NEW QUESTION # 148

Considering the value statements in the Agile Manifesto which of the following Documents should only be created where they add value to the project Documents can be created but should never be used to form a contract It is vital that any documents created are visible to, and understood by, [stakeholders/team] High-level documents can be created early in a project to help support planning and understanding.

- A. 2, 3, 4
- B. 1, 2, 4
- C. 1, 3, 4
- D. 1, 2, 3

Answer: C

Explanation:

The Agile Manifesto values "working software over comprehensive documentation," but does not reject documents; it promotes fit-for-purpose documentation that adds value. AgilePM echoes this with lightweight, high-value artifacts (e.g., Business Case, Foundations summary, acceptance criteria) to support clarity and governance "without excessive bureaucracy." Therefore (1) is true: create documents when they add value. (3) is true: documents must be visible and understood by those who use them to collaborate and decide; transparency is essential. (4) is also true: high-level documents early (vision, scope boundaries, approach) support planning, alignment, and later refinement. (2) is false: agile does not prohibit contracts; it values customer collaboration over contract negotiation, yet recognizes contracts may be necessary and useful when framed to enable change. Consequently, the correct set is 1, 3, and 4, i.e., C.

NEW QUESTION # 149

Why is it appropriate to give Line Leaders privileged access to the thinking behind a change?

- A. Everyone should see this information.
- B. Their authorization is needed to progress.
- C. They may block change if not fully engaged.
- D. They have seniority within the organization.

Answer: C

Explanation:

* Line Leaders as Key Stakeholders: If line leaders are not fully engaged, they can create barriers to change implementation due to their influence on frontline staff. Providing them with privileged access ensures alignment and reduces resistance.

* Other Options:

* A: Seniority is irrelevant; engagement depends on roles and influence.

* B: Authorization may not always be needed for every change.

* C: Information access should be strategic, not indiscriminate.

Key AgilePM Concepts Referenced:

* Engaging Stakeholders: AgilePM Handbook, Chapter 5, Section 5.4.
