

Exam ANS-C01 Material - Reliable ANS-C01 Exam Test

BONUS!!! Download part of TrainingDumps ANS-C01 dumps for free: https://drive.google.com/open?id=1Z-lkb5QrFCmYpgaj9nf_PKXWkdQVLmm0

We give customers the privileges to check the content of our ANS-C01 real dumps before placing orders. Such high quality and low price traits of our ANS-C01 guide materials make exam candidates reassured. The free demos of ANS-C01 study quiz include a small part of the real questions and they exemplify the basic arrangement of our ANS-C01 real test. They also convey an atmosphere of high quality and prudent attitude we make.

At present, our company has launched all kinds of ANS-C01 study materials, which almost covers all official tests. Every ANS-C01 exam questions are going through rigid quality check before appearing on our online stores. So you do not need to worry about trivial things and concentrate on going over our ANS-C01 Exam Preparation. After careful preparation, you are bound to pass the ANS-C01 exam. Just remember that all your efforts will finally pay off.

Best ANS-C01 : AWS Certified Advanced Networking Specialty Exam Exam Torrent Provide Three Versions for choosing

Our product is of high quality and boosts high passing rate and hit rate. Our passing rate is 98%-100% and our ANS-C01 test prep can guarantee that you can pass the exam easily and successfully. Our ANS-C01 exam materials are highly efficient and useful and can help you pass the exam in a short time and save your time and energy. It is worthy for you to buy our ANS-C01 Quiz torrent and you can trust our product. You needn't worry that our product can't help you pass the exam and waste your money. We guarantee to you our ANS-C01 exam materials can help you and you will have an extremely high possibility to pass the exam.

Amazon AWS Certified Advanced Networking Specialty Exam Sample Questions (Q125-Q130):

NEW QUESTION # 125

Your AWS WorkSpaces users are unable to authenticate. What could be one reason for this?

Response:

- A. Your AD server is running Windows Server 2012 Core Edition.
- B. Your AD server is running Windows Server 2016
- C. Port 389 is not open to your AD server.
- D. Port 3389 is not open to your AD server.

Answer: C

NEW QUESTION # 126

A company has deployed an AWS Network Firewall firewall into a VPC. A network engineer needs to implement a solution to deliver Network Firewall flow logs to the company's Amazon OpenSearch Service (Amazon Elasticsearch Service) cluster in the shortest possible time.

Which solution will meet these requirements?

- A. Configure flow logs for the firewall. Set the Amazon OpenSearch Service (Amazon Elasticsearch Service) cluster as the destination for the Network Firewall flow logs.
- B. Create an Amazon Kinesis Data Firehose delivery stream that includes the Amazon OpenSearch Service (Amazon Elasticsearch Service) cluster as the destination. Configure flow logs for the firewall Set the Kinesis Data Firehose delivery stream as the destination for the Network Firewall flow logs.
- C. Create an Amazon S3 bucket. Create an AWS Lambda function to load logs into the Amazon OpenSearch Service (Amazon Elasticsearch Service) cluster. Enable Amazon Simple Notification Service (Amazon SNS) notifications on the S3 bucket to invoke the Lambda function. Configure flow logs for the firewall. Set the S3 bucket as the destination.
- D. Create an Amazon Kinesis data stream that includes the Amazon OpenSearch Service (Amazon Elasticsearch Service) cluster as the destination. Configure flow logs for the firewall. Set the Kinesis data stream as the destination for the Network Firewall flow logs.

Answer: B

NEW QUESTION # 127

A company deployed its production Amazon VPC using CIDR block 33.16.0.0/16. The company has nearly depleted its addresses and now needs to extend the VPC network.

What CIDR blocks meet the company's requirement to extend the VPC network with a secondary CIDR?

(Select TWO.)

Response:

- A. 10.0.0.0/8
- B. 33.17.0.0/16
- C. 100.70.0.0/17
- D. 192.168.1.0/24
- E. 172.16.0.0/16

Answer: B,C

NEW QUESTION # 128

Your company uses an NTP server to synchronize time across systems. The company runs multiple versions of Linux and Windows systems. You discover that the NTP server has failed, and you need to add an alternate NTP server to your instances.

Where should you apply the NTP server update to propagate information without rebooting your running instances?

Response:

- A. cfn-init scripts
- B. instance meta-data
- C. DHCP Options Set
- D. instance user-data

Answer: C

NEW QUESTION # 129

A company has an AWS account with four VPCs in the us-east-1 Region. The VPCs consist of a development VPC and three production VPCs that host various workloads.

The company has extended its on-premises data center to AWS with AWS Direct Connect by using a Direct Connect gateway. The company now wants to establish connectivity to its production VPCs and development VPC from on premises. The production VPCs are allowed to route data to each other. However, the development VPC must be isolated from the production VPCs. No data can flow between the development VPC and the production VPCs.

In preparation to implement this solution, a network engineer creates a transit gateway with a single transit gateway route table. Default route table association and default route table propagation are turned off. The network engineer attaches the production VPCs, the development VPC, and the Direct Connect gateway to the transit gateway. For each VPC route table, the network engineer adds a route to 0.0.0.0/0 with the transit gateway as the next destination.

Which combination of steps should the network engineer take next to complete this solution? (Select THREE.)

- A. Create a new transit gateway with default route table association and default route table propagation turned on. Attach the Direct Connect gateway and development VPC to the new transit gateway.
- B. Associate the Direct Connect gateway attachment with the existing transit gateway route table. Propagate the Direct Connect gateway attachment to this route table.
- C. Associate the production VPC attachments with the existing transit gateway route table. Propagate the routes from these attachments.
- D. Change the security group inbound rules on the existing transit gateway network interfaces in the development VPC to allow connections to and from the on-premises CIDR range only.
- E. Associate all the attachments with the existing transit gateway route table. Propagate the routes from these attachments.
- F. Create a new transit gateway route table. Associate the new route table with the development VPC attachment. Propagate the Direct Connect gateway and development VPC attachment to the new route table.

Answer: B,C,D

NEW QUESTION # 130

.....

Different from the common question bank on the market, ANS-C01 actual exam are scientific and efficient learning system for a variety of professional knowledge that is recognized by many industry experts. We have carried out the reforms according to the development of the digital devices not only on the content of our ANS-C01 Exam Torrent, but also on the layouts since we provide the latest and precise information to our customers, so there is no doubt you will pass the ANS-C01 exam with our latest ANS-C01 exam questions.
