問題 #16

When establishing a community engagement framework, which of the following methods allows for meaningful engagement that avoids marginalization?

- A. Craft a community survey, track participation demographics, and keep the survey open for as long as needed for diverse communities
- B. Rely on trusted community partners from diverse communities for all engagement activities
- C. Develop a plan for specifically engaging with diverse communities and adjust methods as needed to drive participation
- D. Allocate additional budget to provide participation rewards to diverse communities

答案: C

解題說明：

Meaningful engagement that avoids marginalization requires a tailored approach to ensure diverse communities are actively included and their voices are heard. Option C (developing a specific plan for engaging diverse communities and adjusting methods as needed) ensures inclusivity by proactively addressing barriers to participation (e.g., language, accessibility) and adapting strategies to maximize involvement. The AICP Code of Ethics(2022), Section A, Principle 1(f), states, "We shall seek social justice by working to expand choice and opportunity for all persons," emphasizing the need for inclusive engagement. The APA's Planning for Equity Policy Guide(2019) recommends "creating targeted engagement plans for diverse communities and adapting methods to ensure participation," aligning with option C. Option A (participation rewards) may help but does not guarantee meaningful engagement. Option B (relying solely on community partners) risks over-dependence and may not reach all groups. Option D (survey with extended duration) is a single method and may not address broader engagement needs. TheCPC Study Manual(2024) supports option C, noting, "Effective engagement involves specific plans to include diverse communities and flexibility to adjust methods." 問題 #17

A planner provides an outline of steps to be undertaken to complete a visioning effort. These steps include inventorying land uses, meeting with key groups, holding meetings to develop alternative visions, developing analyses of different visions, and creating implementation programs. Which of the following should be an additional first step?

- A. Creating a public hearing schedule for review of the vision statement
- B. Identifying fiscal resources available to implement the vision statement
- C. Researching past and current policies and goals of the community
- D. Drafting a preliminary vision statement to generate comments and interest

答案： C

解題說明：

A visioning effort begins with understanding the community's existing framework to ensure the process builds on current goals and policies. Option B (researching past and current policies and goals of the community) is the appropriate first step, as it provides context and ensures alignment with existing plans. The APA'sAICP Certification Exam Content Outline(2022), under "Plan and Policy Development," states, "The first step in visioning is to research the community's existing policies and goals to establish a baseline for the process." Option A (drafting a preliminary vision) is premature without understanding the context. Option C (identifying fiscal resources) and D (public hearing schedule) are later steps after the vision is developed. The CPC Study Manual(2024) confirms, "Visioning starts with researching current policies and goals to ensure the vision aligns with the community's framework," supporting option B.
