

# CMMC-CCA Latest Braindumps Questions & New CMMC-CCA Practice Materials

## CCA Exam Preparation Domains 1, 2, 3, 4, 5, & 6 Practice Test

(QUESTIONS WITH 100% VERIFIED ANSWERS)

1. A patient is admitted with spotting. She had been treated two weeks previously for a miscarriage with sepsis. The sepsis had resolved, and she is afebrile at this time. She is treated with an aspiration dilation and curettage and products of conception are found. Which of the following should be the principal diagnosis?

- a. Miscarriage
- b. Complications of spontaneous abortion with sepsis
- c. Sepsis
- d. Spontaneous abortion with sepsis - CORRECT ANS a. Miscarriage

2. If a patient has an excision of a malignant lesion of the skin, the CPT code is determined by the body area from which the excision occurs and which of the following?

- a. Length of the lesion as described in the pathology report
- b. Dimension of the specimen submitted as described in the pathology report
- c. Width times the length of the lesion as described in the operative report
- d. Diameter of the lesion as well as the most narrow margins required to adequately excise the lesion described in the operative report - CORRECT ANS d. Diameter of the lesion as well as the most narrow margins required to adequately excise the lesion described in the operative report

3. A patient is admitted to the hospital with shortness of breath and congestive heart failure. The patient subsequently develops respiratory failure. The patient undergoes intubation with ventilator management. Which of the following would be the correct sequencing and coding of this case?

- a. Congestive heart failure, respiratory failure, ventilator management
- b. Respiratory failure, intubation, ventilator management
- c. Respiratory failure, congestive heart failure, intubation, ventilator management

**Top CMMC-CCA Latest Braindumps Questions 100% Pass | Efficient New CMMC-CCA Practice Materials: Certified CMMC Assessor (CCA) Exam**

Our excellent Cyber AB CMMC-CCA practice materials beckon exam candidates around the world with their attractive characters. Our experts made significant contribution to their excellence. So we can say bluntly that our CMMC-CCA Actual Exam is the best. Our effort in building the content of our CMMC-CCA study dumps lead to the development of CMMC-CCA learning guide and strengthen their perfection.

## Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>CMMC Level 2 Assessment Scoping:</b> This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>CMMC Assessment Process (CAP):</b> This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Assessing CMMC Level 2 Practices:</b> This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements:</b> This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.</li> </ul>

## Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q146-Q151):

### NEW QUESTION # 146

John, a CCA, has been assigned by his C3PAO to conduct a CMMC assessment for an OSC. During the assessment, John notices that the OSC's security practices leave much to be desired. After speaking with the OSC's IT staff, John offers to connect them with a vendor he knows who sells a vulnerability management tool that could address some of their weaknesses. According to the CMMC CoPC, which of the following best describes John's actions?

- **A. John violated the principles of professionalism and objectivity by soliciting business for a third-party vendor while serving on the Assessment Team**
- B. John acted appropriately by trying to help the OSC improve its security posture.
- C. John's actions were deemed acceptable since he did not directly profit from connecting the OSC with the vendor.
- D. John did not show respect for intellectual property.

**Answer: A**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CoPC prohibits CCAs from soliciting business or offering vendor recommendations during assessments, violating Professionalism and Objectivity. Option A (appropriate) ignores this. Option B (IP) is unrelated.

Option C (no profit) doesn't excuse the violation. Option D is correct.

Extract from Official Document (CoPC):

\* Paragraph 3.3(4) - Proper Use of Methods (pg. 7): "Do not solicit business for third-party vendors while serving on an Assessment Team." References:

CMMC Code of Professional Conduct, Paragraph 3.3(4).

#### NEW QUESTION # 147

During a CMMC assessment, the OSC's IT manager asks the CCA if they can "fix" a non-compliant practice during the assessment to improve their score. The CCA declines and continues the assessment. What CoPC principle does the CCA uphold by refusing to assist?

- A. Professionalism
- B. Confidentiality
- **C. Objectivity**
- D. Information Integrity

**Answer: C**

Explanation:

Comprehensive and Detailed in Depth Explanation:

Refusing to assist maintains Objectivity (Option C), avoiding influence on outcomes. Options A, B, and D are not directly applicable.

Extract from Official Document (CoPC):

\* Paragraph 2.2 - Objectivity (pg. 5): "Do not assist the OSC in fixing practices during the assessment to maintain objectivity."

References:

CMMC Code of Professional Conduct, Paragraph 2.2.

#### NEW QUESTION # 148

An OSC is undergoing a CMMC Level 2 assessment, and the C3PAO Assessment Team has identified several practices that the organization has not yet fully implemented. During the assessment, the CCA notes significant progress by the OSC towards implementing control MP.L2-3.8.4 - Media Markings, but acknowledges that not all required steps have been completed. The CCA explains to the OSC that this partially implemented practice will need to be tracked in the Limited Practice Deficiency Correction Program.

How should CMMC practices tracked under the Limited Practice Deficiency Correction Program be scored?

- **A. Not Met**
- B. Partially Met
- C. Met
- D. Not Applicable

**Answer: A**

Explanation:

Comprehensive and Detailed in Depth Explanation:

Practices in the Limited Practice Deficiency Correction Program are scored 'Not Met' per CAP, as they are incomplete, not partially met (Option B), inapplicable (Option C), or met (Option D). Option A is correct.

Extract from Official Document (CAP v1.0):

\* Section 2.3.2 - Deficiency Correction (pg. 28): "All practices tracked under the Limited Practice Deficiency Correction Program will be scored as 'NOT MET.'" References:

CMMC Assessment Process (CAP) v1.0, Section 2.3.2.

#### NEW QUESTION # 149

The use of removable storage media remains a source of data breaches. The CMMC requires control of the use of removable media on system components. As a CCA, you can use different assessment methods to determine whether an OSC has met this requirement. What is the best assessment method to ascertain that MP.L2-3.8.7[a] has been met?

- A. Examining System Media Protection Policy
- **B. Testing mechanisms that restrict or prohibit the use of removable media on systems or system components**
- C. Examining System Design documentation
- D. Interviewing personnel with responsibilities for system media use

**Answer: B**

Explanation:

Comprehensive and Detailed in Depth Explanation:

MP.L2-3.8.7[a] requires controlling removable media use, per NIST SP 800-171. Testing mechanisms (e.g., USB port restrictions) directly verifies implementation effectiveness, as recommended by NIST SP 800-171A's test method, making Option C the best approach. Options A and D (examining policies/documentation) confirm intent, not execution. Option B (interviews) provides insight but lacks objective validation. Option C is the correct answer.

Reference Extract:

\* NIST SP 800-171A, MP-3.8.7[a]: "Test mechanisms restricting removable media to verify control implementation." Resources: <https://csrc.nist.gov/pubs/sp/800/171/a/final>

### NEW QUESTION # 150

You are the Lead Assessor for a CMMC Level 2 assessment. The OSC has implemented a practice using a custom-built tool developed by their IT team. The tool appears to meet the practice's objectives, but no formal documentation or testing records exist. How should you evaluate this evidence?

- A. Request the OSC to create documentation and testing records during the assessment.
- B. Score the practice as "NOT MET" due to the absence of formal documentation.
- C. Accept the tool as sufficient evidence since it meets the objectives.
- D. Document the lack of documentation and testing records as an evidence gap and assess based on observed functionality.

**Answer: D**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP instructs assessors to document missing documentation as an evidence gap and assess based on observed evidence (Option B). Option A overlooks documentation needs, Option C is premature, and Option D involves consulting, which is prohibited.

Extract from Official Document (CAP v1.0):

\* Section 2.2 - Conduct Assessment (pg. 25): "Lack of formal documentation should be recorded as an evidence gap, with assessment based on observed functionality." References:

CMMC Assessment Process (CAP) v1.0, Section 2.2.

### NEW QUESTION # 151

.....

The only aim of our company is to help each customer pass their exam as well as getting the important certification in a short time. If you want to pass your exam and get the CMMC-CCA certification which is crucial for you successfully, I highly recommend that you should choose the CMMC-CCA certification preparation materials from our company so that you can get a good understanding of the exam that you are going to prepare for. We believe that if you decide to buy the CMMC-CCA Exam Materials from our company, you will pass your exam and get the certification in a more relaxed way than other people.
