## APICS Certified in Planning and Inventory Management (CPIM 8.0) Sample Questions (Q287-Q292):

### NEW QUESTION # 287

Components of an organization's Immediate industry and competitive environment Include:

- A. interest rates.
- B. sociocultural forces.
- C. substitute products.
- D. political factors.

**Answer: C**

Explanation:

Substitute products are components of an organization's immediate industry and competitive environment. They are products or services that can satisfy the same customer needs or wants as the organization's offerings, but are provided by different industries or markets. Substitute products can affect the demand, price, and profitability of the organization's products, and require the organization to monitor and respond to the changes in customer preferences and competitive pressures. Political factors, interest rates, and sociocultural forces are examples of macroenvironmental factors, which are broader and more general forces that affect the organization and its industry, but are not directly related to its competitors or customers. - A. Keys are stored with source code in a revision control system.
- B. Keys are stored in a password protected zip file.
- C. Keys are stored in a cloud-based file storage system.
- D. Keys are stored in a central, internal key management system.

**Answer: D**

### NEW QUESTION # 289

A healthcare organization is preparing an exercise test plan of its Disaster Recovery Plan (DRP) for the Electronic Medical Record (EMR) application. The Business Continuity (BC) analyst is reviewing the requirements of the DRP. The EMR must provide basic charting services within 4 hours, must not lose more than 15 minutes of data, and must be fully functional within 12 hours. At the completion of the exercise, the analyst is preparing a lessons learned report and notes that the EMR was available after 3 hours and 25 minutes of data was lost. Which PRIMARY requirement needs to be addressed because of the exercise?

- A. Recovery Point Objective (RPO)
- B. Maximum Tolerable Downtime (MTD)
- C. Mean Time to Recovery (MTTR)
- D. Recovery Time Objective (RTO)

**Answer: A**

### NEW QUESTION # 290

A company decided not to pursue a business opportunity in a foreign market due to political instability and currency fluctuations. Which risk control strategy did this business utilize?

- A. Prevention
- B. Recovery
- C. Mitigation
- D. Wait and see

**Answer: A**

Explanation:

Prevention is a risk control strategy that involves avoiding or eliminating the sources of risk. By deciding not to pursue a business opportunity in a foreign market due to political instability and currency fluctuations, the company prevented the potential losses or disruptions that could arise from these factors. Mitigation is a risk control strategy that involves reducing the impact or likelihood of risk. Recovery is a risk control strategy that involves restoring normal operations after a risk event occurs. Wait and see is a risk control strategy that involves monitoring the risk situation and taking action only when necessary.
