

# 100% Pass Quiz Updated EPIC - EDI101 - CEE: Bridges Interfaces Application Essentials Exam (2026 Version) Standard Answers

**Epic EDI101 Bridges Interfaces updated 2023-2024 /complete questions and answers 100% score!!!**

Quiz :Does every HL7 message have to be encoded with the characters 1A-& ? - Answer :No, the encoding characters can be any printable character.

Quiz :Imagine that your message begins with MSHIA&1. How would you encode the string "Th result is positive & has a value of 2.7 x 10A3."? - Answer :The result is positive \T\ has a value of 2.7 x 10\A3.

Quiz :Why is the NTE segment special? - Answer :Context; its meaning depends on the segment it follows

Quiz :What is the difference between receiving an empty field || and the delete sequence ? - Answer :An empty field is ignored by the interface, whereas the delete character will delete information from the database, assuming the field in question supports the delete character.

Quiz :Aside from HL7 Version 2, name two other standards supported in Bridges? - Answer :X12, FHIR, NCPDP, DICOM, and Direct.

Quiz :What is Bridges? - Answer :Epic's interfacing messages along with the application. It consists of both the interface infrastructure to build, send, receive, and file messages along with the tools and utilities to maintain those interfaces

Quiz :What are stored in the Event Queue, Data Queue, and Control Queue? - Answer :The Event Queue contains the information needed to build a message. Usually this is a patient ID, an encounter DAT, and the type of message to be built, amongst other information. The Data Queue contains the text of HL7 messages and additional metadata. The Control Queue is a to-do list of message numbers to send or file.

Quiz :Are messages ever manually deleted from the Data Queue? - Answer :No, never. They are purged only by an automated purge job.

Quiz :What are two ways that interface messages are sent and received? - Answer :TCP/IP with an interface engine is the most common communication method. Interconnect is used for HTTPS or other communication outside your local network.

Our CEE: Bridges Interfaces Application Essentials Exam (2026 Version) study questions have a high quality, that mainly reflected in the passing rate. More than 99% students who use our EDI101 exam material passed the exam and successfully obtained the relating certificate. This undoubtedly means that if you purchased EDI101 exam guide and followed the information we provided you, you will have a 99% chance of successfully passing the exam. With EDI101 Exam Guide, there will not be a situation like other students that you need to re-purchase guidance materials once the syllabus has changed. EDI101 exam material not only helps you to save a lot of money, but also let you know the new exam trends earlier than others.

With the help of EDI101 study materials, you can conduct targeted review on the topics which to be tested before the exam, and then you no longer have to worry about the problems that you may encounter a question that you are not familiar with during the exam. With EDI101 study materials, you will not need to purchase any other review materials. We have hired professional IT staff to maintain EDI101 Study Materials and our team of experts also constantly updates and renew the question bank according to changes in the syllabus.

## Efficient Valid Braindumps EDI101 Ebook

Our EDI101 exam dumps are compiled by our veteran professionals who have been doing research in this field for years. There is no question to doubt that no body can know better than them. The content and displays of the EDI101 pass guide Which they have tailor-designed are absolutely more superior than the other providers'. Besides, they update our EDI101 Real Exam every day to make sure that our customer can receive the latest EDI101 preparation brain dumps.

### EPIC CEE: Bridges Interfaces Application Essentials Exam (2026 Version) Sample Questions (Q39-Q44):

#### NEW QUESTION # 39

It is possible to start the Communications Daemons for both incoming and outgoing interfaces at the same time.

- A. True
- B. False

**Answer: A**

Explanation:

Bridges management tools allow administrators to select multiple interfaces-regardless of whether they are sending data (outgoing) or receiving data (incoming)-and issue a " Start " command to their respective Communications Daemons simultaneously. This facilitates efficient management during system startups or after maintenance.

#### NEW QUESTION # 40

A new error started logging to your interface and your team decides that this error should be worked on an existing workqueue. You properly update the workqueue rule to include the new error. Which of the following will your workqueue contain moving forward if you take no other actions? (SELECT ALL THAT APPLY)

- A. No occurrences of the new error
- B. All errors previously added to the workqueue
- C. All occurrences of the new error, past and future
- D. Future occurrences of the new error, and none of the previous occurrences

**Answer: B,D**

Explanation:

Workqueue rules in Bridges are generally not retroactive by default. Once you update a rule, only future occurrences of the error will be caught by the new logic (Option A). Any errors that were already in the workqueue from previous rules will remain there (Option C). To get past occurrences of the new error into the workqueue, you would need to run the Maintenance utility described in Question 26.

#### NEW QUESTION # 41

When performing Duplicate Prevention, what type of record is used to determine the high and low thresholds?

- A. Bridges Duplicate Configuration
- B. Identity Patient Duplicate
- C. Bridges Duplicate Checker
- D. Identity Duplicate Configuration

**Answer: D**

Explanation:

Duplicate Prevention logic is shared across the Epic platform through the Identity Duplicate Configuration (IDC) record. This record defines the scoring logic and the high and low thresholds used to determine if a patient being created by an interface is a definite match to an existing record, a potential duplicate that needs review, or a completely new patient. Bridges leverages these enterprise-wide Identity settings to ensure consistency in how duplicates are handled.

### NEW QUESTION # 42

The Interface Specification Audit Report will show changes to which of the following items?

- A. Port and IP Address
- B. Profile Variables
- C. Message Volume
- D. Interface Alerts

**Answer: A,B**

Explanation:

The Specification Audit Report is designed to track configuration changes-the "build " of the interface. It records modifications to critical connectivity settings like the Port and IP Address (Option C) and functional logic changes in Profile Variables (Option D). Operational data like Message Volume (Option A) or active Interface Alerts (Option B) are monitored in real-time activities and are not part of the static specification audit.

### NEW QUESTION # 43

Which of the following actions will mark an error as deleted? (SELECT ALL THAT APPLY)

- A. Pressing Delete Error from an Error Log Report
- B. Resubmitting the related message
- C. Releasing the error from a workqueue
- D. Retriggering the related message

**Answer: A,B,D**

Explanation:

In Bridges, an error is tied to a specific instance of a message. Resubmitting or retriggering a message (Options B and D) essentially tells the system to try again or create a new message, which clears or "deletes " the error status associated with the previous failed attempt. Additionally, users can manually select Delete Error within an Error Log Report (Option C) to administratively clear an error that no longer requires action.

Releasing an error from a workqueue (Option A) merely removes it from that specific list; it does not delete the error from the system logs.

### NEW QUESTION # 44

.....

For some candidates who want to enter a better company through obtaining a certificate, passing the exam is quite necessary. EDI101 exam materials are high-quality, and you can pass the exam by using the materials of us. EDI101 exam dumps contain questions and answers, and you can have a timely check of your answers after practice. EDI101 Exam Materials also provide free update for one year, and update version will be sent to your email automatically.
