# New APMG-International ISO-IEC-27001-Foundation Test Prep - ISO-IEC-27001-Foundation New Braindumps Pdf

What's more, part of that BraindumpQuiz ISO-IEC-27001-Foundation dumps now are free: https://drive.google.com/open?id=1_bZkDjNdih_CpYJibbdu6I-X5lbz7_zx

Do you want to get the ISO-IEC-27001-Foundation certification to boost your career? Do you desire to feel competent and confident going into your real ISO/IEC 27001 (2022) Foundation Exam certification exam? Real ISO-IEC-27001-Foundation Exam Questions are available right here at BraindumpQuiz, so don't waste your time going elsewhere. By practicing with our Real ISO-IEC-27001-Foundation Exam Questions, which are offered in ISO-IEC-27001-Foundation PDF, web-based practice test, and desktop practice exam software formats, you can crack your ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) certification test on first attempt and advance in the APMG-International industry.

APMG-International ISO-IEC-27001-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	• Cybersecurity: Cybersecurity, also known as IT security or computer security, involves safeguarding computer systems, networks, and data from unauthorized access, theft, damage, or disruption to ensure the integrity and availability of digital information.
Topic 2	• Data Security: Data security refers to protecting digital information—such as that stored in databases or networks—from destruction, unauthorized access, or malicious attacks, ensuring confidentiality and integrity.
Topic 3	• Framework Design: Framework design is the process of developing a reusable structural foundation that supports and guides the creation and organization of software systems.
Topic 4	• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.

ISO-IEC-27001-Foundation New Braindumps Pdf - ISO-IEC-27001-

Foundation Test Testking

Each question presents the key information to the learners and each answer provides the detailed explanation and verification by the senior experts. The success of our ISO-IEC-27001-Foundation study materials cannot be separated from their painstaking efforts. Our system will do an all-around statistics of the sales volume of our ISO-IEC-27001-Foundation Study Materials at home and abroad and our clients' positive feedback rate of our ISO-IEC-27001-Foundation study materials. Our system will deal with the clients' online consultation and refund issues promptly and efficiently. So our system is great.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q51-Q56):

NEW QUESTION # 51
Who determines the number of days required for a certification audit?

- A. The management representative from the organization to be audited
- B. Both the management representative and the external auditor together
- C. The external auditor from the Certification Body who will undertake the audit
- D. The lead internal auditor from the organization to be audited

Answer: C

Explanation:
Certification audits are carried out by Certification Bodies (CBs), not the organization itself. ISO/IEC 27001 requires external certification audits to be independent, impartial, and objective. According to ISO/IEC 27006 (Requirements for bodies providing audit and certification of ISMS), the Certification Body determines the audit duration and number of audit days based on factors such as organizational size, complexity, scope, and risk environment. This ensures consistency across organizations and prevents manipulation by the auditee. ISO/IEC 27001 Clause 9.2 and 9.3 address internal audit and management review, but the determination of certification audit days is outside the organization's control; it rests solely with the accredited Certification Body auditors. Thus, answer: B is correct, as the CB's external auditor formally calculates and assigns the audit time.

NEW QUESTION # 52
Which statement describes Annex A of ISO/IEC 27001?

- A. Defines the criteria for accepting risks
- B. Defines a mandatory list of controls that shall be implemented
- C. Provides a reference list of information security controls and their requirements
- D. Provides measures to determine risk treatment effectiveness

Answer: C

Explanation:
Annex A of ISO/IEC 27001:2022 is titled:
"Reference control objectives and controls." It provides a reference list of information security controls, structured into 4 themes: organizational, people, physical, and technological.
The standard explicitly states in Clause 6.1.3: "Organizations can design controls as required or identify them from any source. Annex A contains a list of possible information security controls." This means controls in Annex A are not mandatory (eliminating option C). Risk acceptance criteria (A) are defined in Clause 6.1.2, not Annex A. Annex A also does not provide measures for treatment effectiveness (D).
Thus, Annex A is best described as a reference list of information security controls. Correct answer: B.

NEW QUESTION # 53
Which audit activity related to ISO/IEC 27001 may be carried out by a practitioner?

- A. Conduct an internal audit of the organization
- B. Conduct an audit of a Certification Body
- C. Conduct an audit of an Accredited Training Organization
- D. Conduct a surveillance audit of their own area of the organization

Answer: A

Explanation:
ISO/IEC 27001 requires internal audits and sets out how they must be conducted: "The organization shall conduct internal audits at planned intervals..." (9.2.1) and "plan, establish, implement and maintain an audit programme(s)... [and] select auditors and conduct audits that ensure objectivity and the impartiality of the audit process" (9.2.2). These extracts confirm that practitioners (internal to the organization) can conduct internal audits provided objectivity and impartiality are ensured (e.g., they do not audit their own work). Surveillance audits (option A) and audits of Accredited Training Organizations or Certification Bodies (options C, D) are third-party activities outside the remit of an internal practitioner under ISO/IEC 27001; the standard's audit requirement is focused on the organization's own internal audit programme. Therefore, conducting an internal audit (B) is the correct practitioner activity per Clause 9.2.

NEW QUESTION # 54
Which attribute is NOT a required focus of continual ISMS improvement?

- A. Suitability
- B. Importance
- C. Adequacy
- D. Effectiveness

Answer: B

Explanation:
Clause 10.2 (Continual Improvement) specifies that the organization must"continually improve the suitability, adequacy and effectiveness of the information security management system." This makes it clear that three attributes are explicitly required to be addressed:
* Suitability: ensuring the ISMS continues to meet organizational needs in changing contexts.
* Adequacy: ensuring the ISMS covers the necessary scope and provides sufficient control coverage.
* Effectiveness: ensuring the ISMS achieves intended outcomes in protecting information security.
The word"importance"is not part of the continual improvement requirement. Importance is implicit in prioritization of risks and actions, but it is not a required continual improvement attribute in ISO/IEC 27001.
Therefore, optionD: Importanceis the correct choice as it is not specified.
This distinction reinforces that continual improvement is not about subjective importance, but about systematic enhancement of the ISMS'ssuitability, adequacy, and effectiveness.

NEW QUESTION # 55
Which trend in information security performance is required to be considered during a management review of the ISMS?

- A. Decisions related to continual improvement opportunities
- B. Relevant external and internal requirements changes
- C. Validity of information continuity controls
- D. Achievement of information security objectives

Answer: D

Explanation:
Clause 9.3.2 (Management Review Inputs) states that management reviews shall include:
"c) information on the information security performance, including trends in: (1) nonconformities and corrective actions; (2) monitoring and measurement results; (3) audit results; and (4) fulfilment of information security objectives." This makesachievement of information security objectives(option A) a required trend to be considered.
While external/internal requirements (C) and continual improvement opportunities (D) are also part of management review inputs, they are not specifically listed under "trends in performance." Option B is outside the direct requirement.
Thus, the verified answer isA.

NEW QUESTION # 56
......

We are quite confident that all these APMG-International ISO-IEC-27001-Foundation exam dumps feature you will not find

anywhere. Just download the APMG-International ISO-IEC-27001-Foundation and start this journey right now. For the well and APMG-International ISO-IEC-27001-Foundation Exam Dumps preparation, you can get help from APMG-International ISO-IEC-27001-Foundation which will provide you with everything that you need to learn, prepare and pass the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) certification exam.
