

# FCSS\_EFW\_AD-7.6 Latest Exam Papers & Exam FCSS\_EFW\_AD-7.6 Bible

1.1.1 Market equilibrium occurs when the ...

- A supply and the demand are not equal.
- B supply is more than the demand.
- C market supply is equal to the market demand.
- D demand is lower than the supply.

1.1.2 The following is NOT a component of selling:

- A Management is sales-volume oriented.
- B The emphasis is on the consumer's needs.
- C The focus is on the seller's needs.
- D The emphasis is on the agricultural product.

1.1.3 An operational production plan in a business plan focuses on the ...

- A number and type of employees.
- B recruitment of suitable personnel.
- C summary of the enterprise details.
- D monitoring of performance and ensuring quality control.

1.1.4 The descriptions below address opportunities that could be realised through the SWOT analysis.

- (i) New markets opening to increase sales
- (ii) New technologies to improve efficiency of the business
- (iii) Limited resources to farm effectively
- (iv) Access to a grant from government

P.S. Free & New FCSS\_EFW\_AD-7.6 dumps are available on Google Drive shared by PDFTorrent:  
[https://drive.google.com/open?id=1aJdpqTwfeXpUAB5r\\_ZxzyYVkKS1sbXh](https://drive.google.com/open?id=1aJdpqTwfeXpUAB5r_ZxzyYVkKS1sbXh)

These formats hold high demand in the market and offer a great solution for quick and complete FCSS - Enterprise Firewall 7.6 Administrator (FCSS\_EFW\_AD-7.6) exam preparation. These formats are FCSS\_EFW\_AD-7.6 PDF dumps, web-based practice test software, and desktop practice test software. All these three FCSS - Enterprise Firewall 7.6 Administrator (FCSS\_EFW\_AD-7.6) exam questions contain the real, valid, and updated Fortinet Exams that will provide you with everything that you need to learn, prepare and pass the challenging but career advancement FCSS\_EFW\_AD-7.6 certification exam with good scores.

There is no shortcut to FCSS\_EFW\_AD-7.6 exam questions success except hard work. You cannot expect your dream of earning the Fortinet CERTIFICATION EXAM come true without using updated study material FCSS - Enterprise Firewall 7.6 Administrator (FCSS\_EFW\_AD-7.6) exam questions. Success in the FCSS\_EFW\_AD-7.6 exam adds more value to your resume and helps you land the best jobs in the industry.

## Get Free Updates For 1 year For Fortinet FCSS\_EFW\_AD-7.6 Exam Questions

It is our biggest goal to try to get every candidate through the exam. Although the passing rate of our FCSS\_EFW\_AD-7.6 simulating exam is nearly 100%, we can refund money in full if you are still worried that you may not pass the FCSS\_EFW\_AD-7.6 exam. You don't need to worry about the complexity of the refund process at all, we've made it quite simple. And if you really want to pass the exam instead of refund, you can wait for our updates for we will update our FCSS\_EFW\_AD-7.6 Study Guide for sure to make you pass the exam.

## Fortinet FCSS - Enterprise Firewall 7.6 Administrator Sample Questions (Q35-Q40):

### NEW QUESTION # 35

Refer to the exhibit, which shows a corporate network and a new remote office network.

An administrator must integrate the new remote office network with the corporate enterprise network.

What must the administrator do to allow routing between the two networks?

- A. The administrator must implement BGP to inject the new remote office network into the corporate FortiGate device.
- B. The administrator must configure a static route to the subnet 192.168.1.0/24 on the corporate FortiGate device.
- **C. The administrator must implement OSPF over IPsec on both FortiGate devices.**
- D. The administrator must configure virtual links on both FortiGate devices.

**Answer: C**

Explanation:

In this scenario, the corporate network and the new remote office network need to communicate over the Internet, which requires a secure and dynamic routing method. Since both networks are using OSPF (Open Shortest Path First) as the routing protocol, the best approach is to establish an OSPF over IPsec VPN to ensure secure and dynamic route propagation.

OSPF is already running on the corporate network, and extending it over an IPsec tunnel allows dynamic route exchange between the corporate FortiGate and the remote office FortiGate. IPsec provides encryption for traffic over the Internet, ensuring secure communication. OSPF over IPsec eliminates the need for manual static routes, allowing automatic route updates if networks change. The new remote office's 192.168.1.0/24 subnet will be advertised dynamically to the corporate network without additional configuration.

#### NEW QUESTION # 36

An administrator must standardize the deployment of FortiGate devices across branches with consistent interface roles and policy packages using FortiManager.

What is the recommended best practice for interface assignment in this scenario?

- **A. Enable metadata variables to use dynamic configurations in the standard interfaces of FortiManager.**
- B. Create interfaces using device database scripts to use them on the same policy package of FortiGate devices.
- C. Create normalized interface types per-platform to automatically recognize device layer interfaces based on the FortiGate model and interface name.
- D. Use the Install On feature in the policy package to automatically assign different interfaces based on the branch.

**Answer: A**

Explanation:

When standardizing the deployment of FortiGate devices across branches using FortiManager, the best practice is to use metadata variables. This allows for dynamic interface configuration while maintaining a single, consistent policy package for all branches.

# Metadata variables in FortiManager enable interface roles and configurations to be dynamically assigned based on the specific FortiGate device.

# This ensures scalability and consistent security policy enforcement across all branches without manually adjusting interface settings for each device.

# When a new branch FortiGate is deployed, metadata variables automatically map to the correct physical interfaces, reducing manual configuration errors.

#### NEW QUESTION # 37

An administrator wants to scale the IBGP sessions and optimize the routing table in an IBGP network.

Which parameter should the administrator configure?

- A. route-reflector-client
- B. network-import-check
- C. neighbor-group
- D. ibgp-enforce-multihop

**Answer: A**

Explanation:

In an IBGP (Internal BGP) network, all routers must be fully meshed, meaning every router must establish a BGP session with every other router in the same autonomous system (AS). This does not scale well in large networks due to the exponential increase in BGP sessions.

To optimize and scale IBGP, Route Reflectors (RRs) are used. A Route Reflector (RR) reduces the number of IBGP peer connections by allowing a centralized router (RR) to redistribute IBGP routes to other IBGP peers (called clients). This eliminates the need for a full mesh, significantly reducing BGP session overhead.

By configuring the route-reflector-client setting on IBGP peers, an administrator can:

- # Scale IBGP sessions by reducing the number of direct BGP peer connections.
- # Optimize the routing table by ensuring routes are efficiently propagated within the IBGP network.
- # Eliminate the need for full mesh topology, making IBGP more manageable.

### NEW QUESTION # 38

An administrator is setting up an ADVPN configuration and wants to ensure that peer IDs are not exposed during VPN establishment.

Which protocol can the administrator use to enhance security?

- A. Choose IKEv1 aggressive mode because it simplifies peer identification.
- B. Use IKEv2, which encrypts peer IDs and prevents exposure.
- C. Stick with IKEv1 main mode because it offers better performance.
- D. Opt for SSL VPN web mode because it does not use peer IDs at all.

**Answer: B**

Explanation:

In ADVPN (Auto-Discovery VPN) configurations, security concerns include protecting peer IDs during VPN establishment. Peer IDs are exchanged in the IKE (Internet Key Exchange) negotiation phase, and their exposure could lead to privacy risks or targeted attacks.

# IKEv2 encrypts peer IDs, making it more secure compared to IKEv1, where peer IDs can be exposed in plaintext in aggressive mode.

# IKEv2 also provides better performance and flexibility while supporting dynamic tunnel establishment in ADVPN.

### NEW QUESTION # 39

During the maintenance window, an administrator must sniff all the traffic going through a specific firewall policy, which is handled by NP6 interfaces. The output of the sniffer trace provides just a few packets.

Why is the output of sniffer trace limited?

- A. The traffic corresponding to the firewall policy is encrypted.
- B. auto-asic-offload is set to enable in the firewall policy,
- C. The option npudbg is not added in the diagnose sniff packet command.
- D. inspection-mode is set to proxy in the firewall policy.

**Answer: B**

Explanation:

FortiGate devices with NP6 (Network Processor 6) acceleration offload traffic directly to hardware, bypassing the CPU for improved performance. When auto-asic-offload is enabled in a firewall policy, most of the traffic does not reach the CPU, which means it won't be captured by the standard sniffer trace command.

Since NP6-accelerated traffic is handled entirely in hardware, only a small portion of initial packets (such as session setup packets or exceptions) might be seen in the sniffer output. To capture all packets, the administrator must disable hardware offloading using:

```
config firewall policy
edit <policy_ID>
set auto-asic-offload disable
end
```

Disabling ASIC offload forces traffic to be processed by the CPU, allowing the sniffer tool to capture all packets.

## NEW QUESTION # 40

.....

FCSS\_EFW\_AD-7.6 is so flexible that you can easily change the timings, types of questions, and topics for each mock exam. PDFTorrent's FCSS - Enterprise Firewall 7.6 Administrator practice test contains all the important questions that will appear in the actual FCSS\_EFW\_AD-7.6 Exam. We design and update our Fortinet FCSS\_EFW\_AD-7.6 exam questions after receiving precious feedback. You can try a demo and sample of FCSS\_EFW\_AD-7.6 exam questions before purchasing.

**Exam FCSS\_EFW\_AD-7.6 Bible:** [https://www.pdftorrent.com/FCSS\\_EFW\\_AD-7.6-exam-prep-dumps.html](https://www.pdftorrent.com/FCSS_EFW_AD-7.6-exam-prep-dumps.html)

Fortinet FCSS\_EFW\_AD-7.6 Latest Exam Papers Also if you have some unclearly questions, you can ask or talk with others easily, Or think of it as a time-consuming, tiring and challenging task to cope with FCSS\_EFW\_AD-7.6 exam questions, Try it, Fortinet FCSS\_EFW\_AD-7.6 Latest Exam Papers There is a bunch of considerate help we are willing to offer, If you fail to pass the exam by using FCSS\_EFW\_AD-7.6 exam materials, we will give you full refund.

This option prevents the transaction log from growing exponentially FCSS\_EFW\_AD-7.6 and thus prevents it from filling the disk, The goal is to get a VC to invest so you can build a successful company.

Also if you have some unclearly questions, you can ask or talk with others easily, Or think of it as a time-consuming, tiring and challenging task to cope with FCSS\_EFW\_AD-7.6 Exam Questions.

## Trusting Reliable FCSS\_EFW\_AD-7.6 Latest Exam Papers Is The Quickest Way to Pass FCSS - Enterprise Firewall 7.6 Administrator

Try it, There is a bunch of considerate help we are willing to offer, If you fail to pass the exam by using FCSS\_EFW\_AD-7.6 exam materials, we will give you full refund.
