질문 # 76

You have a Microsoft 365 E5 subscription and use Microsoft Purview.

The subscription contains the following users:

- * User1: Must be able to investigate policy matches, but unable to view the file content related to the match.
- * User2: Must be able to investigate policy matches and view the file content related to the match.
- * User3: Must be able to create, update, and delete Microsoft Privacy Risk Management policies.

You need to add each user to a role group. The solution must follow the principle of least privilege.

To which role group should you add each user? To answer, drag the appropriate role groups to the correct users. Each group may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
