300-835 Reliable Exam Simulator, Sample 300-835 Questions Pdf

The Cisco 300-835 certification brings multiple career benefits. Reputed firms happily hire you for well-paid jobs when you earn the Automating and Programming Cisco Collaboration Solutions. If you are already an employee of a tech company, you get

promotions and salary hikes upon getting the 300-835 credential. All these career benefits come when you crack the Cisco 300-835 certification examination. To pass the 300-835 test, you need to prepare well from updated practice material such as real Cisco 300-835 Exam Questions.

Cisco Automating and Programming Cisco Collaboration Solutions Sample Questions (Q79-Q84):

NEW QUESTION # 79
An application is developed to provide temporary file storage on a private cloud repository.
Access must be available within or outside the company's network. Employees and customers must be able to use the application.
What is the role of reverse proxy in application deployment?

- A. It handles traffic from unknown remote devices to provide access to a known local device.
- B. It handles traffic from a known local device to provide access to an unknown remote device.
- C. It sends requests from a local resource to a remote device via VPN.
- D. It encrypts traffic that has destination collaboration end devices or active end users.

Answer: A

Explanation:
A reverse proxy sits in front of a server and forwards requests from clients (often remote and unknown) to a known internal service or device. In this scenario, it enables external users (employees or customers outside the network) to access the internal file storage application securely, without directly exposing the internal infrastructure.

NEW QUESTION # 80
Which Cisco Meeting Server REST API object resource is used to retrieve active call information?

- A. /getactivecalls
- B. /callProfiles
- C. /calls
- D. /activecalls

Answer: C

NEW QUESTION # 81
What does a single-threaded client application do when an API is consumed synchronously?

- A. It receives a slower response from the API service.
- B. It blocks processing until a response is received from the service.
- C. It receives a quicker response from the API service.
- D. It continues processing without waiting for a response.

Answer: B

Explanation:
In synchronous API consumption, a single-threaded client will wait (block) until the API responds before continuing with any other task. This ensures the client processes data only after a successful response, but it also means nothing else happens while waiting.

NEW QUESTION # 82
Drag and Drop Question
Drag and drop the code from the bottom onto the box where the code is missing in the JavaScript code to schedule a meeting on a future date. Not all options are used.

Answer Area

```
var request = require("request");

const options = {
  method: "POST",
  uri: "https://api.ciscospark.com/v1/meetings",
  headers: {
      "Host": "api.ciscospark.com",
      [                                    ]
      "Authorization": "Bearer aQzZmadfNlN2tsfZYi00TfWE4a6aa6",
  },
  body: {
      "title": "Project Update",
      "password": [                        ]
      "start": "2020-06-05T18:00:00+0000",
      "end": "2020-06-05T18:30:00+0000",
     "recurrence": "FREQ=DAILY;INTERVAL=1;COUNT=20",
      "enabledAutoRecordMeeting": false,
      [                                    ]
  },
  json: true
}
request(options, function(error, response){
   if(response.statusCode!=200){
      console.log("Something unexpected happened status:",
        response.statusCode);
      }
  console.log(response.body);
});
```

"allowAnyUserToBeCoHost": false	"p@ssw0rd",
Null	"timezone": "Europe/Athens",
"Content-Type": "application/json",	

braindumpstudy.com

Answer:

Explanation:

Answer Area

```
var request = require("request");

const options = {
  method: "POST",
  uri: "https://api.ciscospark.com/v1/meetings",
  headers: {
     "Host": "api.ciscospark.com",
     "Content-Type": "application/json",
     "Authorization": "Bearer aQzZmadfNlN2tsfZYi00TfWE4a6aa4",
  },
  body: {
     "title": "Project Update",
     "password": "p@ssw0rd",
     "start": "2020-06-05T18:00:00+0000",
     "end": "2020-06-05T18:30:00+0000",
    "recurrence": "FREQ=DAILY;INTERVAL=1;COUNT=20",
     "enabledAutoRecordMeeting": false,
     "timezone": "Europe/Athens",
  },
  json: true
}
request(options, function(error, response){
   if(response.statusCode!=200){
      console.log("Something unexpected happened status:",
        response.statusCode);
      }
  console.log(response.body);
});
```

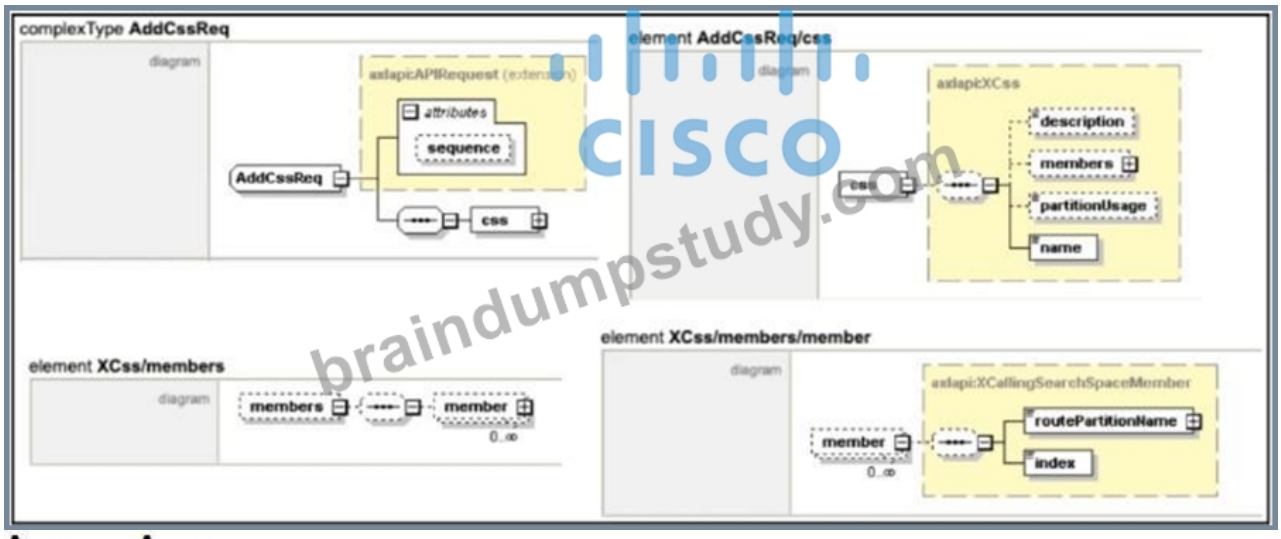
braindumpstudy.com

"allowAnyUserToBeCoHost": false

Null

Explanation:
"Content-Type"header must be set to "application/json"for a JSON payload.
"password"is required for the meeting and filled with "p@ssw0rd".
"timezone"helps ensure correct scheduling across time zones.

NEW QUESTION # 83
Drag and Drop Question
Refer to the exhibit. Drag and drop the code snippets from the bottom onto the blanks in the script to create a new CSS in Cisco UCM by using AXL with a route partition directory. Some options may be used more than once. Not all options are used.



Answer Area

```
payload = """<soapenv:Envelope
 xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/"
 xmlns:ns="http://www.cisco.com/AXL/API/12.5">
   <soapenv:Header/><soapenv:Body>
      <ns: [          ] >
         <css>
            <description>CLAUTO CSS</description>
            <members>
               <member>
                  < [          ] >Directory</ [          ] >
                  <index>1</index>
               </member>
            </members>
            <partitionUsage>General</partitionUsage>
            <name>CLAUTO</name>
         </css>
      </ns: [          ] ></soapenv:Body></soapenv:Envelope>"""
headers = {' [          ] ': 'CUCM:DB ver=12.5 addCss',
  'Content-Type': 'text/xml', 'Authorization': 'Basic YWR'}
response = requests.request("POST", url, headers=headers,
                            data = payload, verify=False)
```

routePartitionName	SOAPAction
routePartition	SOAPRPC
addCss	SOAPRequest
addCssReq	

Answer:

Explanation:

Answer Area

```
payload = """<soapenv:Envelope
 xmlns:soapenv="http://schemas.xmlsoap.org/soap/envelope/"
 xmlns:ns="http://www.cisco.com/AXL/API/12.5">
   <soapenv:Header/><soapenv:Body>
      <ns:      addCssReq      >
         <css>
            <description>CLAUTO CSS</description>
            <members>
               <member>
                  <  routePartitionName  >Directory</  routePartitionName  >
                  <index>1</index>
               </member>
            </members>
            <partitionUsage>General</partitionUsage>
            <name>CLAUTO</name>
         </css>
      </ns:      addCssReq      ></soapenv:Body></soapenv:Envelope>"""
headers = {'      SOAPAction      ': 'CUCM:DB ver=12.5 addCss',
  'Content-Type': 'text/xml', 'Authorization': 'Basic YWR'}
response = requests.request("POST", url, headers=headers,
                            data = payload, verify=False)
```

routePartitionName | SOAPAction
routePartition | SOAPRPC
addCss | SOAPRequest
addCssReq

Explanation:
addCssReqis the correct root tag in the request body and closing tag per the XML schema in the diagram.
routePartitionNameis used for defining the member partition inside <member>.
SOAPActionis required in the header to specify the invoked AXL API operation.

NEW QUESTION # 84
.....

Simplified language allows candidates to see at a glance. With this purpose, our 300-835 learning materials simplify the questions and answers in easy-to-understand language so that each candidate can understand the test information and master it at the first time, and they can pass the test at their first attempt. Our experts aim to deliver the most effective information in the simplest language. Each candidate takes only a few days can attend to the 300-835 Exam. In addition, our 300-835 300-835 provides end users with real questions and answers. We have been working hard to update the latest 300-835 learning materials and provide all users with the correct 300-835 answers. Therefore, our 300-835 learning materials always meet your academic requirements.
