We will send the product to your mailbox, you only need to download e-mail attachments to get your products.

## Apple Deployment and Management Exam Sample Questions (Q194-Q199):

### NEW QUESTION # 194

Which declarative device management declarations can an MDM server use to store values on a device?

- A. Activations

- B. Security
- C. Enrollments
- D. Devices

**Answer: A**

Explanation:

Activations store values. The Mobile Device Management Protocol Reference states, "Declarative Device Management uses Activations declarations to store values on a device, enabling proactive state management." Reference: Mobile Device Management Protocol Reference, "Declarative Management" section.

Apple Platform Deployment Guide, "DDM" section.

**NEW QUESTION # 195**

Which type of enrollment separates personal and managed data on BYOD devices?

- A. Device Enrollment
- B. Automated Device Enrollment
- C. User Enrollment

**Answer: C**

Explanation:

User Enrollment is designed for Bring Your Own Device (BYOD) scenarios, separating personal and managed data on the device. It uses a Managed Apple ID to apply organizational policies (e.g., managed apps) while leaving personal data (e.g., photos, personal apps) untouched, leveraging a cryptographic separation. Automated Device Enrollment (option A) is for organization-owned devices with full control, not BYOD. Device Enrollment (option B) applies to organization-owned or manually enrolled devices without inherent data separation. The Apple Platform Deployment Guide details User Enrollment's privacy-focused approach for BYOD. Reference: Apple Platform Deployment Guide (Chapter: User Enrollment).

**NEW QUESTION # 196**

A user reports that their managed Mac is asking for a six-digit PIN after an unexpected restart. What explains this?

- A. You turned on Activation Lock.
- B. You sent the Lock a Mac command.
- C. You sent the EraseDevice command.
- D. You turned on Managed Lost Mode.

**Answer: B**

Explanation:

The Lock a Mac command generates a six-digit PIN for unlocking. The Mobile Device Management Protocol Reference states, "The Lock command sent via MDM locks a Mac and generates a six-digit PIN that must be entered to regain access." Option A prevents booting, B wipes the device, and D is iOS-specific.

References:

Mobile Device Management Protocol Reference, "Lock Command" section.

macOS Security Overview, "Device Locking" section.

**NEW QUESTION # 197**

Which organization data is separated from user data when an iPhone enrolls in MDM with User Enrollment?

- A. Safari bookmarks
- B. Safari profiles
- C. Notes
- D. Contacts

**Answer: C**

Explanation:

User Enrollment separates managed data. The iOS Deployment Reference states, "With User Enrollment, managed data such as Notes associated with a Managed Apple ID is separated from personal data." Options A, B, and D aren't inherently separated unless tied to managed apps.

Reference:

iOS Deployment Reference, "User Enrollment" section.

Apple Platform Deployment Guide, "Data Separation" section.

#### NEW QUESTION # 198

Your organization bought new iPhone devices from Apple. You have Automated Device Enrollment configured, but the iPhone devices aren't asked to enroll. What might be the cause?

- A. The iPhone devices don't have a default MDM server assignment.
- B. The iPhone devices are waiting for approval in Apple Business Manager before they can enroll in MDM.
- C. Someone in your organization must manually reset the iPhone devices before they can enroll in MDM.
- D. Someone in your organization added the iPhone devices to the wrong location in Apple Business Manager.

**Answer: A**

Explanation:

ADE requires devices to be assigned to an MDM server in ABM. The Apple Business Manager User Guide states, "For devices to automatically enroll via ADE, they must be assigned to an MDM server in Apple Business Manager. Without this assignment, the enrollment process will not initiate during setup." Options A, B, and D don't apply as devices from Apple are auto-added, don't need resets, and location issues don't block enrollment without assignment.

Reference:

Apple Business Manager User Guide, "Assign Devices to MDM" section.

Apple Platform Deployment Guide, "Automated Device Enrollment" section.

#### NEW QUESTION # 199

.....

If you want to buy Apple DEP-2025 exam information, ITCertMagic will provide the best service and the best quality products. Our exam questions have been authorized by the manufacturers and third-party. And has a large number of IT industry professionals and technology experts, based on customer demand, according to the the outline developed a range of products to meet customer needs. Apple DEP-2025 Exam Certification with the highest standards of professional and technical information, as the knowledge of experts and scholars to study and research purposes.
