Practice AD0-E117 Test - AD0-E117 Study Guide Pdf

Free update for AD0-E117 Study Guide materials are available, that is to say, in the following year, you can get the latest information about the AD0-E117 exam dumps without spending extra money. In addition, AD0-E117 study guide of us is compiled by experienced experts, and they are quite familiar with the dynamics of the exam center, so that if you choose us, we can help you to pass the exam just one time, in this way, you can save your time and won't waste your money. We also have online and offline chat service stuff, if any other questions, just contact us.

Adobe Experience Manager Architect Master Sample Questions (Q68-Q73):

NEW QUESTION # 68

Users report cases where data inaccuracies are present in an AEM component that relies on AEM Search functionality. The AEM platform utilizes Lucene as its main search engine.

How should an Architect resolve this issue?

- A. Add search indexes to Lucene search engine
- B. Scale up server resources to meet demands
- C. Change the search engine to Property Search
- D. Migrate search engine to an external Solr instance

Answer: A

Explanation:

"adding search indexes to Lucene search engine can improve the performance and accuracy of AEM Search functionality".

NEW QUESTION # 69

A client is migrating the content from a legacy website to an existing AEM implementation. An Architect evaluates the content of the legacy site and determine-that there are approximately 20,000 pages with a common structure, and a few hundred pages that do not follow a pattern. The client wants to complete the migration as soon as possible.

Which approach should the Architect recommend for the content migration?

- A. Recreate the entire content manually with a group of Content Authors
- B. Use Site importer to import the content into AEM
- C. Migrate all common pages using the ETL procedure and use manual authoring for the rest
- D. Migrate all common pages using the ETL procedure with multiple rounds

Answer: C

Explanation:

"migrating all common pages using the ETL procedure and using manual authoring for the rest can reduce the time and effort required for the content migration".

NEW QUESTION # 70

A large AEM enterprise site is implementing authentication and requires a true optimal load balancing across the site's multi AEM publish instances. Which approach should an Architect take to meet this requirement?

- A. Configure the Dispatcher to run with a Dedicated System User
- B. Enable Encapsulated Token Option
- C. Configure Sticky Connections
- D. Enable Round Robin processing in Dispatcher configuration

Answer: B

Explanation:

"enabling Encapsulated Token Option can provide optimal load balancing across multiple AEM publish instances by using a token-based authentication mechanism".

NEW QUESTION # 71

A website built on AEM as a Cloud Service (AEMaaS) leverages browser caching of JavaScript and CSS files to optimize page load times. After the caching is enabled, QA testers notice that newly delivered components are lacking newly developed features and are missing styling, even hours after their deployment.

Further analysis identifies outdated CSS and JavaScript files in the browser cache as the root cause.

What steps would an AEM architect take first to fix this issue?

- A. Append a user-specific unique ID query parameter to each JavaScript and CSS call as a cache-bust mechanism
- B. Add max-age=300 and must-revalidate Cache-Control headers to JavaScript and CSS files in the dispatcher configuration
- C. Check whether the clientlib paths are included in the dispatcher invalidation section of the Cloud Manager Deployment pipeline
- D. Check the Adobe Granite HTML Library Manager OSGi configuration to see if the timestamp appending option is enabled

Answer: D

NEW QUESTION # 72

A client using AEM 6.5 on-premise is experiencing an unsustainable repository growth of 100Gb a day. After investigation, an Architect finds out that the DAM is causing this issue. Each image uploaded to the DAM triggers the creation of approximately 100 renditions, necessary by business to consume in different channels and systems. The client also complains about stale content reported by site visitors happening randomly in pages where article-related components are present.

How should the Architect address these issues?

- A. Leverage AEM Adaptive Image Servlet, cache image variations in Dispatcher, and reimplement article-related components to use AJAX to load the content
- **B. Split WCM and DAM in separate instances, set up Connected Assets, and re-implement article-related components to use AJAX to load the content**
- C. Leverage AEM Adaptive Image Servlet cache image variations in Dispatcher, and implement a cache TTL in Dispatcher
- D. Split WCM and DAM in separate instances, set up Connected Assets, and implement a workflow to purge all pages affected by an article change in Dispatcher

Answer: B

NEW QUESTION # 73

.....

Some candidates may considerate whether the AD0-E117 exam guide is profession, but it can be sure that the contents of our study materials are compiled by industry experts after them refining the contents of textbooks, they have good knowledge of exam. AD0-E117 test questions also has an automatic scoring function, giving you an objective rating after you take a mock exam to let you know your true level. With AD0-E117 Exam Guide, you only need to spend 20-30 hours to study and you can successfully pass the exam. You will no longer worry about your exam because of bad study materials. If you decide to choose and practice our AD0-E117 test questions, our life will be even more exciting.
