PRINCE2 P3O Foundation Project Office 2013 Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22

Which is an underlying success factor of a P3O model with Hub Portfolio Offices that enables appropriate localized application of standards?

- A. Tailoring core standards to meet local need
- B. Planning resource capacity at a local level
- C. Reviewing the Blueprint regularly
- D. Following a clearly defined business strategy

Answer: A

Explanation:

The P3O Foundation (2013) manual identifies tailoring core standards to meet local needs as a success factor for Hub Portfolio Offices. Section 5.3.1 states, "A key success factor for Hub Portfolio Offices is the tailoring of core standards to address local requirements, ensuring flexibility while maintaining consistency." This differs from resource planning (B), Blueprint reviews (C), or business strategy (D), which are broader or supportive factors. The 2013 edition emphasizes this adaptability to enhance localized effectiveness, aligning with the hub-and-spoke model's decentralized nature. This approach supports efficient change delivery. Reference: P3O Foundation (2013) manual, Section 5.3.1, AXELOS.

NEW QUESTION # 23

What can be used to assess and document the current state of PPM functions?

- A. P3M3 assessments
- B. Complexity modelling
- C. P3O vision
- D. Capacity planning for resource management

Answer: A

Explanation:

The P3O Foundation (2013) manual identifies P3M3 assessments as the tool to assess and document the current state of PPM functions. Section 6.1.2 states, "P3M3 assessments are used to evaluate and document the current maturity and capability of PPM functions within an organization, providing a baseline for improvement." This differs from capacity planning (A), complexity modelling (B), or P3O vision (C), which serve other purposes. The 2013 edition highlights P3M3's role in benchmarking, supporting P3O's implementation by identifying gaps. This ensures a data-driven approach to enhancing PPM maturity. Reference: P3O Foundation (2013) manual, Section 6.1.2, AXELOS.

NEW QUESTION # 24

Which is a likely source of a threat to achieving the Blueprint?

- A. Programme team fails to use a common language
- B. Programme approach is used to implement a P3O
- C. Stakeholders are identified and analysed
- D. External consultants advise the programme team

Answer: A

Explanation:

The P3O Foundation (2013) manual identifies a programme team's failure to use a common language as a likely threat to achieving the Blueprint. Section 4.3.4 states, "A lack of common language among the programme team can lead to miscommunication, threatening the successful realization of the Blueprint." This contrasts with stakeholder analysis (B), a programme approach (C), or consultant advice (D), which are positive or neutral factors. The 2013 edition highlights communication as critical to Blueprint success, ensuring alignment during implementation. This threat can derail strategic planning if unaddressed. Reference: P3O Foundation (2013) manual, Section 4.3.4, AXELOS.

NEW QUESTION # 25

What does a P3O provide to support the principle 'govern effectively'?

- A. Independent gated review coordination and assurance
- B. Coaching and training to P3O roles
- C. A fast track mobilization service to programmes and projects
- D. A benefits tracking service to business owners

Answer: A

Explanation:

To support the 'govern effectively' principle, a P3O provides independent gated review coordination and assurance, as per the P3O Foundation (2013) manual. Section 7.3.2 notes, "P3O supports effective governance through independent gated reviews and assurance processes to ensure compliance and quality across change initiatives." This involves objective oversight, unlike coaching/training (A), benefits tracking (C), or fast-track mobilization (D), which serve different purposes (e.g., capacity building or

delivery support). The 2013 edition underscores this assurance role as critical for maintaining governance standards, enabling senior management to monitor progress and mitigate risks. This aligns with the P3O's function of providing a robust control framework, ensuring strategic alignment and accountability throughout the change lifecycle.
Reference: P3O Foundation (2013) manual, Section 7.3.2, AXELOS.

NEW QUESTION # 26

Which activity should take place when recycling capability within a temporary Programme Office lifecycle?

- A. Feedback to the COE any lessons learned as part of programme delivery
- B. Transfer resources back to operational areas
- C. Review processes to ensure they continue to support a
- D. Return office back to business as usual

Answer: A

Explanation:

When recycling capability within a temporary Programme Office (PMO) lifecycle, a key activity is to capture and provide feedback on lessons learned during programme delivery back to the Centre of Excellence (COE).

This ensures continuous improvement of processes and knowledge sharing for future programmes. While transferring resources or returning to business as usual are important, the emphasis on recycling capability centers on learning and improving the overall programme management capability.

This aligns with best practices in programme management where lessons learned are formally documented and fed back to the COE or governance bodies to enhance organizational knowledge and future programme performance.
