

# 1Z0-182試験の準備方法 | 一番優秀な1Z0-182資格受験料試験 | 更新するOracle Database 23ai Administration Associate学習指導

さらに、JPTestKing 1Z0-182ダンプの一部が現在無料で提供されています: [https://drive.google.com/open?id=1WirbtYjDFrhAPhT2ltz96Y5vFbR3wc1\\_](https://drive.google.com/open?id=1WirbtYjDFrhAPhT2ltz96Y5vFbR3wc1_)

あなたはOracleの1Z0-182試験を準備しているとき、あなたの時間とお金を無駄にしないであなたに試験に一番有効な助けを提供するのは我々がOracleの1Z0-182ソフトを作成する達成したい目標です。我々のソフトは多くの受験生にOracleの1Z0-182試験に合格させました。我々の通過率はいくつ高くても、我々はあなたが試験に失敗したら全額で返金するのを保証します。これはあなたに安心して弊社の商品を購入させるためです。

Oracleの1Z0-182認定試験に合格するためにたくさん方法があって、非常に少ないの時間とお金を使いのは最高で、JPTestKingが対応性の訓練が提供いたします。

## 試験の準備方法-高品質な1Z0-182資格受験料試験-有難い1Z0-182学習指導

どんな困難にあっても、諦めないです。1Z0-182試験は難しいと言え、解決法があります。解決法は1Z0-182問題集は購入することです。1Z0-182問題集の的中率が高く、多くの人は1Z0-182試験に合格しました。1Z0-182問題集の特徴は便利で使い安いです。そして、短い時間で勉強し、1Z0-182試験に参加できます。もし、あなたも1Z0-182問題集を購入すれば、試験に合格できますよ。

## Oracle Database 23ai Administration Associate 認定 1Z0-182 試験問題 (Q87-Q92):

### 質問 # 87

You want to apply the principle of least privilege in all your live databases. One of your requirements is to revoke unnecessary privileges from all users who have them using Privilege Analysis. Which two types of analyses can be done using the DBMS\_PRIVILEGE\_CAPTURE package?

- A. Analysis of all privileges used by the SYS user.
- B. Analysis of privileges that a user has on their own schema objects.
- C. Analysis of privileges granted directly to a role that are then used by a user who has been granted that role.
- D. Analysis of privileges granted indirectly to a role that are then used by a user who has been granted that role.
- E. Analysis of privileges that a user has on other schemas' objects.

正解: C、D

解説:

- A .False. Limited to captured privileges, not all schema objects.
- B .False. SYS is excluded from capture.
- C .True. Captures indirect role privileges used.
- D .True. Captures direct role privileges used.
- E .False. Focus is on roles, not self-owned objects broadly.

#### 質問 # 88

Which resource plan is used to manage the resources for the predefined maintenance window?

- A. By default, all predefined maintenance windows use the DEFAULT\_MAINTENANCE\_PLAN resource plan, and automated maintenance tasks run under subplan called ORA\$AUTOTASK.
- B. The SYS\_GROUP consumer resource group policies define the resources assigned ...
- C. The predefined maintenance window starts automatically with 20% of the system resources ...
- D. The resources used by the predefined maintenance window can only be adjusted if you create a new resource plan in Resource Manager ...

正解: A

解説:

A .True. Oracle 23ai uses DEFAULT\_MAINTENANCE\_PLAN with ORA\$AUTOTASK subplan for maintenance tasks (e.g., stats gathering). Others are incorrect or speculative.

#### 質問 # 89

Which two statements describe how Optimizer Statistics are collected?

- A. Optimizer Statistics can be manually collected at multiple levels using DBMS\_STATS.GATHER\_\*\_STATS PL/SQL procedures.
- B. Optimizer Statistics are collected automatically by Automatic Workload Repository (AWR) Snapshot.
- C. Optimizer Statistics are collected automatically by an automatic maintenance job that runs during predefined maintenance windows.
- D. Optimizer Statistics are collected in real-time as data is inserted, deleted, or updated.
- E. Optimizer Statistics are collected by the Statistics Advisor.

正解: A、C

解説:

Optimizer Statistics drive the cost-based optimizer's query plans. Let's dissect each option:

A . Optimizer Statistics are collected automatically by an automatic maintenance job that runs during predefined maintenance windows.

True. Oracle 23ai uses the AutoTask framework to gather stats automatically during maintenance windows (e.g., nightly 10 PM-2 AM). The GATHER\_STATS\_PROG job, managed by DBMS\_AUTO\_TASK\_ADMIN, collects stats for stale or missing objects.

Mechanics: Controlled by STATISTICS\_LEVEL=TYPICAL (default) and the DEFAULT\_MAINTENANCE\_PLAN. It prioritizes objects with >10% changes (stale stats) or no stats.

Practical Use: Ensures stats are current without manual intervention, critical for dynamic workloads.

Edge Case: Disabled if STATISTICS\_LEVEL=BASIC or the job is manually disabled via DBMS\_AUTO\_TASK\_ADMIN.DISABLE.

B . Optimizer Statistics are collected in real-time as data is inserted, deleted, or updated.

False. Stats aren't updated in real-time; this would be too resource-intensive. Instead, Oracle tracks changes (e.g., via DBA\_TAB\_MODIFICATIONS) and updates stats periodically via AutoTask or manually. Real-time stats exist in 23ai for specific cases (e.g., GATHER\_TABLE\_STATS with REAL\_TIME\_STATS), but it's not the default.

Why Incorrect: Real-time collection would degrade performance for OLTP systems, contradicting Oracle's batch approach.

C . Optimizer Statistics can be manually collected at multiple levels using DBMS\_STATS.GATHER\_\*\_STATS PL/SQL procedures.

True. The DBMS\_STATS package offers granular control: GATHER\_TABLE\_STATS, GATHER\_SCHEMA\_STATS, GATHER\_DATABASE\_STATS, etc., allowing stats collection for tables, schemas, or the entire database.

Mechanics: Example: BEGIN DBMS\_STATS.GATHER\_TABLE\_STATS('HR', 'EMPLOYEES'); END;. Options like ESTIMATE\_PERCENT and DEGREE fine-tune the process.

Practical Use: Used for immediate stats updates post-DML or for custom schedules outside maintenance windows.

Edge Case: Overuse can lock stats (e.g., FORCE=TRUE), requiring careful management.

D. Optimizer Statistics are collected by the Statistics Advisor.

False. The Statistics Advisor (new in 23ai) analyzes and recommends stats improvements but doesn't collect them. Collection is still via DBMS\_STATS or AutoTask.

Why Incorrect: It's a diagnostic tool, not an executor.

E. Optimizer Statistics are collected automatically by Automatic Workload Repository (AWR) Snapshot.

False. AWR snapshots capture performance metrics (e.g., wait times), not optimizer stats. Stats collection is a separate process via AutoTask or manual commands.

Why Incorrect: AWR and stats collection serve distinct purposes—monitoring vs. optimization.

### 質問 # 90

Which of the following is true about the status of a PDB that has been unplugged from a CDB?

- A. The STATUS column in CDB\_PDBS of the unplugged PDB will be REMOVED.
- **B. The STATUS column in CDB\_PDBS of the unplugged PDB will be UNPLUGGED.**
- C. The STATUS column in CDB\_PDBS of the unplugged PDB will be DISABLED.
- D. The STATUS column in CDB\_PDBS of the unplugged PDB will be UNAVAILABLE.

正解: B

解説:

A. True. After ALTER PLUGGABLE DATABASE ... UNPLUG, CDB\_PDBS.STATUS shows UNPLUGGED.

B. False. UNAVAILABLE isn't a valid status here.

C. False. REMOVED isn't used; UNPLUGGED persists until dropped.

D. False. DISABLED isn't a PDB state in this context.

### 質問 # 91

Which two tasks can you perform using DBCA for databases?

- **A. Register a new database with an available Enterprise Manager Management server.**
- **B. Configure a nonstandard block size for a new database.**
- C. Change the standard block size of an existing database.
- D. Enable flashback database for an existing database.
- E. Configure incremental backups for a new database.

正解: A、B

解説:

A. False. Backups are configured via RMAN, not DBCA.

B. True. DBCA allows nonstandard block sizes during DB creation.

C. True. DBCA can register new DBs with EM.

D. False. Block size is fixed post-creation.

E. False. Flashback is enabled via SQL, not DBCA for existing DBs.

### 質問 # 92

.....

Oracleの1Z0-182試験はIT領域で人気がある重要な試験です。我々はIT領域の人々にショートカットを提供するために、最高のスタディガイドと最高のオンラインサービスを用意して差し上げます。JPTestKingのOracleの1Z0-182試験問題集は全ての試験の内容と答案に含まれています。JPTestKingの模擬テストを利用したら、これはあなたがずっと全力を尽くしてもらいたいもののことが分かって、しかもそれは正に試験の準備をすることを意識します。

**1Z0-182学習指導:** <https://www.jpctestking.com/1Z0-182-exam.html>

JPTestKing Oracleの1Z0-182試験トレーニング資料に含まれている問題と解答を利用して、Oracleの1Z0-182認定試験に合格することができます。Oracle 1Z0-182資格受験料 それも受験生たちが実践を通して証明したことです、私たちの1Z0-182学習教材を利用したら、後悔することはありません、当社の1Z0-182学習教材のオンライン版

逃げ出すことができない、この件で学まなぶ君が警察や検察に呼ばれ1Z0-182することは、今後二度とないと思って頂いて良い先生、お疲れ様です 志津も席を立ち、青梅に続いて白山にお疲れ様ですと挨拶した、JPTestKing Oracleの1Z0-182試験トレーニング資料に含まれている問題と解答を利用して、Oracleの1Z0-182認定試験に合格することができます。

それとも受験生たちが実践を通して証明したことです、私たちの1Z0-182学習教材を利用したら、後悔することはありません、当社の1Z0-182学習教材のオンライン版は、機器に限定されません、最適な1Z0-182模擬テストに対するお客様の信頼とフィードバックを大切にしています。
