

New NCP-EUC Mock Exam & NCP-EUC Passed

DOWNLOAD the newest ExamsReviews NCP-EUC PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1UJn6scB09DlIpaPqVb2kqy7o5_O_3TNF

We guarantee you that our top-rated Nutanix NCP-EUC practice exam (PDF, desktop practice test software, and web-based practice exam) will enable you to pass the Nutanix NCP-EUC certification exam on the very first go. The authority of Nutanix NCP-EUC Exam Questions rests on its being high-quality and prepared according to the latest pattern.

If you buy our NCP-EUC practice engine, you can get rewards more than you can imagine. On the one hand, you can elevate your working skills after finishing learning our NCP-EUC study materials. On the other hand, you will have the chance to pass the exam and obtain the NCP-EUC certificate, which can aid your daily work and get promotion. All in all, learning never stops! It is up to your decision now. Do not regret for you past and look to the future.

HOT New NCP-EUC Mock Exam - Nutanix Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam - Latest NCP-EUC Passed

ExamsReviews are specialized in providing our customers with the most reliable and accurate NCP-EUC exam guide and help them pass their NCP-EUC exams by achieve their satisfied scores. With our NCP-EUC study materials, your exam will be a piece of cake. We have a lasting and sustainable cooperation with customers who are willing to purchase our NCP-EUC Actual Exam. We

try our best to renovate and update our NCP-EUC study materials in order to help you fill the knowledge gap during your learning process, thus increasing your confidence and success rate.

Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q100-Q105):

NEW QUESTION # 100

A multisite App Volumes deployment uses a stretched database over multiple Horizon View sites. Non-Attachable volumes will be used to support replication of AppStacks between blocks and pods.

What should the administrator do to be able to replicate AppStacks between the Nutanix clusters?

- A. Leverage an external storage system such as NFS NAS to support the non-attachable
- B. storage container on the primary cluster to at least one host in other Nutanix clusters,
- C. Utilize the native async disaster recovery technology to replicate the AppStacks between the Nutanix clusters.
- D. Replicate the .vmdk files and AppStacks permissions using a script between the Nutanix clusters,

Answer: C

Explanation:

regarding replicating AppStacks between Nutanix clusters, it is likely that the correct answer would involve configuring some form of replication or disaster recovery technology on the Nutanix clusters themselves.

NEW QUESTION # 101

Refer the exhibit

refer to the exhibit.

An administrator is getting complaints from users regarding virtual desktop performance. The user base is a mixture of task workers, knowledge workers, and power users. The administrator suspects there are user Virtual desktops that are consuming resources and are starving the other virtual desktops from performing adequately.

How many virtual desktops are contributing to this issue?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

The CPU usage percentage indicates how much of the allocated CPU resources the virtual desktop is consuming.

A high CPU usage percentage means that the virtual desktop is using a lot of CPU resources, which can affect the performance of

other virtual desktops on the same host or cluster.

According to Nutanix best practices, the recommended CPU usage percentage for virtual desktops is less than 80%.

VM-0001 (99%)

VM-0002 (98%)

VM-0003 (97%)

VM-0004 (96%)

VM-0005 (95%)

VM-0010 (85%)

VM-0016 (81%)

These virtual desktops are likely contributing to the performance issue by consuming too much CPU resources and starving other virtual desktops from performing adequately.

NEW QUESTION # 102

A group of developers are migrating from physical computers to persistent virtual desktops.

What is the recommended migration path?

- A. Deploy a base image and provision required hosted applications
- B. Convert the developers profile to a roaming profile.
- C. Convert the physical computers to virtual desktops,
- D. Deploy non-persistent desktops and install required applications.

Answer: C

Explanation:

persistent virtual desktops are virtual desktops that retain their state and configuration across sessions.

This means that users can customize their virtual desktops with their own applications, settings, and data, and have them available every time they log on.

Persistent virtual desktops are suitable for users who need a consistent and personalized experience, such as developers.

According to Nutanix best practices², one of the recommended migration paths for persistent virtual desktops is to convert the physical computers to virtual desktops.

This can be done by using a tool such as VMware Converter or Microsoft Disk2vhd to create a virtual disk image of the physical computer's hard drive.

Then, this image can be imported into Nutanix Cloud Platform and used as a base image for creating persistent virtual desktops.

This migration path can preserve the existing applications, settings, and data of the physical computers and minimize the disruption for the users.

NEW QUESTION # 103

An administrator is looking in Capacity Runway and noticed that a cluster supporting EUC profiles doesn't display CPU and memory information. This cluster was deployed three months ago.

What can be the reason for this behavior?

- A. Cluster has not been reporting data for the last 15 days.
- B. NTP setting is missing on the nodes.
- C. All nodes were configured as Storage-Only nodes.
- D. DNS setting is mismatched between PE and PC.

Answer: C

Explanation:

Capacity Runway in Prism Central calculates the "Runway" (time remaining before resource exhaustion) based on the consumption of User VMs running on the cluster.

If a cluster is configured with Storage-Only nodes (often used for dedicated Nutanix Files/Unified Storage deployments for profiles), the AHV scheduler is configured to prevent user VMs from running on these nodes (reserving resources strictly for CVMs and storage services). Since there are no general compute workloads (User VMs) consuming CPU/RAM, the Capacity Runway algorithm has no relevant "Guest VM" consumption data to analyze, resulting in the CPU and Memory fields being blank or not displayed, while Storage capacity might still be visible.

NEW QUESTION # 104

An administrator is asked to configure a container to support 2000 non-persistent linked clone desktops. What is the optimal configuration of this container?

- A. Deduplication Only
- B. Compression, Deduplication, and ECX
- **C. Compression Only**
- D. Compression and Deduplication

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:

According to Nutanix storage best practices for Virtual Desktop Infrastructure (VDI), the optimal configuration for Linked Clones is Compression Only.

* **Linked Clones and Data Efficiency:** In a Linked Clone environment, the Virtual Machines (VMs) already share a common base image (replica disk) at the hypervisor level. Because the identical operating system data is already shared via the cloning technology, the Nutanix Distributed Storage Fabric (DSF) manages this duplicate data efficiently without needing the Deduplication feature enabled on the container.

* **Redundancy of Deduplication:** Nutanix technical documentation explicitly states that for Linked Clones or Nutanix VAAI clones, deduplication provides no additional benefit because the data is already single-instanced. Enabling deduplication in this scenario would introduce unnecessary metadata overhead without delivering significant capacity savings.

* **Role of Compression:** Inline Compression is recommended for almost all workloads, including VDI. It effectively reduces the size of the unique data written to the delta disks (user data, temp files, and logs) associated with non-persistent desktops, maximizing storage efficiency without the performance cost of deduplication.

* **Shadow Clones:** For the read-heavy workload of 2000 desktops accessing the same base image, Nutanix utilizes Shadow Clones (enabled by default) to cache the "hot" replica disk locally on every node, ensuring high performance during boot storms, rendering the need for "performance tier deduplication" redundant for linked clones.

Summary of Best Practice:

* Full Clones / Persistent Desktops: Compression + Deduplication.

* Linked Clones / Non-Persistent Desktops: Compression Only.

NEW QUESTION # 105

.....

The Nutanix market has become so competitive and challenging with time. To meet this challenge the professionals have to learn new in-demand skills and upgrade their knowledge. With the Nutanix NCP-EUC certification exam they can do this job quickly and nicely. Your exam preparation with NCP-EUC Questions is our top priority at ExamsReviews. To do this they just enroll in Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) certification exam and show some firm commitment and dedication and prepare well to crack the NCP-EUC exam.

NCP-EUC Passed: <https://www.examsreviews.com/NCP-EUC-pass4sure-exam-review.html>

If you are still looking for NCP-EUC test online materials, our products will be your good choice, All details of the NCP-EUC exam questions are developed to aim squarely at improving your chance of success, In compliance with syllabus of the exam, our NCP-EUC preparation materials are determinant factors giving you assurance of smooth exam, You can also be part of successful NCP-EUC exam candidates.

They don't expect the blend modes to be as easy to use or NCP-EUC Passed as quick and lightweight as some of the filters in Photoshop, We see this shift in much of work: digital nomads are blending work and life in their quest to become temporary Latest NCP-EUC Dumps Questions locals Bleisure travel and bizcations have become more popular as people combine work and pleasure travel.

100% Pass Quiz High Pass-Rate Nutanix - New NCP-EUC Mock Exam

If you are still looking for NCP-EUC Test Online materials, our products will be your good choice, All details of the NCP-EUC exam questions are developed to aim squarely at improving your chance of success.

In compliance with syllabus of the exam, our NCP-EUC preparation materials are determinant factors giving you assurance of smooth exam, You can also be part of successful NCP-EUC exam candidates.

They know close to nothing about NCP-EUC the Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam exam model and how to attempt the requests.
