The DCPLA certification is an excellent way for privacy professionals to demonstrate their expertise and advance their careers. It is a globally recognized credential that provides individuals with the skills and knowledge necessary to manage privacy risks effectively. DSCI Certified Privacy Lead Assessor DCPLA certification certification exam is rigorous, but successful candidates will emerge with a valuable credential that will help them stand out in the highly competitive field of privacy and data protection.

The DCPLA Certification provides numerous benefits to privacy professionals and organizations. It enhances the credibility of the individual as a privacy expert and validates their knowledge and skills in privacy assessments. It also provides a competitive edge to organizations that have DCPLA certified professionals as they can demonstrate their commitment to privacy and data protection to

their customers and stakeholders.

DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q76-Q81):

NEW QUESTION # 76

XYZ bank has recently decided to start offering online banking services. For doing so, the bank has outsourced its IT operations and processes to various third parties. Acknowledging privacy concerns, bank has decided to implement a privacy program. Assuming you have been tasked to deploy this framework for the bank, which of the following would most likely be your first step?

- A. None of the above
- B. **Create an inventory of business processes that deal with personal information and identify the associated data element**
- C. Ensure that bank is equipped to test the relevance of each legal and compliance requirement in its environment
- D. Assign privacy roles and responsibilities for process owners

Answer: B

Explanation:

Under the "Visibility over Personal Information (VPI)" practice area of the DSCI Privacy Framework, the first and foundational step in any privacy implementation is to:

"Create an inventory of business processes and associated data elements involving personal information." This baseline mapping ensures that organizations understand what data is processed, where it resides, and how it flows across systems and third parties. This forms the basis for subsequent governance, risk assessment, and compliance alignment.

NEW QUESTION # 77

With respect to privacy monitoring and incident management process, which of the following should be a part of a standard incident handling process?

- I) Incident identification and notification
- II) Investigation and remediation
- III) Root cause analysis
- IV) User awareness training on how to report incidents

- A. **All of the Above**
- B. III and IV
- C. I, II and III
- D. I and II

Answer: A

NEW QUESTION # 78

The entire assessment process, from commencement to submission of final report to DSCI must be completed within 2 weeks.

- A. False
- B. **True**

Answer: B

Explanation:

According to the DSCI Assessment Framework for Privacy (DAF#P), the total duration for completing the assessment, from the initial kickoff to the final report submission to DSCI, must be concluded within a two- week period. This timeline ensures the assessment stays current and reflects the organization's real-time privacy status during certification.

NEW QUESTION # 79

The entire assessment process, from commencement to submission of final report to DSCI must be completed within 2 weeks.

- A. True
- B. **False**

Answer: B

NEW QUESTION # 80

What is a Data Controller?

- A. Entity that determines the purpose and means for data processing
- B. Entity that shares personal data with third parties
- C. Entity that collects personal data
- D. Entity that stores personal data

Answer: A

Explanation:

As per the DSCI Privacy Framework and consistent with definitions in APEC and GDPR standards, a Data Controller (or Personal Information Controller) is defined as:

"A person or organization who controls the collection, holding, processing, or use of personal information. It includes one who instructs another to do so on its behalf." Thus, a data controller determines the "purpose and means" of processing, not merely performing or facilitating storage or sharing.

This is a central concept to ensuring accountability in privacy frameworks, as the controller is the primary entity responsible for compliance with data protection principles.

NEW QUESTION # 81

.....
