version.
- B. In Team Explorer, select Compare with Workspace Version.
- C. Run the vsdiffmerge command.
- D. Run the tf diff command.
- E. In Team Explorer, select Compare Files.

Answer: A,B,D

Explanation:
Explanation
Example:
In Team Explorer, right-click FMRental.xml, and select Compare with Latest Version.
* Choose Compare with Latest Version to see how the changes you have made compare to the latest version of the file on your Team Foundation Server.
* Choose Compare with Workspace Version to see what changes you have made to the version you checked out.
D: The diff tool of Visual Studio is very good to compare two files.
It compares, and if it is possible, displays differences between two files, files in two folders, or a shelveset and a local or a server file.
Syntax:
tf diff[erence] itemspec [/version:versionspec] [/type:filetype]
[/format:format [/ignorespace] [/ignoreeol] [/ignorecase] [/recursive]
[/options][/noprompt][/login:username,[password]]

NEW QUESTION # 24
You are a Dynamics 365 Finance developer. You have the following Extended Data Types (EDTs):
You plan to modify the EDT properties by using an extension.
You need to determine which operations can be performed.
Which operation is possible?

- A. Create an extension for AccountBase and decrease the field size.
- B. Create a derived EDT for AccountBase and increase the field size.
- C. Create an extension for AccountId and increase the field size.
- D. Create an extension for AccountBase and modify the Form Help property.

Answer: D

NEW QUESTION # 25
You are a Dynamics 365 Finance developer.

You have the following entities.

You must create the required fields and relationships in the staging tables.

You need to develop a composite entity that uses the OrderHeader and OrderLine entities.

Which object should you use for each action? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

NEW QUESTION # 27

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are adding a new field to the SalesTable form.

You must use an extension to add a status field onto the form.

You need to create the extension in the Application Object Tree (AOT) and add the extension to the demoExtensions model.

Solution: Add a new form object to the project and name the form SalesTable.Extension.

Does the solution meet the goal?

- A. No
- B. Yes

Answer: A

Explanation:

Instead navigate to the user interface forms section for the SalesTable form and create an extension.

Note: In Dynamics 365 Finance and Operations, the new fields will need to be added via a table extension.

Create the extensions on the SalesTable.
