AZ-800 Reliable Test Materials | Exam AZ-800 Questions

we believe that all students who have purchased AZ-800 practice materials will be able to successfully pass the professional AZ-800 qualification exam as long as they follow the content provided by our AZ-800 study materials, study it on a daily basis, and conduct regular self-examination through mock exams. Of course, before you buy, our AZ-800 Study Materials offer you a free trial service, as long as you log on our website, you can download our trial questions bank for free. I believe that after you try AZ-800 test engine, you will love them.

Microsoft Administering Windows Server Hybrid Core Infrastructure Sample Questions (Q62-Q67):

NEW QUESTION # 62

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory Domain Services (AD DS) domain named contoso.com.

You need to identify which server is the PDC emulator for the domain.

Solution: From a command prompt, you run `netdom.exe query fsmo`.

Does this meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:

You can use "netdom" or "netdom.exe", and the "query FSMO" will list all FSMO roles, including which server is the PDC.

NEW QUESTION # 63

Hotspot Question

Your network contains an Active Directory Domain Services (AD DS) domain named contoso.com.

You have a Microsoft Entra tenant.

You need to implement Microsoft Entra Connect Sync. The solution must meet the following requirements:

- Prevent the password hashes of contoso.com from being synced to the Microsoft Entra tenant.

- Minimize user effort when authenticating to Microsoft Entra registered apps.

- Minimize the number of on-premises infrastructure components.

What should you include in the solution for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Pass-through authentication.

This method allows users to authenticate using their on-premises passwords without syncing the password hashes to Microsoft Entra ID1.

Box 2: Single sign-on (SSO).

This feature allows users to sign in once and gain access to all their applications without needing to re-enter their credentials2.

NEW QUESTION # 64

Your company has offices in Boston and Montreal. The offices are connected by using a 10-Mbps WAN link that is often saturated.

The office in Boston contains the following:

* An Active Directory Domain Services (AD DS) domain controller named DC1.

* A server named Server1 that runs Windows Server and has the File Server role installed. The office in Montreal contains 20 client computers that run Windows 10. Montreal does NOT have any servers.

The company plans to deploy a new line of business (LOB) application to all the client computers. The installation source files for the application are in \\Server1\Apps.

Answer:

Explanation:

NEW QUESTION # 65

You have a server named Server1 that runs Windows Server and contains a file share named Share1.

You need to prevent users from stoning MP4 files in Share1. The solution must ensure that the users can store other types of files in the share.

What should you configure on Server1?

- A. file screens
- B. File Management Tasks
- C. NTFS Quotas
- D. NTFS permissions

Answer: A

NEW QUESTION # 66

Your on-premises network contains a server named Server1 and uses an IP address space of 192.168.10.0/24. You have an Azure virtual network that contains a subnet named Subnet1. Subnet1 uses an IP address space of 192.168.10.0/24. You need to migrate Server1 to Subnet1. You must use Azure Extended Network to maintain the existing IP address of Server1. What is the minimum number of virtual machines that you should deploy? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point

Answer:

Explanation:

NEW QUESTION # 67

.....

We provide the Administering Windows Server Hybrid Core Infrastructure (AZ-800) exam questions in a variety of formats, including a web-based practice test, desktop practice exam software, and downloadable PDF files. DumpTorrent provides proprietary preparation guides for the certification exam offered by the Administering Windows Server Hybrid Core Infrastructure (AZ-800) exam dumps. In addition to containing numerous questions similar to the Administering Windows Server Hybrid Core Infrastructure (AZ-800) exam, the Microsoft AZ-800 exam questions are a great way to prepare for the Microsoft AZ-800 exam dumps.

AZ-800 Reliable Test Materials: <https://www.dumptorrent.com/AZ-800-braindumps-torrent.html>

Our updated AZ-800 Dumps questions are the perfect way to prepare for the exam quickly and effectively, Our AZ-800 dumps PDF format works on a range of Smart devices, such as laptops, tablets, and smartphones, Microsoft AZ-800 Latest Exam Answers Though the price is quite low but the quality is unparalleled high, Practicing with AZ-800 Dumps practice test software will help you to keep a track on your preparation progress.
